THE GIANT HIMALAYA BERRY

This wonderful Berry originally came from the cold regions of the Himalaya Mountains. It is perfectly hardy, there being no winter anywhere in America too severe to kill it. It grows like a grape vine, making a growth of twenty-five to forty feet in a year, and can be trained to a trellis of any kind. It looks handsome on an arbor in the garden, back yard, or on the lawn, forming a great bush or weeping tree that is a beautiful sight, when in bloom, with its shell-pink blossoms.

It begins to fruit in July and continues to produce fruit until October, the plants growing larger and producing more fruit each year. There is no berry in existence like it. The fruit is large (See photo of Berries, $\frac{3}{4}$ natural size) black in color, almost coreless, and unsurpassed for eating, picked fresh from the vines, or cooked, canned or preserved in any form. Plants do well in the hot, dry sections of the South and West, and are making wonderful records in the Middle, Northern and Eastern States.

Do not fail to order some of these plants this spring, for they will be a source of great pleasure and profit to you for many years to come. Plants should be set any time in the spring when gardens are being planted.

This is certainly a wonderful berry, because the vines do not die down after fruiting, as is the case with other berries, but continue to live and grow year after year, like a grape vine or apple tree.

All our plants are grown from tested stock, as shown in the photographs, and we guarantee them TRUE.

Price of strong, well-rooted plants: 20c. each, 3 for 50c., 6 for 80c., 15 for \$1.60, 25 for \$2.50, postpaid. Set plants any time up to June 1.

A field of 3-year-old Giant Himalaya Berry Plants, showing vines after fall pruning. The main canes do not have branches, nor do they need pruning any more. All the growth is top growth, except an occasional branch from the main trunk.

Blowers Giant Blackberry

In describing it, a large fruit grower says: "Blowers is such a sturdy grower that the canes, if unchecked, attain a height of 10 to 12 feet, and are as hardy as an oak." The Blowers yields very heavily and for a long season. The fruit is handsome as well as large, of superb quality, with small seeds, and is very juicy. Mr. E. P. Powell, the well known horticulturist, declares: "The best I have ever tested." Its canes have endured a temperature of 20 degrees below zero unharmed, and it has yielded at the rate of 280 bushels per acre. Begins to ripen in midseason, continuing for a long time. Plants 3 for 25c., 6 for 40c., 15 for 75c., postpaid. By express, 100 for \$3.00, postpaid.

This photograph shows a cluster of ripe Giant Himalaya Berries, just picked from the vine. Could you ask anything better?

Ground Almonds

with a thin shell or skin of brown. It grows in the ground, as shown, close to the surface, producing an abundance of handsome green foliage resembling wide blades of grass, and is very prolific, a single nut yielding from 100 to 200 nuts in a hill. It will do well in any kind of soil. If the nuts are planted in spring, the same as potatoes, a big crop may be expected about potato harvest time. They grow rapidly and produce immense crops that will surprise you, as well as your neighbors. Ground Almonds are very appropriate on the table, with candies, or used as an after-dinner relish. Try them. Pkt. 6c., 3 pkts. 15c., oz. 12c., $\frac{1}{4}$ lb. 30c., postpaid. By express, not prepaid, neck \$2.25.

or Chufa, as it is sometimes called, has a fine flavor, resembling the Cocoanut or Almond. The meat is snow-white, covered

BRUSSELS SPROUTS

Perfection

We consider this the best variety. Very tender, good flavor, stands frost well. Stem 2 feet high, and on this produces sprouts resembling small cabbage.

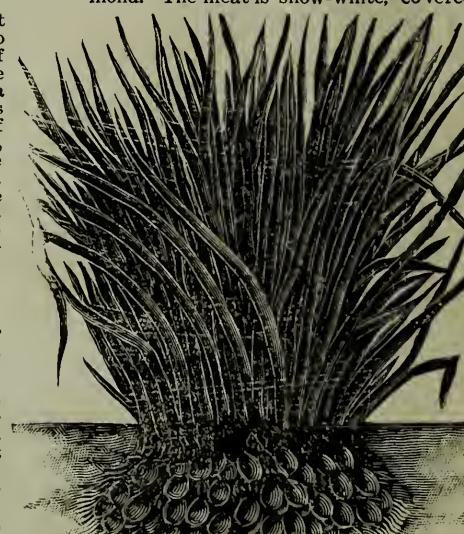

Pkt. 4c., 3 pkts. 10c., oz. 15c., $\frac{1}{4}$ lb. 40c.

Dwarf Giant Tomato

Illustration on front cover shows just what this truly Giant looks like, being a nice red. In 1913 we gave away over 150,000 sample packets of this wonderful tomato, and so great has been the praise from thousands who have raised a few plants from the samples we sent out, that we have been requested to offer the seed in regular packets this season. Dwarf Giant is a very stocky plant, producing a firm, smooth and solid fruit which is good for both home and market gardeners' use, a fine keeper, and handles well in transit.

It is the wonder of the Dwarf Giant Tomato family. Try some of this seed this season, if no other.

Per pkt. 6c., 3 pkts. 15c., $\frac{1}{2}$ oz. 50c. (See Front Cover)

DIRECTIONS FOR ORDERING

All Garden Seed Orders for \$1.25 or More Sent by INSURED PARCEL POST FREE

How to Order—In making out your order, write Name, Postoffice, County and State, and the varieties you want, quantity of each, and carry out the catalogue price after each one, enclosing the total amount, in any convenient form of remittance, to us by mail. Use our Order Blank if you have it.

Mail or Express—We send Seed postpaid by mail at the prices named in this catalogue, except where there are special quotations for the goods to be sent by Express, customers to pay the charges. To points where the Express Companies touch, we can send some orders as cheaply by express as by mail.

Express or Freight—We do not prepay express or freight, except in case we have quite an order purchased at postpaid prices to deliver and may prefer to send by Express prepaid.

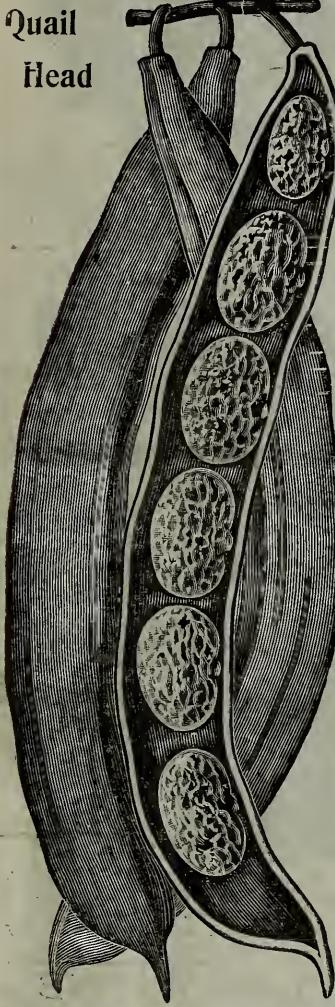

Terms and C. O. D. Shipments—Our terms are strictly cash with the order. We must decline to ship goods C. O. D.

How to Send Money—Either Post Office Money Order, Express Money Order, Bank Draft or Registered Letter. Small amounts will be accepted in postage stamps. Coin should be sewed or pasted in cloth or pasteboard to prevent breaking through the envelope, and registered. Do not send money loose in a letter; it is not safe, and if lost we are not responsible for it.

Prepaid Railroad Stations—Some customers live near prepaid railroad stations where there are no agents, and whenever it is possible we ship to the nearest station to this prepaid station, as we never pay freight charges.

Guarantee—We give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Quail
Head

Quail Head Bean

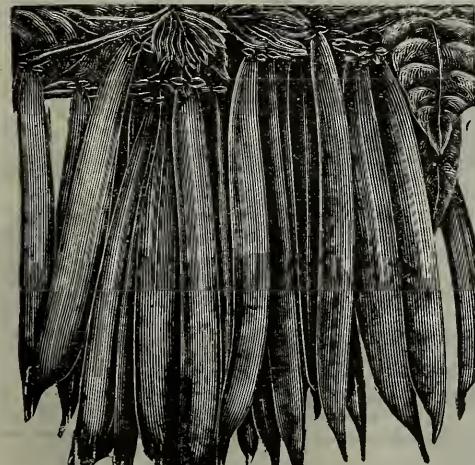

This is the great English Bean. It gets its name from the quail bird, well known in England and this country. Vines are very productive, compact, upright, and can be used as a bush or pole bean. Pods medium length, cylindrical, curved, with splashes of bright red on a yellow ground. They become fit for use as green shelled beans very early and in this condition the beans are very large, easily shelled and are about equal to the Lima in quality, altho' quite different in form. Seeds large, oval, plump, flesh colored and nearly covered with red splashes. Try them, if only in a small way. Pkt. 10c., $\frac{1}{2}$ pt. 20c., pt. 35c., by mail postpaid. By express, not prepaid, peck \$3.00.

Giant Stringless Green Pod

This is without question one of the most popular in existence. It is very early, producing a great abundance of round, fleshy rich green pods from $5\frac{1}{2}$ to 6 in. in length. Of the very finest flavor, and the plant continues to bear for several weeks, supplying enormous quantities of tender, brittle pods. Unexcelled for canning, market gardeners or home use. Our stock is strictly pure. Pkt. 5c., $\frac{1}{2}$ pt. 14c., pt. 25c., qt. 45c., postpaid. By Express or Freight, not prepnd. 4 qts \$1.10., pk. \$2.

Bountiful Bush Bean

We believe that it is a distinct improvement in green beans and will become exceedingly popular wherever grown. It is a prolific and continuous bearer, absolutely stringless, very tender and of excellent flavor. The plant is thrifty in growth, being practically rust and mildewproof. It is extremely early, being the first in spring, and it is the last to yield edible pods in the fall. One of the grand points of this new bush bean is in the rich green pods, which are of an enormous size, broad, thick, very long, uniform in shape, meaty, and of high quality, not only when young, but this tender quality is retained to maturity. We know all who try this splendid bush bean will be more than pleased. Per pkt. 5c., $\frac{1}{2}$ pt. 15c., pint. 25c., quart 45c., postpaid. By express or freight, not prepaid, 4 qts. 80c., pk. \$1.50.

Smiths' Rustless Wax Bean

Very early, grows vigorous and robust, holding the mammoth clusters of beautiful golden pods free from the ground. This bean is in every respect the nearest perfection of any wax variety in cultivation. We can highly recommend it.

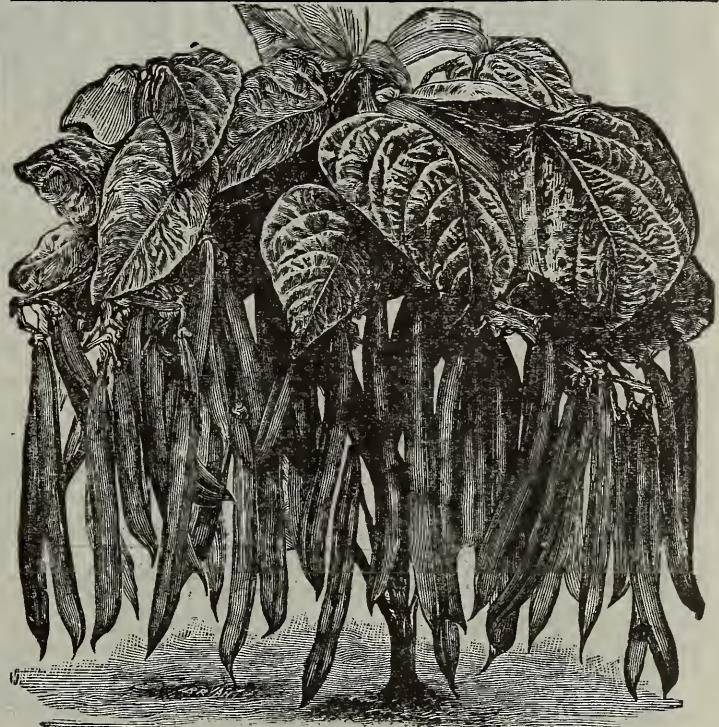

Pkt. 5c., $\frac{1}{2}$ pt. 15c., pt. 28c., qt. 45c., postpaid. By express or freight, not prepaid, pk. \$2.00.

ENDIVE

GREEN CURLED—A very hardy variety, with dark green leaves, which always blanch white and crisp.

Per pkt. 4c, 3 pkts. 10c, oz. 15c, $\frac{1}{4}$ lb. 35c, $\frac{1}{2}$ lb. 55c.

AGENTS WANTED—Good hustling men or women, boys or girls, to sell our seeds on a **Cash Commission**. Send for contract and state what territory you wish to have. Agents are making big money in a short time selling seeds. Now is the time to start work. Write us today.

Giant Stringless Green Pod Bean

COLLARDS

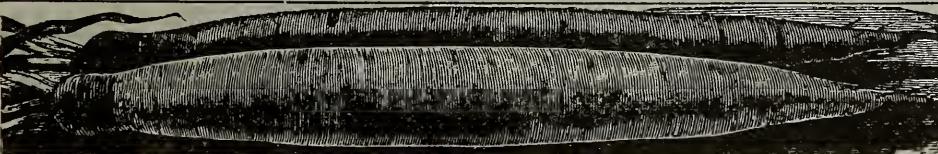

GEORGIA—Known as Colewart. Originated in the South. Grown for greens. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, $\frac{1}{2}$ lb. 50c.

Bountiful Bush Bean

Salsify or Vegetable Oyster

MAMMOTH SANDWICH ISLAND—Best variety grown; of large size, fully double the size of other sorts. Leading variety among gardeners. Delicious flavor. Pkt. 5c., 3 pkts. 12c., oz. 15c., $\frac{1}{4}$ lb. 55c., $\frac{1}{2}$ lb. \$1.00, lb. \$1.75. Postpaid.

2 SMITHS' IMPERIAL WHITE BEAN

Smiths' Imperial White Bean—The new bean for baking; very large and long pods, cook tender, and of excellent flavor. Cannot be surpassed by any bean on the market today that we know of. It is not only a garden bean but grown by the acre by farmers who make that a business. They are very large yielders and will withstand rust and spots better than others. Many a family has longed for the old fashioned Boston Baked Beans and here they are; try a few, if no more this season, and they will please far beyond your anticipations. Our stock is grown for our trade only and it is the best we ever had to offer the public.

Pkt. 5c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 40c., postpaid; by express or freight, pk. \$1.50, $\frac{1}{2}$ bu. \$2.75, bu. \$5.00.

LAZY WIFE BEAN

One of the best varieties for snaps of the late green podded pole beans. The pods are produced in great clusters, 5 to 7 inches long, broad, thick, fleshy and stringless with a buttery, rich flavor. The dried beans of pure white are very fine for winter use.

Pkt. 6c., 3 pkts. 15c., $\frac{1}{2}$ pt. 20c., pt. 35c., qt. 60c.

50c VEGETABLE SEED Offer !

Here is one of the best offers we have ever made a collection containing 25 full size packets for only 50c., postpaid. It is made up of the following: 1 pkt. Asparagus, 2 pkts. Beets, 1 pkt. Cabbage, 1 pkt. Carrot, 1 pkt. Celery, 1 pkt. Cucumber, 1 pkt. Lettuce, 2 pkts. Radish, 1 pkt. Tomato, 2 pkts. Turnips, 1 pkt. each of Spinach, Sweet Corn, Pop Corn, Salsify, Parsnip, Musk Melon, Water Melon, Onion, Peas, Pepper, Pumpkin, Squash.

This Collection Cannot be Changed.

King of the Garden Pole Lima

An old standard market and family variety one of the best for main crop. Vigorous in growth and immensely productive. The bearing season continues without interruption until frost. The pods are large, numerous and well filled, and the beans are of mammoth size. Pkt. 10c., pt. 25c., qt. 45c., postpaid. By express or freight, not prepaid, qt. 30c., 4 qts. \$1.10, pk. \$2.00, bu. \$7.50.

BURPEE'S BUSH LIMA BEAN

BURPEE'S IMPROVED NEW BUSH LIMA—A Bush Lima Bean of stout and erect growth from 18 to 20 inches high, branching freely and forming plants $2\frac{1}{2}$ feet in diameter. Very prolific, bearing large pods filled with beans of the same size and excellent flavor as the pole variety.

Pkt. 6c., 2 pkts. 10c., $\frac{1}{2}$ pt. 20c., pt. 35c., qt. 60c., postpaid.

GIANT STRINGLESS WAX BEAN

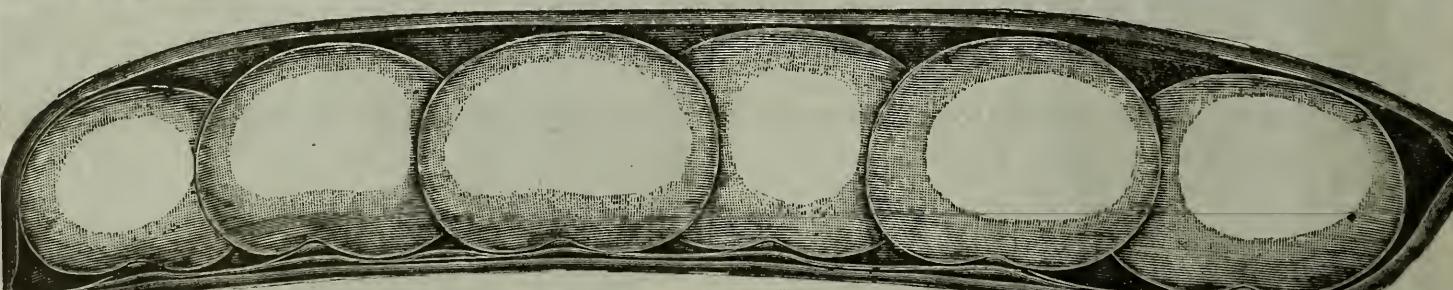

This is an excellent wax bean. Pods are a rich golden yellow color, extremely large and of the very finest quality. The vines are hardy and produce enormous quantities of long, thick fleshy pods.

Pkt. 5c., 3 pkts. 12c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 45c., postpaid. By Express or Freight, not prepaid, 4 qts. 80c., pk. \$1.50.

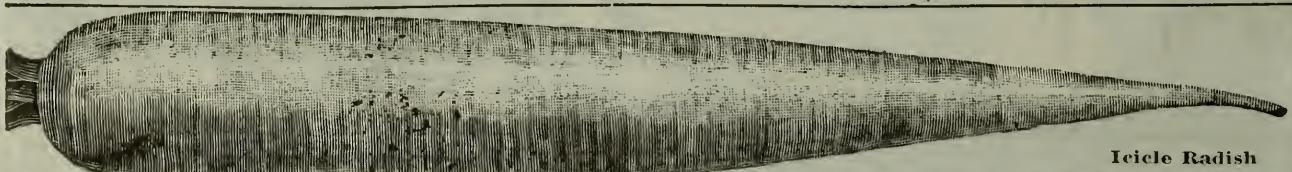

EXTRA EARLY RED VALENTINE

One of the best strains of Valentine Beans. It matures quickly and is of the very best quality. Early, productive, tender, and desirable for either family or market use. Pods saddleback, 4 inches long; even when grown, they are brittle. Generally grown for early market.

Pkt. 5c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 75c., pk. \$1.40, bu. \$4.75.

King of the Garden Pole Lima

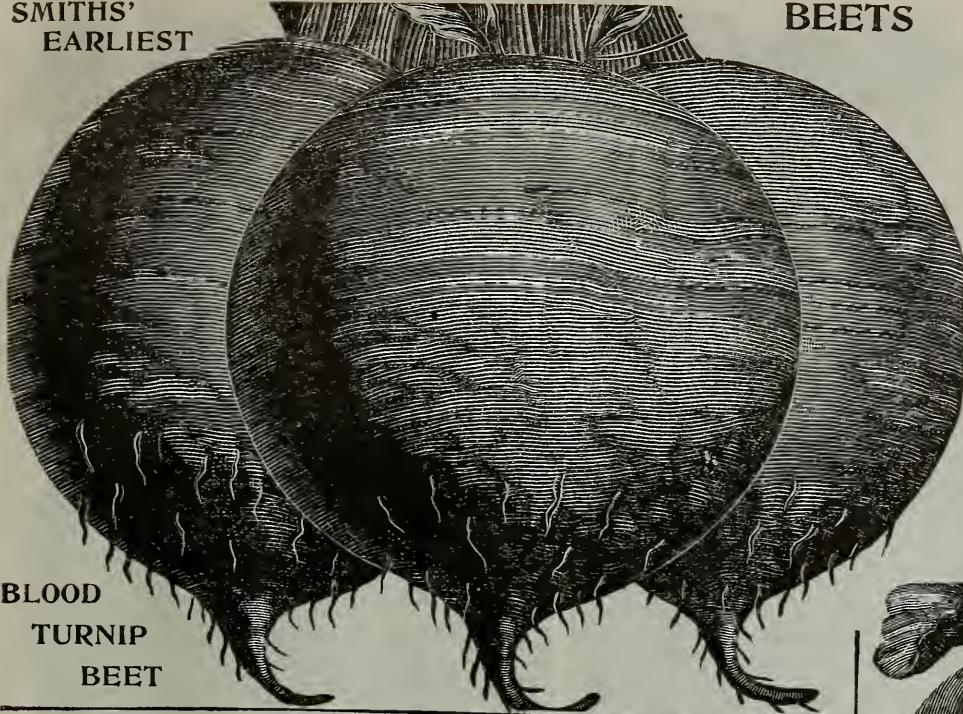

Icicle Radish

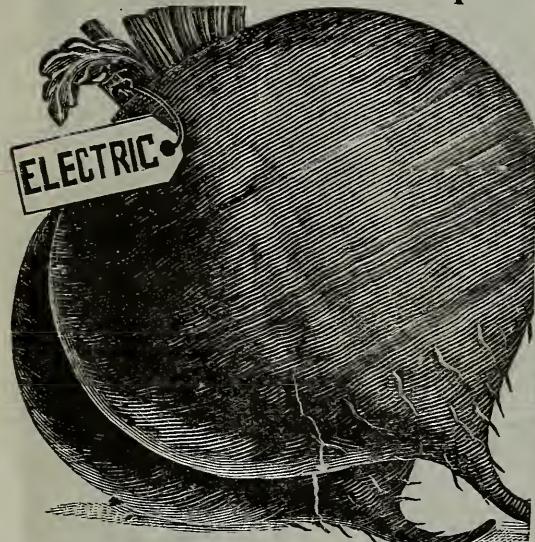

ICICLE

A long, extra early variety, color snow-white. Is crisp and brittle and of mild, excellent flavor, many claiming that its flavor is better

than that of the scarlet varieties. Has the same mild flavor at all stages of growth, and is the most popular of any of the white sorts. Is a short top variety, has few leaves, and the roots are very uniform in size. It is our special variety. Pkt. 5c., 2 pkts. 8c., oz. 12c., 2 ozs. 20c., $\frac{1}{4}$ lb. 35c., lb. 60c., postpaid.

Electric Blood Turnip

An extra early, round shaped Beet. Excellent for table use. It is a very early variety; the flesh is very tender; rich red in color and free from fibre. Pkt. 5c., 3 pkts. 12c. oz. 8c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 85c., postpaid.

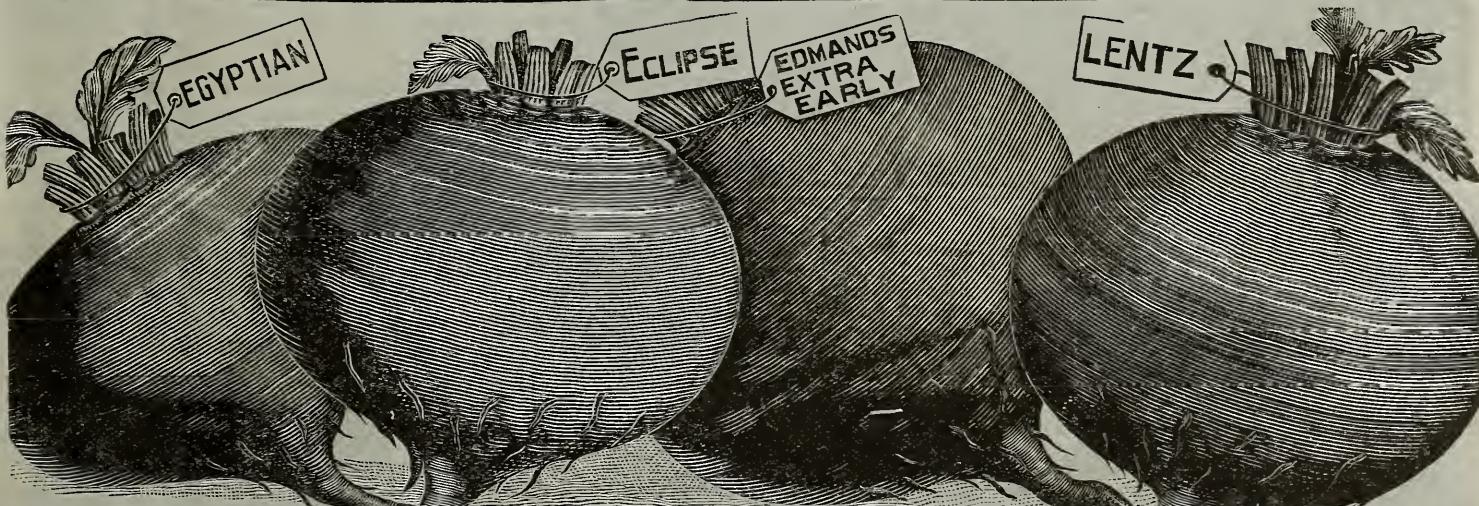

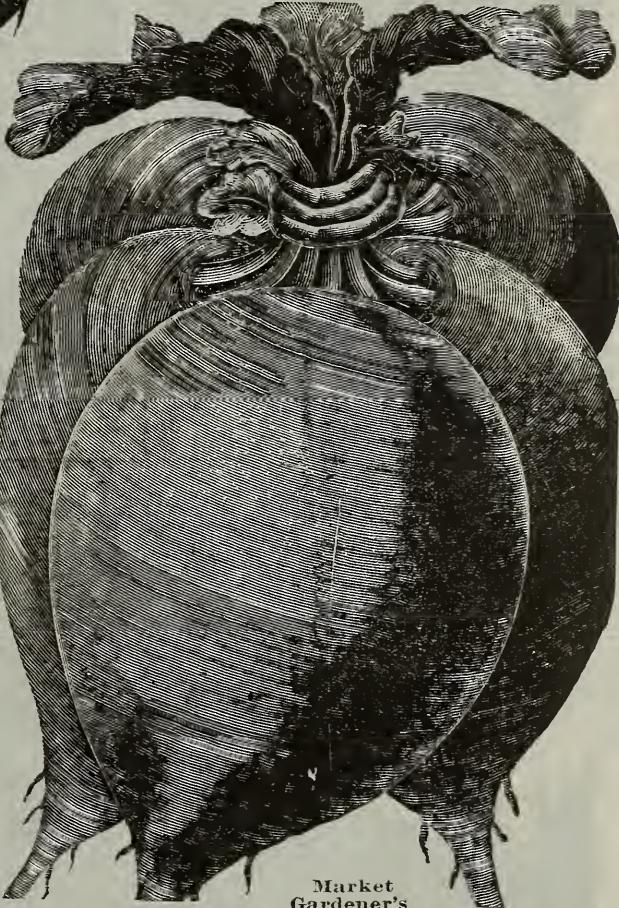

MIXED BEETS—This is as good a thing as can be grown in the garden. A special mixture of all the best Table Beets. Pkt. 4c., oz. 8c., 1/4 lb. 20c., 1/2 lb. 35c.

Smiths' Earliest Blood Turnip 3

This Early Blood Turnip Beet is certainly worthy of a place in every garden. It makes no difference what variety you have grown in the past you have not produced the earliest unless you have grown this new strain. It is a very handsome shaped Beet as will be seen by the illustration. The flesh is a deep, dark red in color, fine grained and one of the most delicious flavored table beets ever produced. It is especially desirable for forcing purposes and spring and summer crops. It is a splendid keeper and one of the very best sorts for winter use. We can assure our customers that this early beet possesses every good quality that could possibly be desired. Be sure to plant a quantity this season. Pkt. 5c., 3 pkts. 12c., oz. 10c., 1/4 lb. 30c., 1/2 lb. 55c. lb. 95c., postpaid.

Market Gardeners' Beet

This is a splendid Beet. It is a rapid grower and exceedingly valuable for winter use, keeping firm and perfect longer than any other variety. It is a very heavy cropper, good shape, dark red color and fine flavor. Pkt. 5c., 3 pkts. 12c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 80c., postpaid.

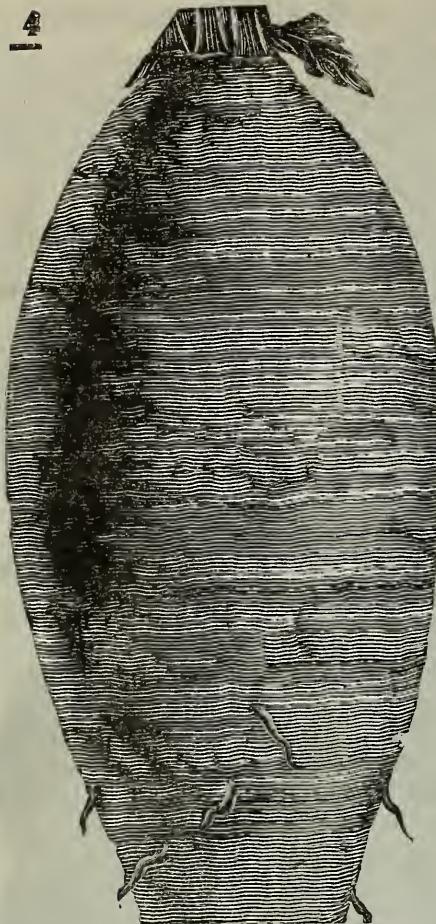

Egyptian is early; flesh fine-grained dark red color. It is an old standard strain and we supply our customers with choice seeds of the genuine Egyptian type. Pkt. 5c., 3 pkts. 12c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 85c., 8c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 85c.

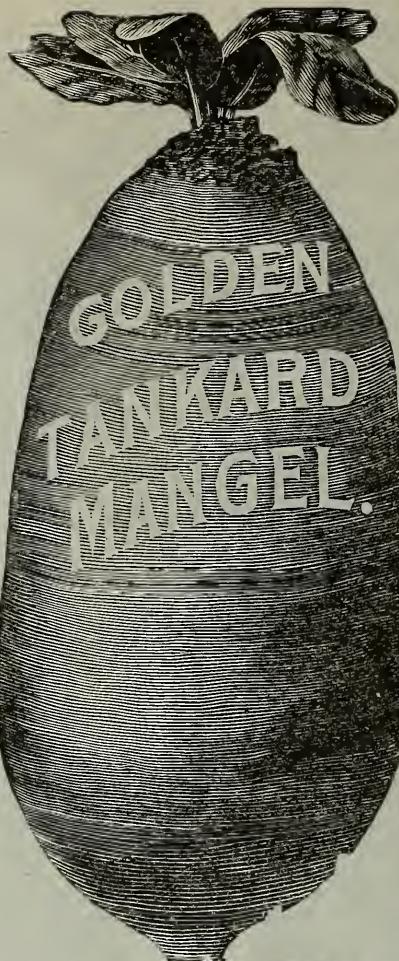

The **Eclipse** is considered by many as being one of the best and most valuable Blood Turnip varieties and it certainly is a beet of unusual merit. It is fine grained, uniform in shape and very productive. Pkt. 4c., 3 pkts. 10c., oz. 9c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 85c.

Edmands is noted especially for its rich, sweet flavor, handsome deep red color and excellent keeping qualities, and is certainly a splendid garden beet. Pkt. 4c., 3 pkts. 10c., oz. 9c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 85c.

Lentz is a remarkably early strain large sized, maturing in 7 to 8 weeks. It is one of the best beets on the market, fine grained, excellent quality and will please every customer. Pkt. 4c., 3 pkts. 10c., oz. 8c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 70c.

Mammoth Prize Long Red Mangel

Mangel Wurzels for Stock Feeding

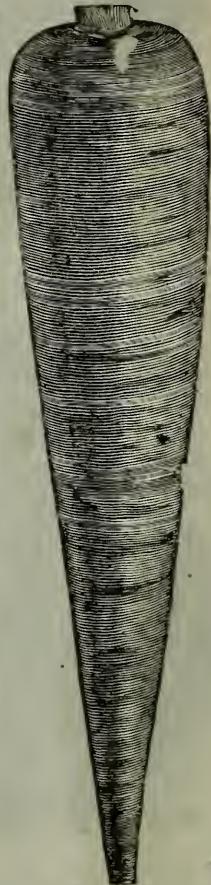

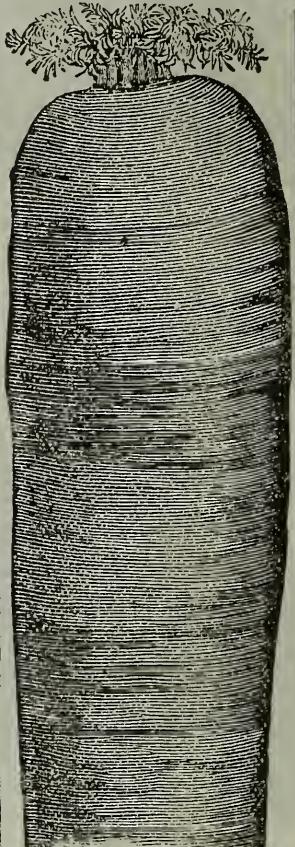

Mammoth Prize Long Red—One of the largest mangels cultivated, grows about $\frac{1}{2}$ out of ground, often weighing 30 pounds (60 tons per acre); fine grained, one of the best varieties for feeding purpose. Pkt. 4c., oz. 8c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., 3 lbs. \$1.25, postpaid.

Golden Tankard Mangel—Matures early, very hardy and yields 50 to 60 tons per acre; fine grained and one of the leading yellow sorts. Pkt. 4c., oz. 8c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., 3 lbs. \$1.20, postpaid.

Red Globe Mangel—Good for planting in shallow soil because of its short, oblong shape; great producer and desirable for winter feeding. Pkt. 4c., 2 pkts. 7c., oz. 8c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., postpaid.

Smith's Improved Sugar—Rich and sugary in quality, very productive; some weigh about 35 lbs. each, yields 25 to 30 tons per acre. Pkt. 4c., 2 pkts. 7c., oz. 8c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., postpaid.

SMITHS' SELECTED CARROTS

Smiths' Agricultural Carrot—Produces long uniform roots, large size and true yellow; is immensely productive and good keeper. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 55c., lb. \$1.00, postpaid.

IMPROVED LONG ORANGE CARROT

Large, fine grained, deep orange color, very productive, — very best variety. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 50c., lb. 95c., postpaid.

NEW GOLDEN BEAUTY CARROT

Half long, stump rooted variety, free from core, sweet and tender. Very productive, yielding from 35 to 40 tons per acre. This is a carrot that will please everyone who grows it. Pkt. 4c., 3 pkts. 10c., oz. 12c., 2 ozs. 18c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 55c., lb. \$1.00, postpaid.

OXHEART OR GUERANDE CARROT

Intermediate in length, 4 to 5 inches in diameter, very productive, and of excellent quality. It is very early—splendid for home use or market purposes. Pkt. 4c., 3 pkts. 9c., oz. 8c., 2 ozs. 15c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 45c., lb. 85c., postpaid.

MASTODON—This is a very large and productive white Carrot. A great improvement on the Belgian sort. The flesh is pure white, crisp and solid, very sweet in flavor, roots of large size, very heavy at the shoulder and frequently measure 15 to 18 inches in length, and yielding 20 to 25 tons per acre. Pkt. 4c., 3 pkts. 10c., oz. 8c., 2 ozs. 14c., $\frac{1}{4}$ lb. 24c., $\frac{1}{2}$ lb. 40c., lb. 75c., postpaid.

SMITHS' CARROT MIXTURE

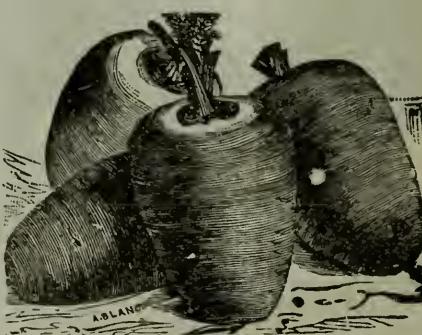

This great mixture contains all the different varieties we offer and includes all shapes, colors and sizes. Pkt. 4c., 3 pkts. 9c., oz. 8c., 2 ozs. 14c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 65c., 2 lbs. \$1.20, postpaid.

Danvers Carrots

THE BEST CARROTS GROWN

Danvers Carrot—This variety is well adapted to all soils and conditions. Very productive, medium length; roots smooth; of dark, rich orange color; will yield from 20 to 25 tons per acre. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 55c., lb. \$1.00, postpaid.

Dwarf Golden Heart Celery

Of dwarf habit. The heart is very large pure golden yellow. One of the most showy varieties and a splendid keeper.

Pkt. 4c., 3 pkts. 10c.,
1/2 oz. 8c., oz. 15c., 1/4 lb.
45c., 1/2 lb. 85c., lb. \$1.65.

Giant Pascal

Stalks are extremely large and entirely stringless. Is very crisp and brittle. It is one of the best shippers in cultivation, as it does not rust or rot. The heart is a rich bright yellow. One of the leading varieties. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 10c., oz. 15c.

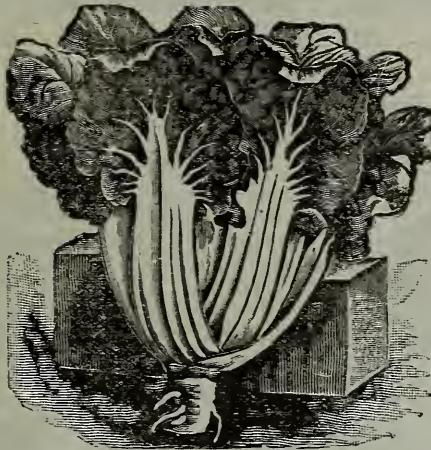

POP CORN

Tom Thumb

One of the very smallest varieties of pop corn, growing only about 18 inches high, and produces from 2 to 4 perfect little ears. Each ear is from 2 to 2 1/2 inches long, with kernels of a bright golden yellow.

When popped, these expand to a large size.

Pkt. 5c., 3 pkts. 12c.

LARGE RIBBED WHITE—This variety does not make edible roots like the regular garden beets, but is grown for the broad whiteleaf stalks, which are bunched and cooked in the same manner as asparagus, and make a delicious summer vegetable. The young leaves may be gathered also and cooked like spinach, and by many are considered more delicious in flavor. Pkt. 5c., 3 pkts. 12c., oz. 15c., 1/4 lb. 35c., 1/2 lb. 60c., lb. \$1.00 postpaid.

Cauliflower

SMITHS' EARLY FAVORITE

This excellent variety surely surpasses all others and will stand the heat and drought of any climate the best of all and is the earliest and surest of any variety to head. For forcing, it is particularly well adapted as a sort for the family and market gardening. It is unquestionably the largest as well as the best and market gardeners, as well as others, after once sowing it will have no other. Pkt. 6c., 3 pkts. 15c., 1/2 oz. 90c., oz. \$1.75.

Early Snowball

EARLY SNOWBALL.—This is a well-known variety and the seed is always high in price, it having been a great favorite for many years throughout the country. It is early, close growing, compact habit, well adapted for forcing under glass during the winter and spring. We offer choice imported stock. Pkt. 10c., 3 pkts. 25c., 1/2 oz. \$1.25., oz. \$2.25., 1/2 lb. \$8.00

AGENTS WANTED—To sell Garden Tools, Seeds, Incubators, and Novelties. Write.

Golden Self Blanching Celery GILT EDGED STRAIN

PINK PLUME—Is a splendid new variety; intermediate between the white and rose Celery and combines the good quality of both; is a very strong healthy grower and it has no tendency to rust. Stems are solid and crisp and it is a good keeper. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c., oz. 22c., 2 oz. 40c., 1/2 lb. 75c.

LARGE RIBBED RED—The ribs are thicker and much stiffer than many others. Exceedingly healthy, excellent quality, tender, good flavor and will keep splendidly throughout the winter. Handsome in appearance and popular wherever grown.

Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c., oz. 22c., 2 oz. 45c.

GOLDEN SELF-BLANCHING—Is a splendid variety wonderfully productive, solid, crisp and of delicious flavor. Rich golden yellow color, heart large and solid. It is claimed to be the best Celery in cultivation; also the most popular; stalks always perfectly solid. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 20c., oz. 35c., 1/4 lb. \$1.25., 1/2 lb. \$2.00., lb. \$3.75 postpaid.

Smiths' Celery Mixture

This mixture contains a splendid selection of all the leading and most valuable varieties in cultivation, and will certainly give the greatest possible satisfaction.

Pkt. 4c., 3 pkts. 9c., 6 pkts. 16c., 1/2 oz. 10c., oz. 15c., 2 oz. 25c., 1/4 lb. 40c., 1/2 lb. 75c., lb. \$1.40.

RED RICE POP CORN

Very productive, beautiful red color, first-class in every respect. Very tender and delicious and sure to give satisfaction. Pkt. 6c., 3 pkts. 12c., 6 pkts. 20c.

White Plume Celery 5

WHITE PLUME

This is one of the earliest and easiest varieties to grow, almost self blanching, producing very fine stalks and will mature as early as October. A good keeper.

Pkt. 5c., 3 pkts. 12c., 1/2 oz. 10c., oz. 15c., 2 oz., 25c., 1/4 lb. 45c., 1/2 lb. 80c.

CAULIFLOWER

EARLY SNOWBALL CAULIFLOWER

Copenhagen Market Cabbage

EARLY SPRING CABBAGE

This is a first-class, extra early, round, flat head Cabbage. The heads are always uniform, remarkably solid with but few leaves and is giving great satisfaction everywhere. The stem is short, which makes it very valuable for truckers as well as private gardeners. Pkt. 5c., oz. 20c., 2 ozs. 35c., $\frac{1}{4}$ lb. 60c., $\frac{1}{2}$ lb. \$1.15, lb. \$2.00, postpaid.

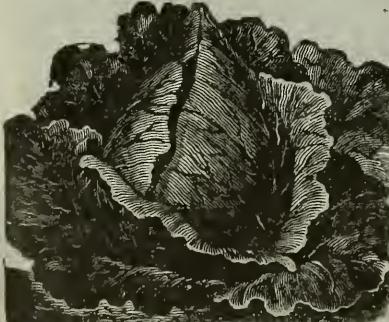

Early Spring Cabbage

MAMMOTH ROCK RED

The best Red Cabbage known; heads of a deep red, inside and out, and is almost as solid as a rock. For pickling purposes nothing can surpass this variety. It is planted by all leading market gardeners and always demands a ready sale. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 50c., $\frac{1}{2}$ lb. 95c., lb. \$1.80, postpaid.

EARLY WINNINGSTADT

Forms large cone-shaped heads of excellent quality. Will grow solid heads in seasons when other sorts fail. A good reliable cabbage. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 45c., $\frac{1}{2}$ lb. 85c., postpaid.

SMITHS' EARLY JUNE

Our great specialty, just what its name indicates. Quickest growing of all cabbages. Heads large, solid, good quality. Pkt. 5c., 3 pkts. 12c., 7 pkts. 25c., oz. 20c., 2 ozs. 35c., $\frac{1}{4}$ lb. 60c., $\frac{1}{2}$ lb. \$1.10, lb. \$2.00 postpd.

Special Offer : We will mail any 4 packages of Cabbage Seed offered in this catalogue (customer's own selection) for only 15c.

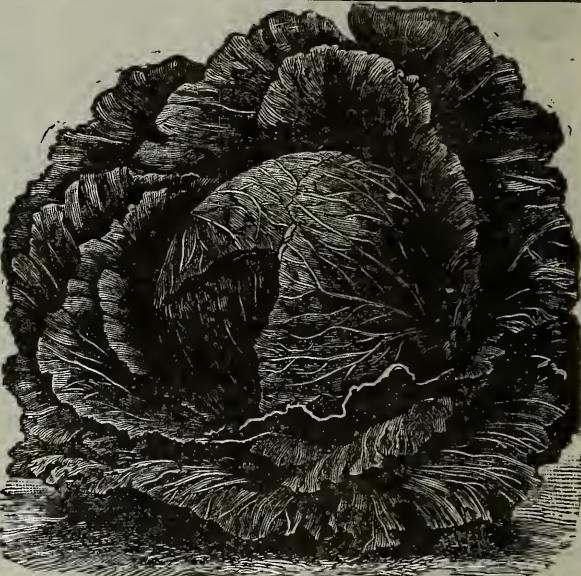

Copenhagen Market Cabbage

This new earliest of all Globe Shaped Cabbage attracts attention where ever grown. The most popular cabbage in the Copenhagen markets. The heads are remarkably solid, with few loose leaves, of fine quality, with small cores, and have an average weight of about 10 lbs. each. This Cabbage is unrivaled as the most equally maturing and large heading early Cabbage in existence. It was first introduced in 1910, seed being scarce and very high priced. If you grow Copenhagen Market you will have one of the finest early Cabbages ever offered. Highly recommended by every one growing it. Crop of seed this year is very short. Price of seed direct from Copenhagen. Pkt. 6c., 3 pkts. 16c., oz. 45c., 2 ozs. 80c.

ALL SEASONS' CABBAGE

This Cabbage is early, medium or late, just as the name indicates and can be planted at all seasons, producing fine large heads not liable to burst after heading. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 65c., lb. \$1.25

We should like to have you try some of our OATS and CORN, grown and selected with great care for our customers.

All Seasons' Cabbage

ALL HEAD EARLY

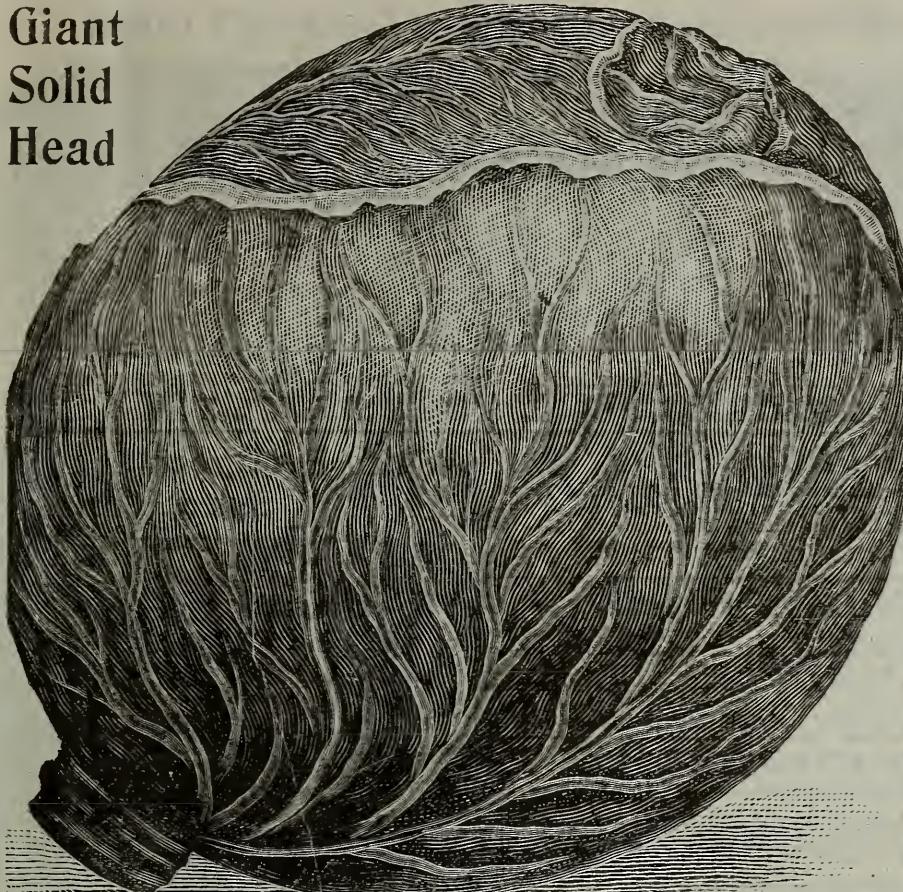

Finest large flat head summer cabbage in the world. The deep flat heads are remarkably solid, and the most uniform in shape and size of any variety in cultivation. Heads grow so compact that fully 1,000 more heads can be obtained to the acre than any other cabbage. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 45c., $\frac{1}{2}$ lb. 85c., lb. \$1.60.

If you want the Best Extra Early Cabbage in the world, you should not fail to order Early June.

Smiths' Early June Cabbage—Earliest of All

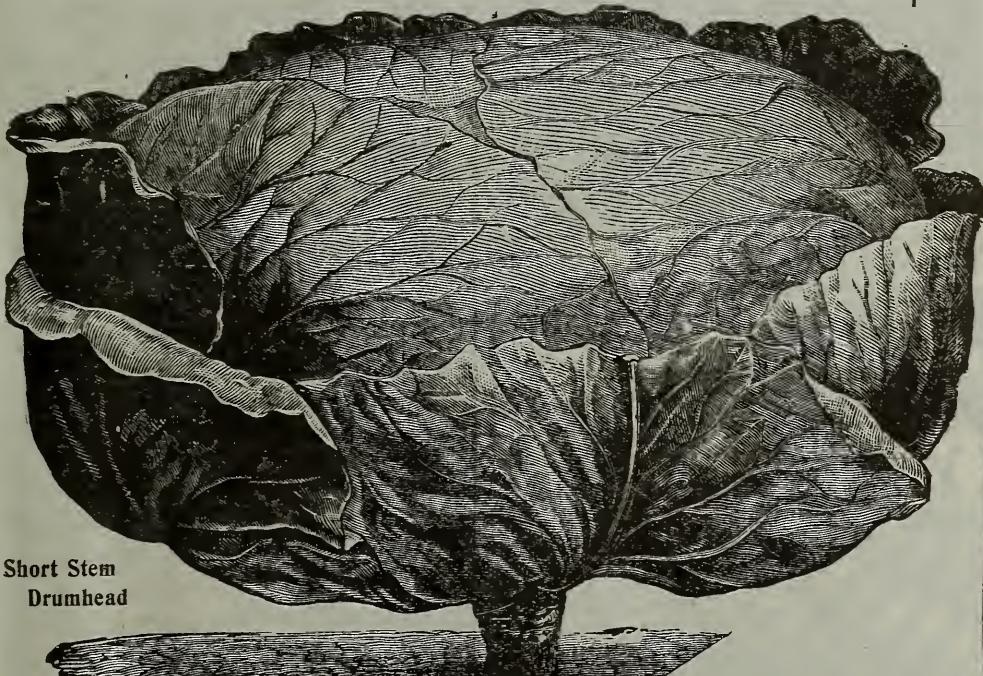

Giant Solid Head

Giant Solid Head Cabbage

This is a late variety and is rightly named, for the heads are always very hard and grow compact as shown by the illustration. The heads being so round and deep, are not liable to crack. There are no coarse ribs or stems to be found in a head. It is a vigorous grower and will stand drought to a remarkable degree, heads averaging from 8 to 12 pounds each throughout a whole crop. Grand sort to store for spring market.

Pkt. 5c., 3 pkts. 12c., oz. 20c., $\frac{1}{4}$ lb. 75c., $\frac{1}{2}$ lb. \$1.20, lb. \$2.25, postpaid.

Short Stem
Drumhead

Short Stem Drumhead Cabbage

Very few varieties can equal this famous sort for productiveness. Excellent cooking and keeping qualities and large sized heads. They grow very uniform in size, are round and flattened on the top and make a handsome appearance as shown by the illustration. It always heads well, often when other varieties fail, and is the leading variety in many sections to plant for market. Very popular in the South.

Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 45c., $\frac{1}{2}$ lb. 85c., lb. \$1.60 postpaid.

Surehead Cabbage

This is the surest heading variety in existence. It is always sure to head, producing large, solid, firm heads even in the most unfavorable seasons. Heads large, round and often weigh from 40 to 50 pounds each. Very tender, free from large ribs, never cracks on top or side of head. It is a good one. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 45c., $\frac{1}{2}$ lb. 85c., lb. \$1.65, postpaid.

Smiths' Celebrated Cabbage Mixture

This mixture will prove a great curiosity as well as very valuable. A continual supply of the very earliest to the latest varieties may be had. Those who do not care to keep varieties separate will find this mixture just what they want. Just the thing for a family garden. Try it this year. Pkt. 4c., 3 pkts. 10c., oz. 12c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 65c.

Giant Late Flat Dutch Cabbage

7

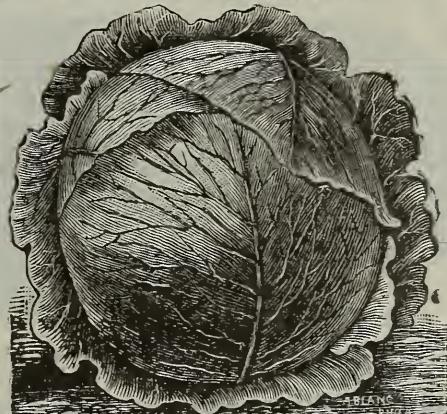

Giant Late Flat Dutch Cabbage

This variety always forms large solid heads, uniform in size and color and handsome in appearance. The stem is short and nearly every plant set out will form large solid heads. Farmers who grow cabbage for a late crop should grow this one on account of its weight and size. It is always very solid, extra fine grained and a wonderful keeper.

Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 50c., $\frac{1}{2}$ lb. 85c., lb. \$1.75.

IMPROVED DANISH BALLHEAD—This new Cabbage comes from Denmark, and is one of the very best to grow for market. The heads are hard, round, of good marketable size, fine grain; good keepers and have become very popular in many sections as a main crop cabbage. Pkt. 5c., oz. 30c., $\frac{1}{4}$ lb. \$1.00, $\frac{1}{2}$ lb. \$1.90, lb. \$3.25 postpaid.

Surehead Cabbage

EARLY PREMO
SWEET CORN

Early Minnesota—A standard early sort, of excellent quality, especially desirable where seasons are short. The ears bear 8 to 10 rows of large, white grains. This variety is popular on account of its great productiveness. Excellent for market, home and canning use. Large pkt. 5c., $\frac{1}{2}$ pt. 18c., pt. 30c., qt. 50c., postpaid.

EARLY PREMO

It is superior to many other varieties on account of its earliness, handsome appearance and excellent quality. The ears are from 5 to 7 inches long. A variety greatly sought for by the gardeners and those raising early Sweet Corn for market. Pkt. 6c., $\frac{1}{2}$ pt. 18c. postpaid. By express, not prepaid, 4 qts. 75c., pk. \$1.25.

GOLDEN BANTAM

This is an excellent early Golden Sweet Corn. It has a very rich, sweet flavor, stalks grow about four feet in height and produce from one to two good ears on each stalk, being from five to six inches in length. When the ears are ready for use, the grains are a bright golden yellow, being rich and sugary and sweetest of all.

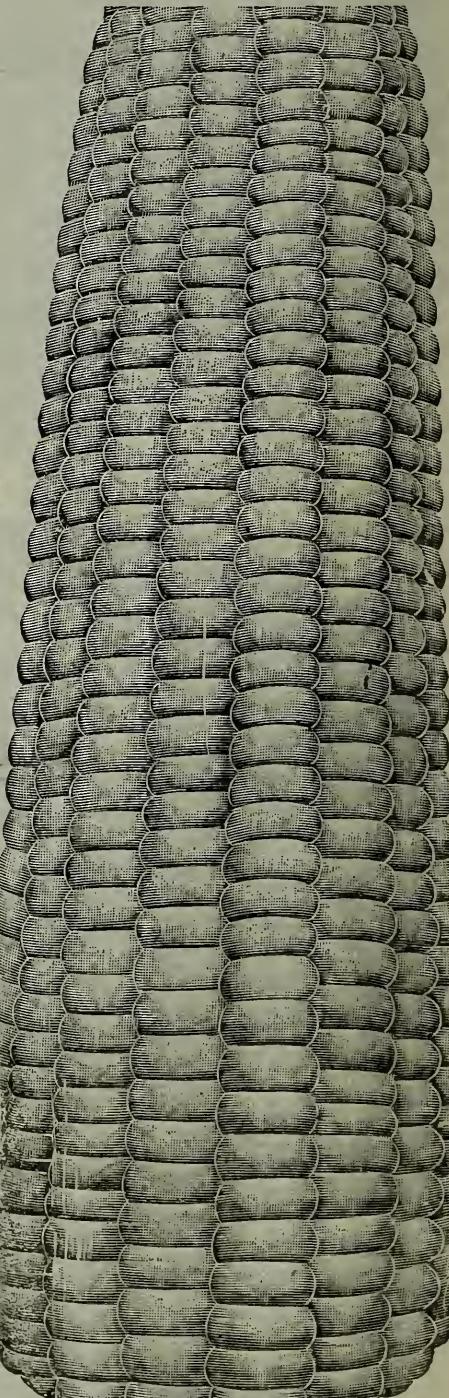

I qt. 5c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 45c., postpaid. Peck \$1.25. not prep'd.

STOWELL'S EVERGREEN

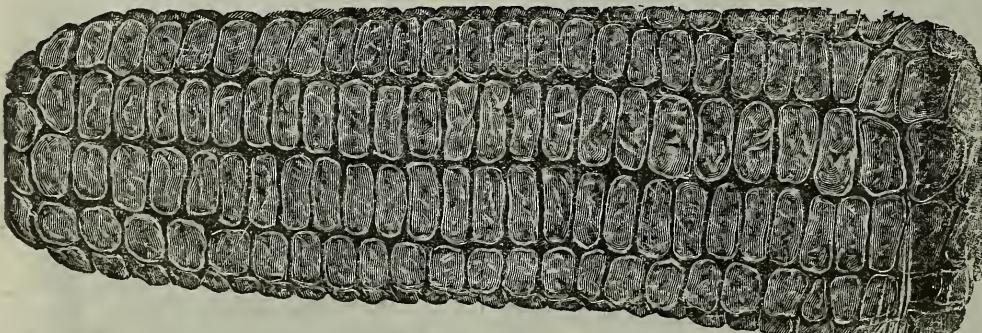

Well known everywhere, one of the best for home gardens, gardeners or canners. It is very sweet and tender, and holds its flavor longer than almost all other varieties. We offer the very best strain of evergreen on the market.

Pkt. 5c., $\frac{1}{2}$ pt. 12c., pt. 20c., qt. 35c. postpaid. By express not prepaid pk. \$1.15, $\frac{1}{2}$ bu. \$2.00.

White Evergreen Sweet Corn

The Golden Bantam is a Grand Orange Yellow Corn

FOURTH OF JULY SWEET CORN

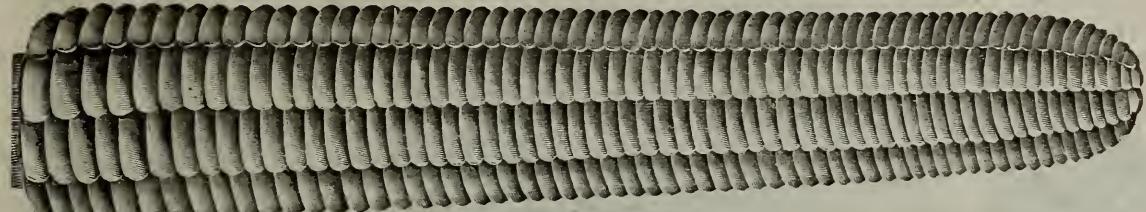

The great Sweet Corn which we believe will be found the earliest in cultivation. The ears are good sized for such an early variety, making it very valuable in this respect. The stalks grow about four feet high, and bear from 2 to 3 ears to a stalk, always well filled with large kernels, which are very sweet.

Pkt. 5c., $\frac{1}{2}$ pt. 15c., pt. 25c. postpaid.

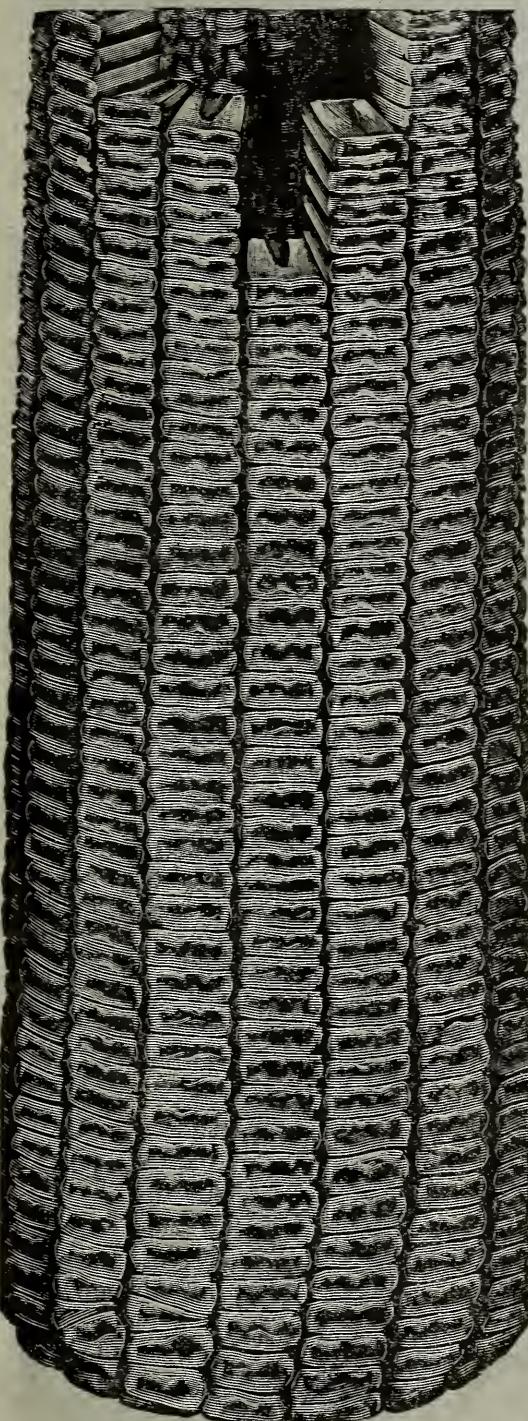

WHITE EVERGREEN

This is a splendid variety. Similar to Stowell's but pure snow white in color. Ears large and always well filled. It is tender, sweet and most desirable for table use.

Pkt. 5c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 40c. postpd. By express or freight, not prepaid, peck \$1.25 $\frac{1}{2}$ bu. \$2.25.

Selected seed, pkt. 6c, $\frac{1}{2}$ lb. 15c, lb. 30c, postpd. By express or freight, not prep'd, 4 qts. 50c, pk. 85c, $\frac{1}{2}$ bu. \$1.65, bu. \$3, subject to crop conditions.

MORTGAGE LIFTER YELLOW DENT

This is one of the best of the Yellow Dent varieties. The stalks grow quick, rank and green, and mature in 85 to 90 days. Ears are perfect, with 14 to 16 rows on a cob, and the grains are the largest of any Yellow Dent Corn. Husks and shells easily and brings the highest market price, as it will sell on sight on account of its handsome appearance. Our stock is very fine.

Pkt. 10c, lb. 25c postpaid. By express or freight, not prep'd, pk. 70c, $\frac{1}{2}$ bu. \$1.35, bu. \$2.50, 2 bu. \$4.80.

NOTE: We wish to state that all Corn in our stock is grown for our own use, hand-picked and air-dried, better than 95 per cent test, and is far superior to commercial grades usually offered by Seedsmen. It can be shipped with safety throughout the United States. Prices are subject to change on account of crop conditions. Better write us before placing large orders.

Corn for the Extreme North—The hardest variety known, and will thrive at an altitude of 6,000 feet, where the climate is always too cold for ordinary corn. It is a great drought resister and will produce crops when other sorts fail. An eight-rowed variety, and the ears are of good length for such an early corn. The grains are pure white, and we are sure it will be of value to farmers of the far north. Ripens earlier than any other White Flint Corn. An excellent sort to grow South for green corn or roasting ears.

Smiths Mammoth Early 8-Rowed Yellow Flint Corn

This is a splendid early 8-rowed Yellow Flint variety. It is very early, and ears 12 to 14 inches long, color a rich, glossy yellow. Stalks grow to a good height and bear from 2 to 3 large ears, under good cultivation. It is claimed that as high as 240 bushels have been grown from one peck of corn, which fully matured in 85 days from planting. Everyone who wants a Yellow Flint Corn that will mature in the Northern climate as far north as Canada, can make no mistake in planting this. Pkt. 10c, $\frac{1}{2}$ lb. 20c, lb. 35c, postpaid. Ex. or frt, not prep'd, pk. 85c, $\frac{1}{2}$ bu. \$1.60, bu. \$3.00.

Early Pride of the North

A very early Dent variety. Stalks small, broad leaves, ears short, 12 to 16-rowed, well filled. Grain long, yellow, making an extra quality of meal.

Pkt. 6c, lb. 25c, postpaid. By ex. or freight, pk. 75c, $\frac{1}{2}$ bu. \$1.40, bu. \$2.50. Sacks free.

Smiths' Improved Leaming or Western Corn

A very popular and extremely productive variety. One of the best silo corns that is grown today. On good land the stalks grow tall, producing two ears on a stalk. The ears are long, with small red cob well filled with grain of medium size and rounded at the small end, of a rich golden color. It ripens in from 100 to 110 days, and makes a good crop even in a dry season, by reason of its strong, vigorous growth. Stalks are very tall with broad leaves, making excellent fodder, while the grain, being so deep, yield an extra large quantity of shelled corn per acre. Pkt. 10c, lb. 25c, postpaid. By express or freight, not prep'd, pk. 65c, $\frac{1}{2}$ bu. \$1.35, bu. \$2.35. Sacks free.

Iowa Gold Mine

Is claimed by some growers to be the most popular Yellow Dent Corn in the world; is early, ripening a few days later than Pride of the North; ears good size, symmetrical; color bright, golden yellow; grain very deep; cob dries out quickly; 70 lbs. of ear corn shell 62 to 63 lbs.; matures perfectly, even as far North as Southern Michigan, and does well in the Middle and Southern states.

Pkt. 10c, lb. 25c, postpd. By ex. or frt, not prep'd, 4 qts. 50c, pk. 70c, $\frac{1}{2}$ bu. \$1.35, bu. \$2.35.

Michigan White Dent Corn

A very white corn. Ears very large, extra long, kernel of medium depth, broad, assuring strong germinating power, is very firm and solid. Weighs like lead, shells out remarkably well, as it originated in a latitude very far north, and is very hardy. Our supply is limited, as it is very select. We urge early orders.

Prices by mail, postpaid, Pkt. 10c, lb. 20c. Express or freight, not prep'd, 4 qts. 40c, pk. 70c, $\frac{1}{2}$ bu. \$1.25, bu. \$2.40.

POP CORN

Baby Golden

MAPLEDALE PROLIFIC

This is a remarkable variety and the greatest yielding sort ever found among Pop Corn. Stalks grow about 5 ft. high, and it is claimed that as many as 12 ears have been produced on a single stalk. Popping quality is excellent, always pure white, good flavor.

Pkt. 5c, 3 pkts. 12c, 6 pkts. 25c.

WHITE RICE

A well known variety, and the leading sort for market. Our stock is extra selected. Pkt. 5c, 3 pkts. 10c, 6 pkts. 18c, $\frac{1}{2}$ pt. 15c, pt. 25c.

BABY GOLDEN

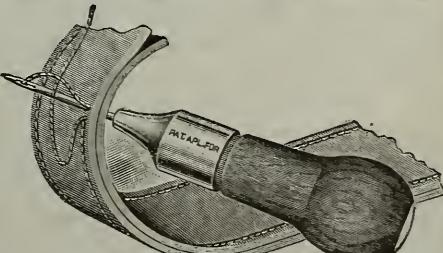

The smallest Pop Corn in existence, but very prolific, producing from 5 to 10 ears on a stalk, each from $1\frac{3}{4}$ to $2\frac{1}{2}$ in. long. Kernels are golden color, of rice type. Pops well.

Pkt. 5c, 3 pkts. 12c.

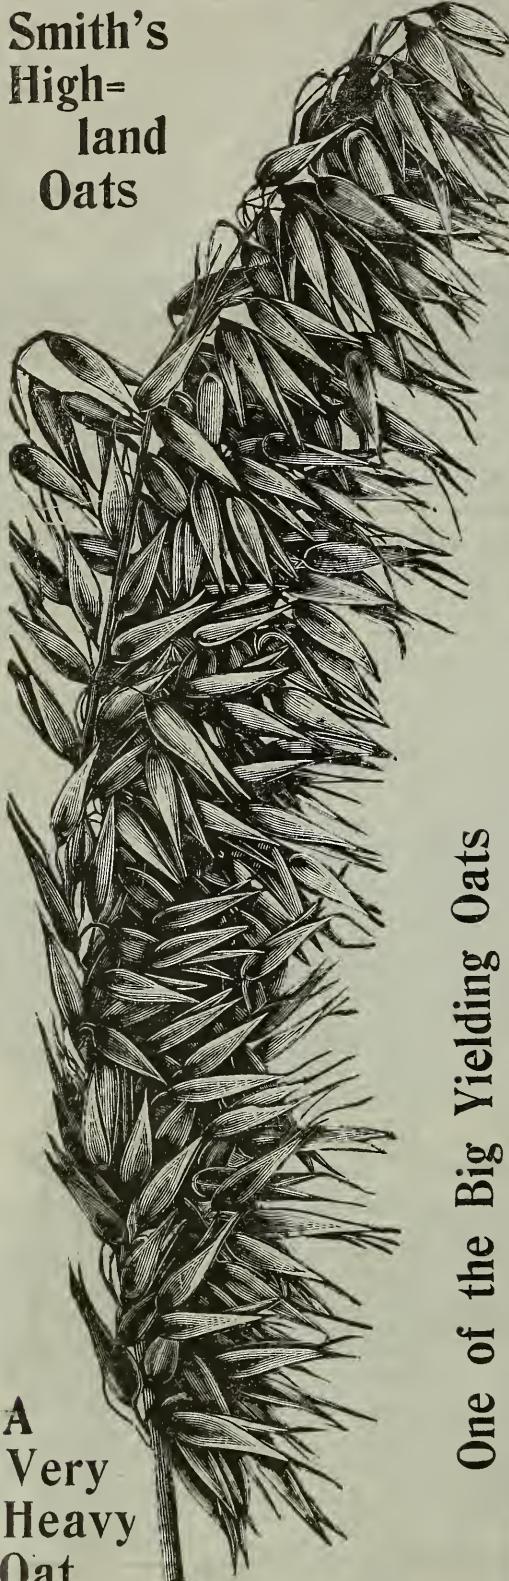

THE SPEEDY STITCHER

The latest invention of an Automatic Sewing Awl. It is a practical tool for all kinds of repair work, even in the hands of the unskilled. With this awl you can mend harness, shoes, pulley belts, saddles, suit cases, or any heavy material. This stitcher has a set of diamond pointed, grooved needles, including a special needle for tapping shoes. It contains a large bobbin from which the thread feeds, enclosed inside the handle. This Awl has a tension which enables you to tighten your stitch. No wrench or screw driver is required to remove the bobbin or tighten the needle. Awl is convenient to carry—is always ready to mend a rip or tear, and a tool no practical man can afford to be without. Price 75c, postpaid, or mailed FREE with each order of Garden seeds for \$5.00 when requested.

10 We do not Pay Charges by Freight or Express on Oats, Corn, Beans, Peas, and Potatoes
The Seed Oats in Our Stock this Season are Fine, Clean, and of Good Color

Smith's High- land Oats

A
Very
Heavy
Oat.

HIGHLAND OATS

Reports we have received on these Oats that we have sold for the last few years have more than repaid us for the money spent in introducing them to the farmers of the United States. The Highland Oats is one of great merit which far surpasses anything we know of in the Oat line. The straw is very long and stiff, growing from four to six feet high, often running a head of more than a foot in length and known as the Horse Mane Oats with a peculiar stalk that makes it strong and excellent for fodder. The grain is short and of a bright yellow color when ripe, with very thin hulls, running from 70 to 90 bushels per acre. We are the only seed house that has this stock. We have raised oats for 25 years and fail to find anything that will equal them under all conditions. Many letters have been received telling of the wonderful yields and the satisfaction given.

Prices as follows:—Pkt. 6c., lb. 30c., 3 lbs. 80c., postpaid. By express or freight, peck 40c., $\frac{1}{2}$ bu. 75c., bu. \$1.25, 2 bu. \$2.40, 5 bu. \$5.50, 10 bu. \$10.00, (32 lbs. to bu.) Special prices on large orders Sacks free.

One of the Big Yielding Oats

IRELAND BLACK OATS

112 BUSHELS PER ACRE FIRST SUMMER

These Black Bush Oats were grown on a farm near the town of Killylea, Amagh County, Ireland, with the enormous yield of several acres in the field.

We have had several requests for Black Oats. We started a search for something good to offer our customers, and have found it at last. These oats are very strong, stocky growers, with a good stiff straw and heavy heads and from several tests we believe they will do exceptionally well on any soil and in any State.

We are sure that no better Black Oats has ever been offered the American Farmer.

Owing to the high cost of getting these Black Oats to this country, we only secured enough for a few acres to get a start, and we offer them in small lots only; and no more than 10 bu. to one party.

We want every farmer to try a few this season. Special price of pkt. 10c., $\frac{1}{2}$ lb. 20c., lb. 35c., 3 lbs. \$1.00 postpaid. By express or freight not prepaid, peck 65c., $\frac{1}{2}$ bu. \$1.00, bu. \$1.75, 5 bu. \$8.00. Bags free.

NEW TREE OATS

These Oats are what the average farmer is looking for; they grow on all sides of the stalk and are very bushy, which makes them very large yielders. Straw grows often 5 feet high and is very stiff and extra good to sow with Peas and Vetches, they will not lodge or get down like many other varieties. They will yield nearly as well as our Highland Oats and weigh from 35 to 40 pounds per measured bushel.

We would like all farmers to change their seed and try these oats. Our crop is very large, therefore we are offering them at a very low price. They are very clean and free from rust.

Packets of 2 ozs, 10c., lb. 25c., 3 lbs. 65c., postpaid. By express or freight, pk. 35c., $\frac{1}{2}$ bu. 60c., bu. \$1.00, 10 bu. \$9.00. Special prices on larger orders. Bags free.

Egyptian Wheat Corn

Cultivated extensively in India. Recently brought to this country. Yields very valuable crops. Of stooling habit, produces 3 to 6 stalks from 1 grain. Large heads of round, plump white seed, like Broom Corn. Excellent feed for cattle, horses and chickens, makes good pop corn and, when ground, excellent pan-cake flour. More of a grain than forage corn as it has double the seed of Kaffir Corn, and more than any Cane or Sorghum plant.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., lb. 35c., 3 lbs. \$1.00, postpaid.

Strawberry Guava

A magnificent new pot plant, both useful and ornamental. Fruit is a beautiful claret color, about the size of an English walnut. Flavor somewhat resembles a strawberry. Blooms and fruits continuously, and when well established will produce buds, flowers or fruits every day in the year. Can be used as a dessert, for preserving or for jelly. Grown in pots or open ground. Pkt. 8c., 3 pkts. 20c.

IRELAND BLACK OATS

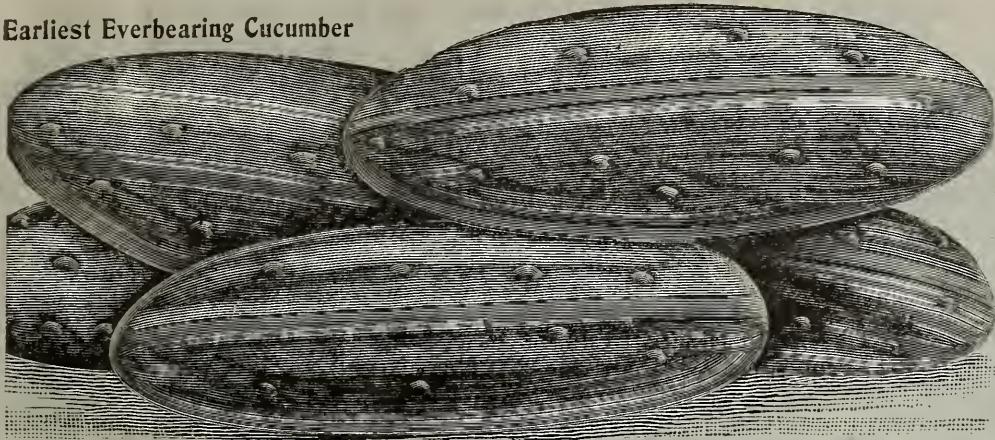

EGYPTIAN WHEAT CORN

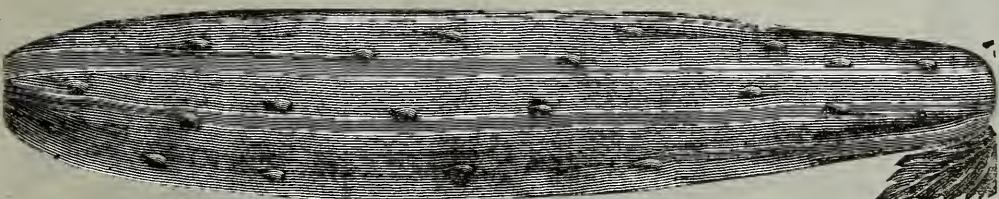

New
Tree Oats

Earliest Everbearing Cucumber

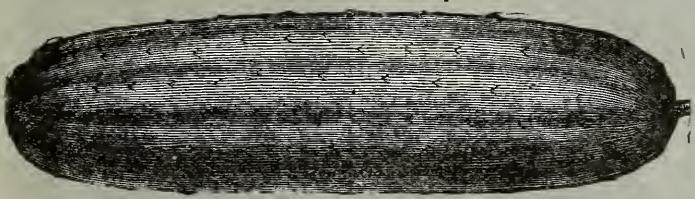

Improved Long Green Cucumber

IMPROVED LONG GREEN—This is a well known variety. Fruits grow from 12 to 16 in. long, and everyone knows that this variety cannot be surpassed for pickling. When ripe it is best for sweet pickles. The vines grow strong and the fruit is always produced in abundance, making it one of the most productive varieties in cultivation. We have the very best strain of this popular sort.

Pkt. 5c., oz. 10c., 2 ozs. 18c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 50c., lb. 90c., postpaid.

Earliest White Spine

Unequalled as a table and market sort. Very productive and good for forcing purposes. Excellent for pickling, table and market use. Color light green, is very early, and cannot be recommended too highly. Pkt. 5c. 3 pkts. 12c. oz. 10c. 2 ozs. 18c. $\frac{1}{4}$ lb. 30c. $\frac{1}{2}$ lb. 50c.

Klondike Cucumber

Very handsome and one of the best varieties of the White Spine type. Dark green in color. When right size for market, average length is 6 to 7 in. Greatly appreciated by market gardeners and shippers. Very early, of excellent quality, firm and good for pickling when small. After you grow this cucumber you will say you never had a better one. We cannot recommend it too highly. Try it in your garden this year. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., postpaid.

Japanese Climbing Cucumber

Originated in Japan and is a marvelous climber. May be grown on fences, poles or trellises. It is very prolific, producing enormous quantities of uniform shaped fruit, excellent for pickling or table use. Fruits early and continues throughout the season. The fruit grows long and produces but few seeds making it high in price.

Pkt. 5c.; 3 pkts. 12c.; oz. 15c.

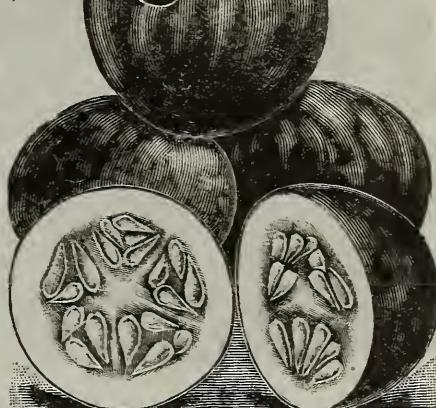

CUCUMBERS

11

Smiths' Earliest Everbearing

A great all-around Cucumber for everybody. Very handsome in color and appearance, just the right size to be desirable for the table or for pickling. It is a very solid cucumber, having less seeds than many other sorts. It is very productive, producing an abundance of handsome fruits close to the vine. The flesh is tender and crisp and of excellent flavor. It is one of the first to come and the last to go, fruiting all the time. Pkt. 5c. oz. 18c., $\frac{1}{4}$ lb. 30c. $\frac{1}{2}$ lb. 50c., lb. 90c.

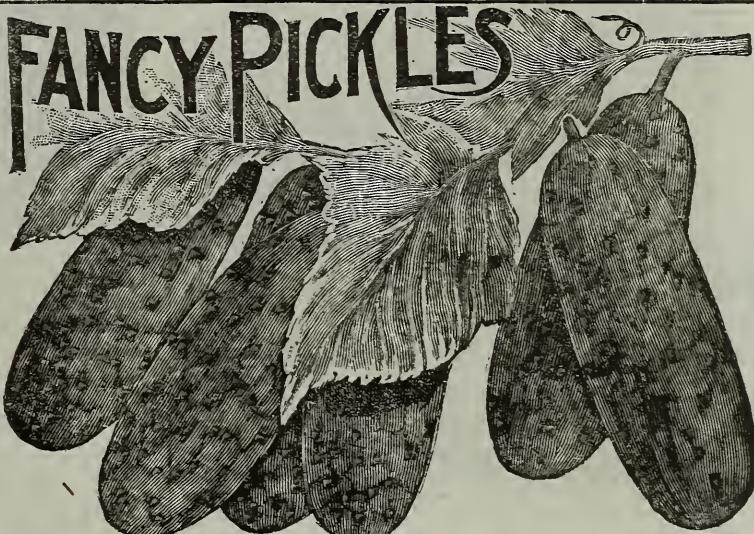

LEMON CUCUMBERS

Lemon Cucumber

Real novelty in cucumbers. Grown nearly round, with attractive green and yellow markings, skin smooth, flesh tender, crisp, and possesses a flavor surpassing many cucumbers. Fruits grow from $2\frac{1}{2}$ to 3 inches in diameter, run uniform in size, excellent for table use. Many who have grown it say they prefer it for quality and productiveness to any other kind. Be sure to grow a few. Pkt. 6c. 3 for 15c. oz. 30c.

FANCY PICKLES

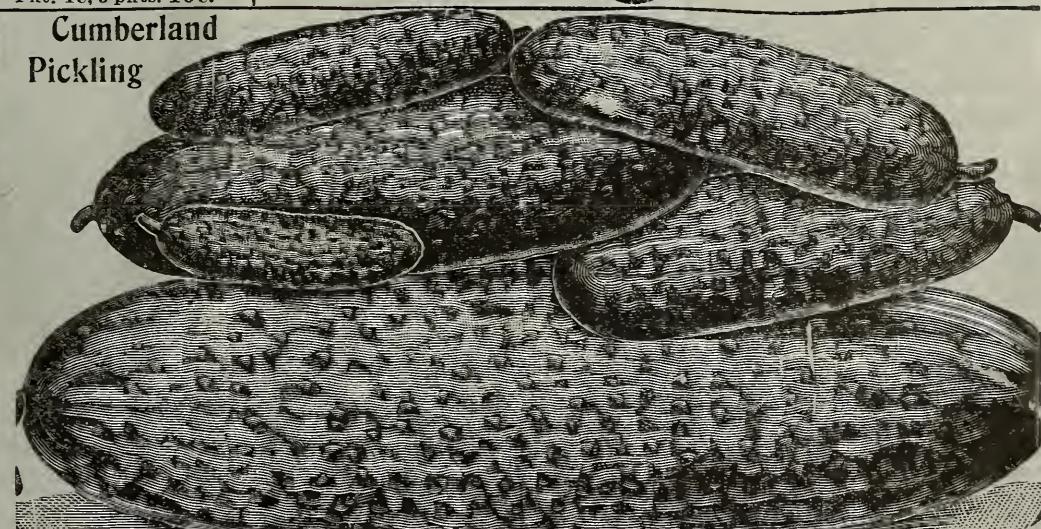

Boston Pickling or Fancy Pickles

An excellent variety for pickling. Dark green in color, immensely productive. We can highly recommend this variety, as it bears an abundance of fruit just the right size for pickles. Pkt. 5c., oz. 10c., 2 ozs. 18c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 50c.

Mixed Cucumbers

Made up of all the different varieties. Will produce fruit continually throughout the season. Pkt. 4c., 3 pkts. 10c.

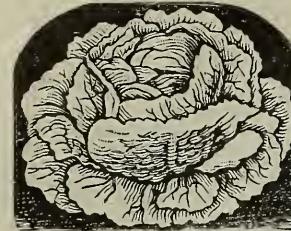

Cumberland Pickling

Cumberland Pickling—Vines grow strong and fruit freely. Very desirable for pickling. Young cucumbers set very thickly with small spines, attractive for either large or small pickles. As good for slicing as for pickling. Fruits average, when fully grown, 9 to 10 inches in length.

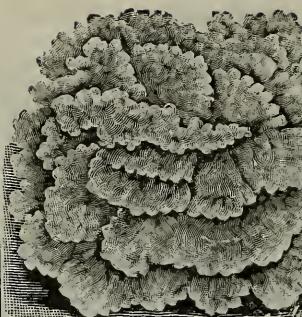

Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 60c., lb. \$1.00.

12 LETTUCE

May King

Quick growing, hardy, good for early planting. Plants measure 6 or 7 ins. in diameter. Outer leaves closely folded, form solid head. Inner leaves bright yellow, rich flavor. Many weigh lb. each. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

Smiths' Earliest

One of the earliest in cultivation, handsome in appearance. A valuable sort for market gardeners. Excellent for forcing or general crop. Small heads, very tender and crisp. Resists heat and drouth remarkably, and is very slow to run to seed.

Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

BIG BOSTON

Big Boston

Best large Cabbage Lettuce on the market. Very valuable everywhere, gives satisfaction in whatever way it may be grown, whether for forcing or for the winter months, in frames for spring use or in open ground for the summer or fall. Leaves light green, tender and crisp.

Pkt. 5c., 3 pkts. 12c., oz. 14c., 2 ozs. 25c., 1/4 lb. 45c.

EARLY PRIZE HEAD

Heads form quite early, and every leaf good to use, slow to run to seed and good, early medium or late in the season. Does not turn bitter.

Pkt. 5c., 1 oz. 12c., 2 ozs. 20c., 1/4 lb. 35c., 1/2 lb. 60c.

BLACK SEADED SIMPSON

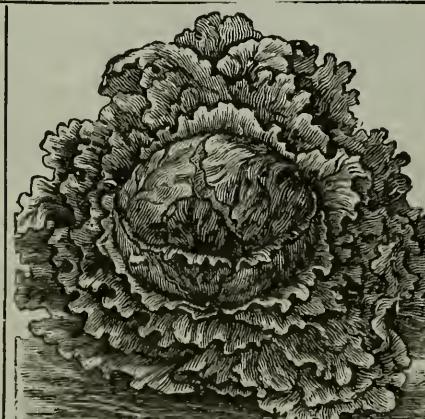

A standard sort of large size and the very best quality; good for forcing under glass, or for spring and summer culture in open air. It is a non-heading sort; resists heat and remains long before running to seed. Pkt. 4c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., 1/4 lb. 30c.

NEW YORK LETTUCE

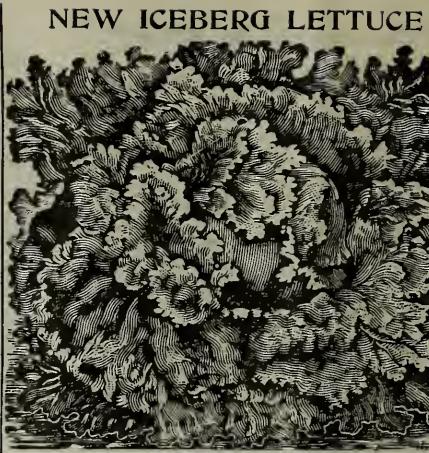

It is claimed that this is the king of all main crop head lettuce, forms immense heads as solid as a cabbage, often 15 inches across. Quality is excellent, heads being creamy white inside and free from bitterness. It is slow to run to seed, and sure header under all conditions. A large growing variety, resisting dry hot weather, and we recommend it as a standard garden variety. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., 1/4 lb. 40c., 1/2 lb. 70c.

LETTUCE MIXTURE

One sowing produces a supply for the season. This mixture contains all the best varieties, maturing early, medium and late; some curled and crinkled, others produce heads. Colors range from pure white through delicate shades of green, yellow to a rich golden. Pkt. 4c., 3 pkts. 10c., 5 pkts. 15c., oz. 10c., 2 ozs. 18c.

Black Seeded Simpson

New Iceberg Lettuce

Leaves are curly, bright green color, a very delicious lettuce for salads. It is a quick grower and its flavor is very excellent.

Pkt. 5c., 3 pkts. 12c., oz. 11c., 2 ozs. 20c.

THE COS LETTUCE

Produces long narrow spoon shaped leaves, which form into a rather loose leaf shaped head. Keeps sweet and crisp during the hot months. Is very slow to run to seed. Tie up outer leaves and a solid head snow white in color will be formed.

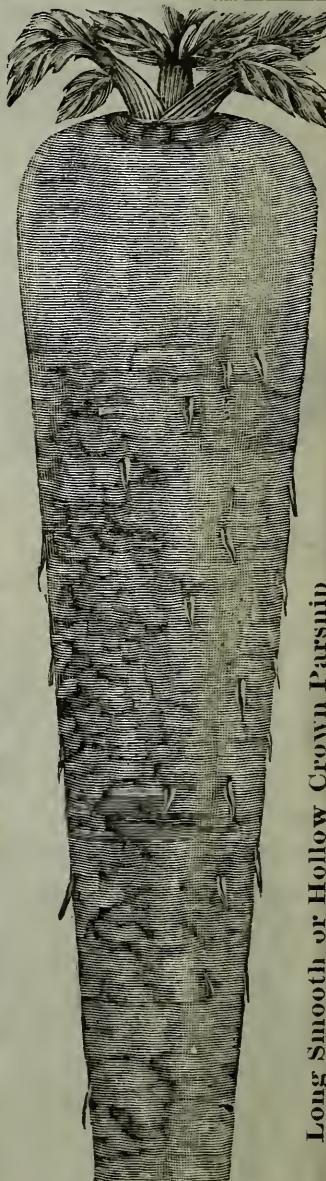

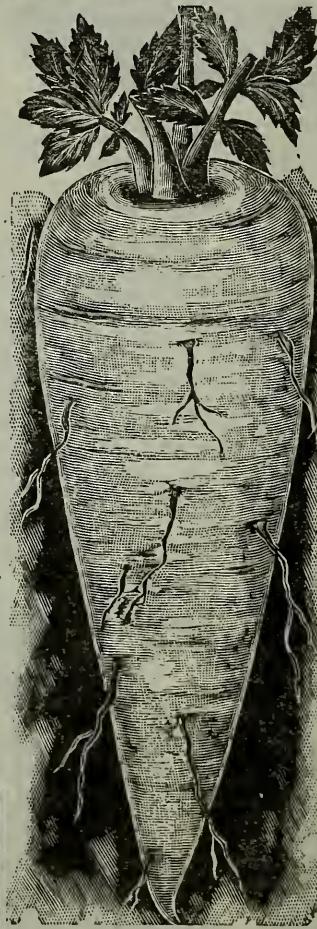

Pkt. 5c., 3 pkts. 12c., oz. 18c., 2 ozs. 30c.

Smiths' Sugar Parsnip

Matures early, will yield a large crop. Roots grow to a good size, are easily dug and exceedingly smooth. Flesh is fine grained and of excellent quality. It is a heavy cropper and will yield more than any other variety.

Pkt. 5c., oz. 10c., 2 ozs. 16c., 1/4 lb. 22c., 1/2 lb. 40c., 1/2 lb. 65c. postpaid.

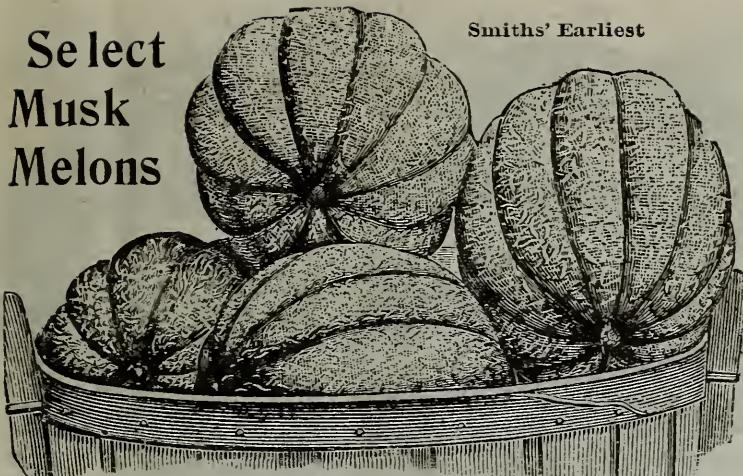

PARSNIP

LONG SMOOTH OR HOLLOW CROWN—We consider this the best parsnip to grow. It produces a long smooth root, is excellent for the table, being tender and well flavored. It requires a deep, clean moderately rich soil. It is a heavy cropper and will do well in most any locality.

Pkt. 5c., oz. 10c., 1/4 lb. 20c., 1/2 lb. 35c., 1 lb. 60c. postpaid.

AGENTS WANTED—Send \$1.00 with Application for Agent's Contract to sell Seeds, Incubators, Garden Tools and Novelties, Cash Commission, Big Money for Hustlers. Make from \$250 to \$500 in a season. \$1.00 refunded on first order. Send today for contract and territory wanted.

Select Musk Melons

SMITHS' EARLIEST MUSK MELON

This is our favorite, and the earliest of all the yellow flesh musk melons. The fruits are uniform in size, with a tough, thin rind, covered with closely laced gray netting. The meat is reddish orange, very thick and fine grained and of splendid flavor, while the seed cavity is very small. The average weight is from 2½ to 3 lbs., while length is about 6 inches and thickness 1½ inches. On account of its extreme earliness and excellent quality, our customers say this is the grandest musk melon of all. Pkt. 5c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c., ½ lb. 60c.

NEW STRAWBERRY MUSK MELON

A recently introduced novelty. The introducer claims its flavor to be like that of a strawberry. Of the small netted type, weighing from 5 to 10 pounds each. Flesh an attractive orange-red. Outside is green, turning to yellow. This variety is highly recommended by those who have grown it.

Pkt. 5c., 3 pkts. 12c., oz. 10c., ¼ lb. 35c.

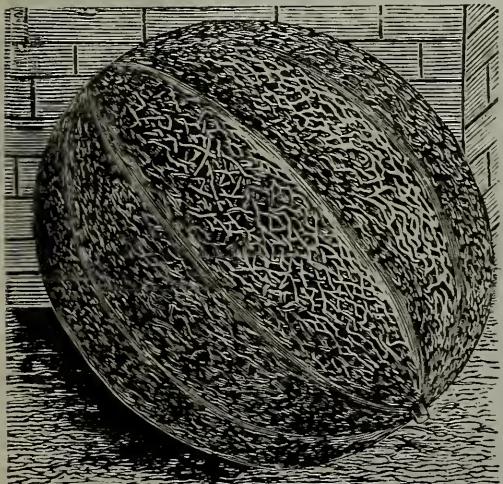

SMITHS' PERFECTION

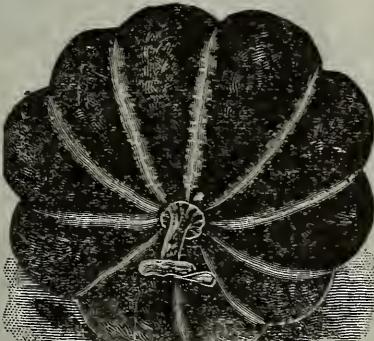

Fruits of nutmeg shape, quite even in size, weighing from five to eight pounds each. Skin is a dark green color, heavily netted, flesh of a salmon color, rich and sweet flavor, ed. It is a first class musk melon. Pkt. 4c., 3 pkts. 9c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c.

PINK MEAT

This is a new variety of melon which originated in Colorado, and is one of the very best for shipping purposes. The flesh is a pink or orange color, seed cavity very small, and the flesh is solid, of the best quality, very close to the rind. This rind is very tough, yet thin, well arched ribs covered with laced and interlaced gray netting. Grows to just the size for family use. Pkt. 5c., 3 pkts. 12c., oz. 15c., ¼ lb. 40c., ½ lb. 75c., lb. \$1.25.

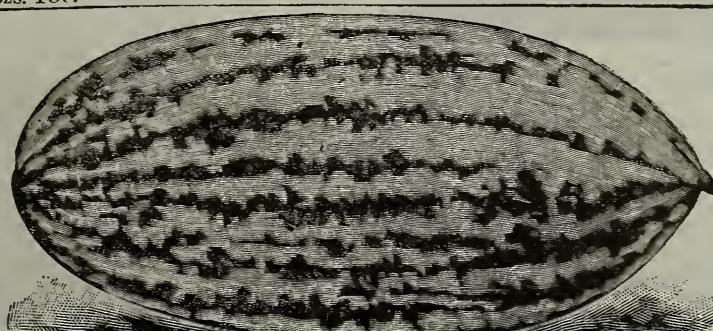

EMERALD GEM

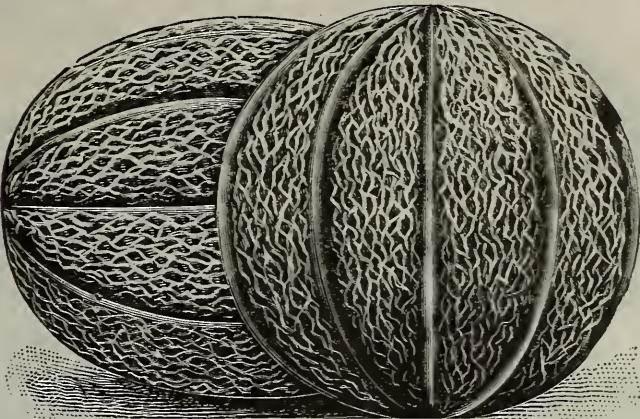

This is another splendid melon. Skin is smooth, emerald green in color, and fruit is of a very attractive size. Vines grow very thrifty and produce an abundance of fruit. Quality is the very best and a melon worthy of a place in any garden. Pkt. 5c., 3 pkts. 12c., oz. 15c., ¼ lb. 50c., ½ lb. 90c.

SMITHS' MUSK MELON MIXTURE—For the benefit of those who want a collection of musk melons, we have made up this special mixture, which contains a large number of varieties. An abundance of early fruit and a continual supply of all the different sizes and shapes will be produced throughout the season. Pkt. 4c., 3 pkts. 9c., 6 pkts. 15c., oz. 10c., 2 ozs. 18c.

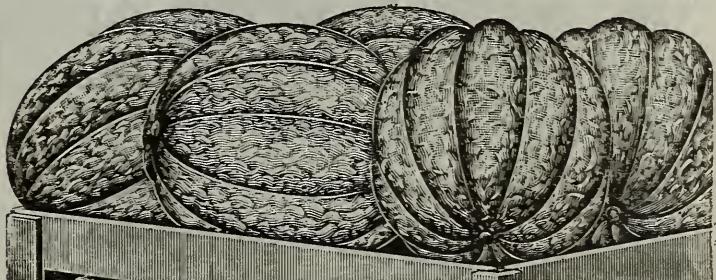

Santa Claus—This name is very appropriate for the variety, as it is in prime condition for eating during the holiday season. Its light green flesh is absolutely stringless and its rind gives it the appearance of a mottled musk melon, as shown by engraving. The rind is very hard. There is no seed cavity, the seeds being imbedded in a small jelly-like pulp. Plant and cultivate the same as musk melons. Pkt. 6c., 3 pkts. 15c., oz. 25c., ¼ lb. 75c.

Smiths' Hybrid—This Casaba will keep all winter. It grows to a large size, flesh thick and of excellent flavor. It is a rapid grower, large yielder and bears well until killed by the frost. It is of handsome color and will attract a great deal of attention wherever grown. Plant seed as soon as danger of frost is past in the spring, and before frost in the fall pick all the fruit, even if only partly grown and store away in the cellar for winter use. Pkt. 6c., 3 pkts. 15c., oz. 25c., ¼ lb. 75c.

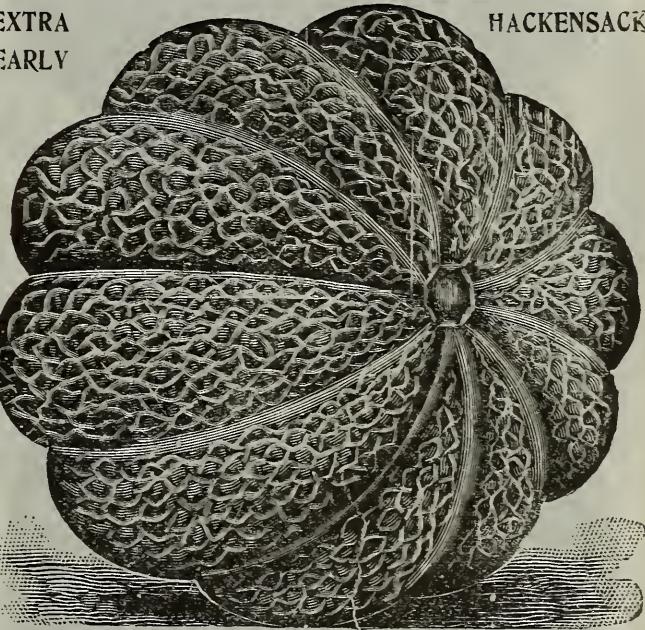

An excellent variety, somewhat larger than our "Earliest", very profitable to grow, ripens 2 weeks ahead of other large sorts, very popular. Flesh yellow, skin finely netted, handsome. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c.

New Strawberry Musk Melon

EXTRA EARLY

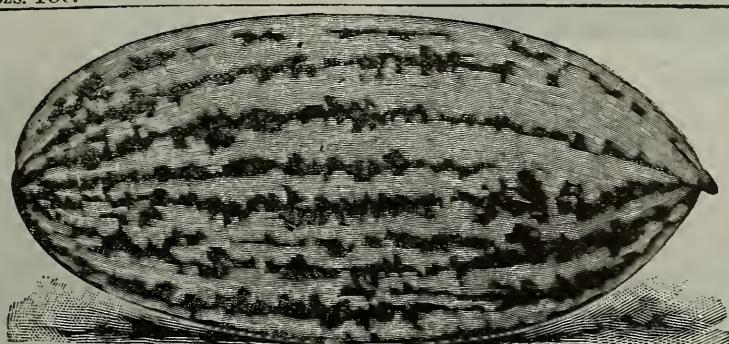

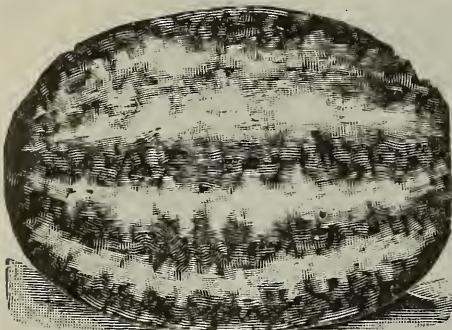

This variety comes from a selection of the popular Hackensack, but ripens several days earlier, while the melons weigh from 5 to 10 pounds each. The shade and color are similar to the parent, the main difference being in the point of earliness. It is round, well ribbed, and heavily netted. Flesh is rich and sugary.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c.

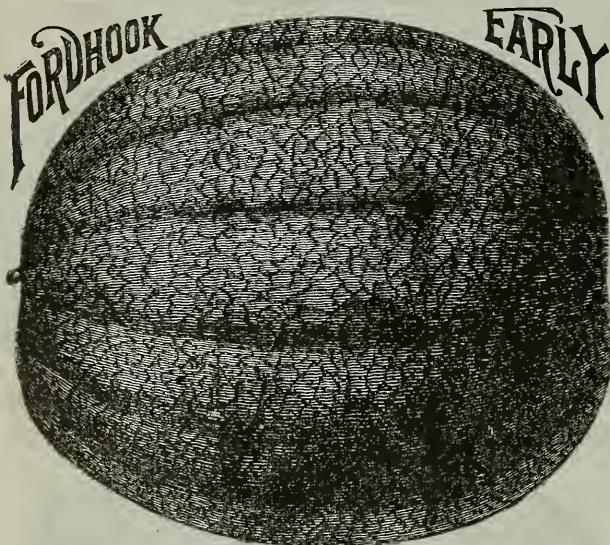

CASABA

Casabas are a late variety of musk melons to be classed in a variety by themselves. They should be planted after all danger of frost in spring. Just before frost in the fall, all melons, even half grown, should be picked and put in a dry place, where they will ripen gradually and give a continual supply all winter. We offer two varieties.

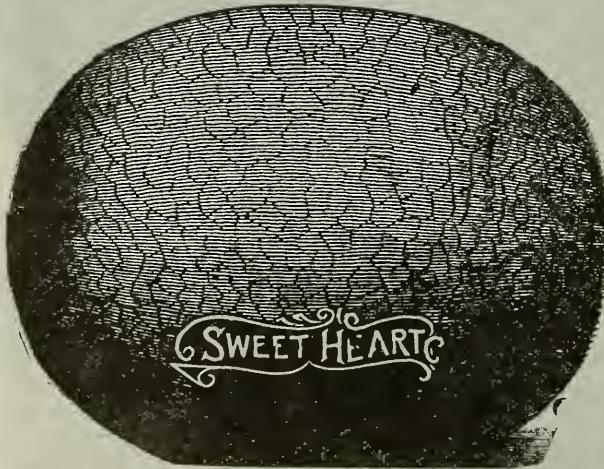

water melons will not mature. The flesh is deep-
ingly brittle, while skin is thin though tough, of a dark green mottled white. Pkt. 5c., oz. 10c., 1/4 lb. 30c., 1/2 lb. 50c., lb. 90c., postpaid.

This is one of the earliest water melons and the introducer claims that seed planted by the middle of May produces large ripe melons the last week in July. The average weight is from 20 to 30 pounds each, color being a medium green, while the flesh is a bright red, very sweet.

Pkt. 5c., oz. 12c., 2 ozs. 20c., 1/4 lb. 30c., 1/2 lb. 50c., lb. 85c.

SWEETHEART

This grand new melon is one of the earliest of the large sorts. It is handsome, a good keeper, fruits are large, rind thin but firm. Flesh very bright red, solid and thick. A first class water melon.

Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 75c.

GIANT SWEET

Here is the sweetest large water melon grown. It is always good sized. The skin is striped or variegated and the flesh is a beautiful red color. The vines grow very thrifty and prolific, and it is well adapted to different weather, wet or dry. It is a splendid melon for market, and is our best large water melon.

Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 75c.

CITRON

Fruit handsome, small and round. Used for making preserves only.

Pkt. 5c., 2 pkts. 8c., oz. 10c.

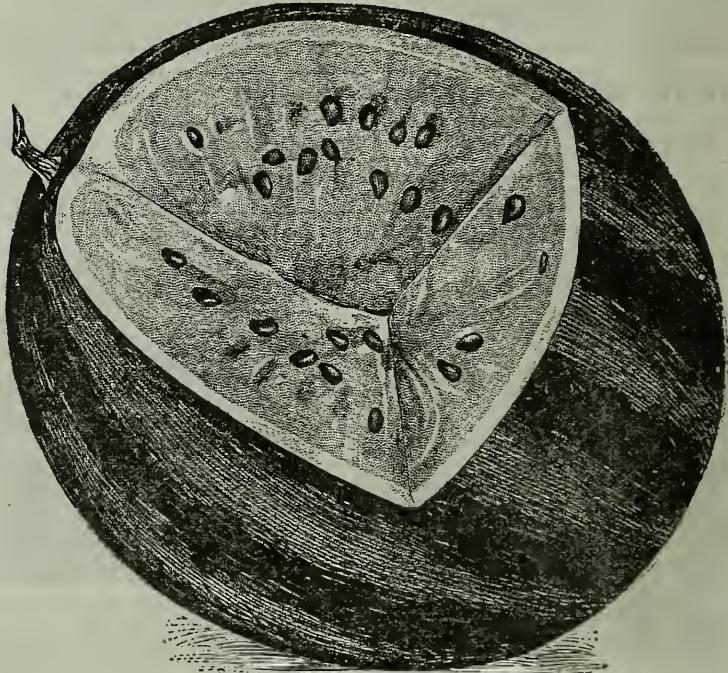

We claim this watermelon is the earliest and best variety grown. Its flavor is delicious, very sweet and always very attractive on the market. We consider it the best variety to plant in the home garden, being so early it is excellent for family use and a few vines will yield many melons. It will grow in sections where other red in color, exceedingly brittle, while skin is thin though tough, of a dark green mottled white. Pkt. 5c., oz. 10c., 1/4 lb. 30c., 1/2 lb. 50c., lb. 90c., postpaid.

The Dixie Water Melon

This is a very handsome melon, beautifully striped, flesh of an intense bright deep scarlet. Very sweet and tender. Preferred by melon growers to any other. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 75c., postpaid.

Iceberg or Blue Gem

In general shape, size and appearance this is similar to Kolb's Gem, but is distinctly darker, and the skin where the melon rests on the ground is a rich yellow instead of white, as in that variety. It has a very firm, hard rind and is a very good shipper.

Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 45c., lb. 80c., postpaid.

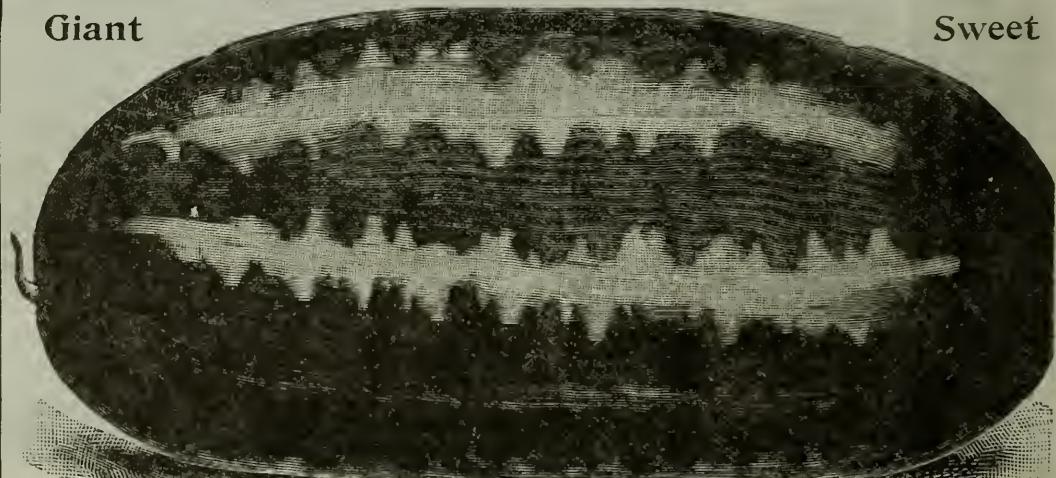

New Chilian

This is a new introduction sent out by a well known melon expert, and he claims that it is very popular when once grown. It is a very handsome melon, shaded with green and mottled with a darker shade of green. Its rind is only about 1/4 inch in thickness, but very hard and tough, which makes it rank among the best shippers. The entire flesh of this melon, even close to the rind, is deep crimson, of sweet, delicious flavor, always crisp and solid. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., 1/4 lb. 40c., 1/2 lb. 70c.

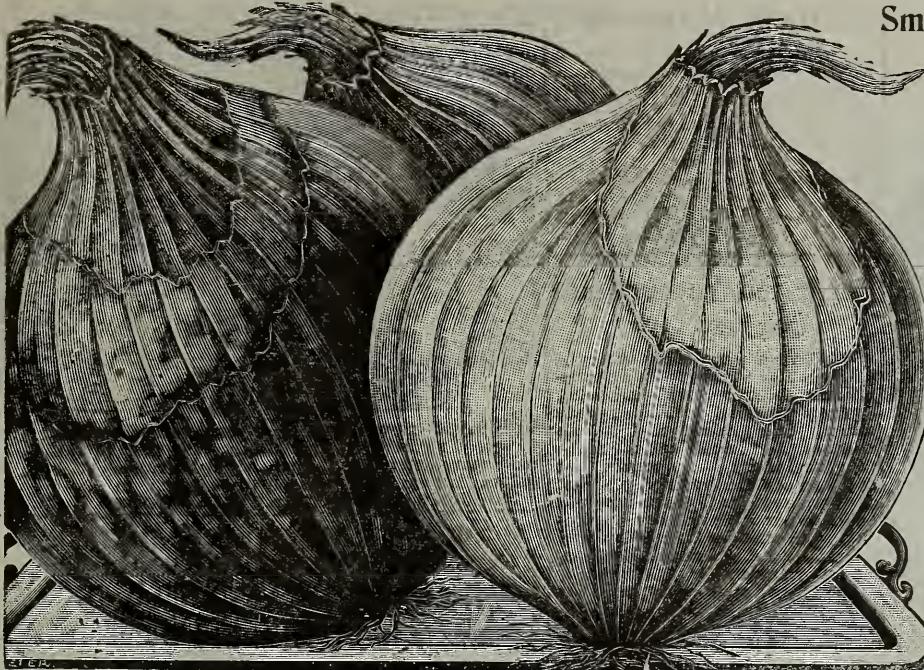

Smiths' Water Melon Mixture

This mixture is made up of all the different varieties and many others not listed. By planting this seed a great collection of all the earliest, medium and late sorts will be produced. Pkt. 4c., oz. 7c., 2 ozs. 12c., 1/4 lb. 18c., 1/2 lb. 35c.

Giant

Sweet

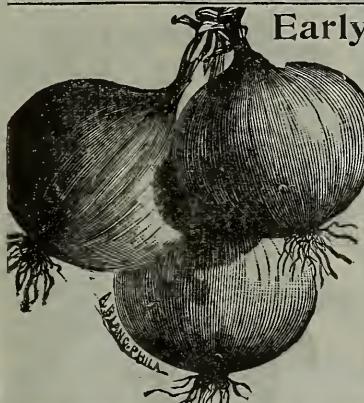

Mammoth Silver King

This is a giant variety. Bulbs are of an attractive shape, flattened but thick through, as shown by the engraving. The average diameter is from five to seven inches. The bulbs often weigh from three to four pounds each. The skin is a beautiful silver white, flesh is mild and pleasant in flavor. Any one desiring a large pure white onion will be pleased with **Mammoth Silver King**. It can be grown in nearly all sections of the U. S. the first year from seed, and is very valuable for family use or for sale on the market for its size and beauty will prove very striking. Pkt. 5c., oz. 15c., 1/4 lb. 50c., 1/2 lb. 90c., lb. \$1.75, postpaid.

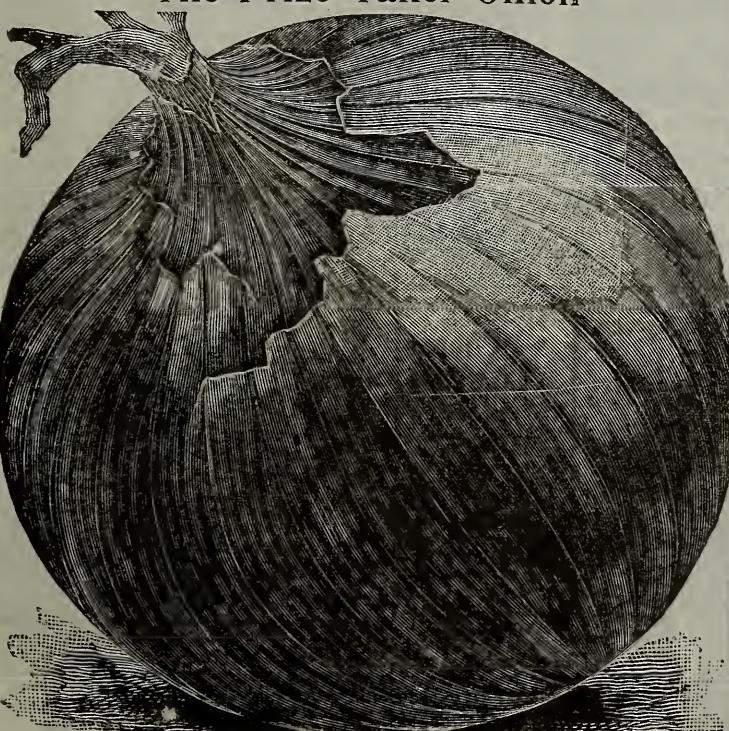

Early Red Globe

This is the earliest and best small red onion in cultivation. It is very early, of perfect globeshape, several days earlier than any other red onion in cultivation. It is an excellent sort for pickling on account of the onions being so very even in size. We can highly recommend it and are sure it will please all who grow it.

Pkt. 5c., 3 pkts. 12c., oz. 20c., 2 ozs. 30c.

The Prize Taker Onion

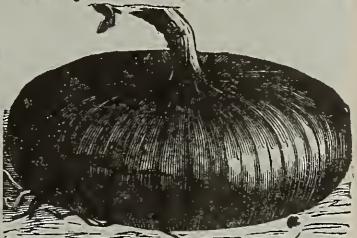

We offer the very best strain of Yellow Globe Danvers Onion on the market to-day. It always attains a good size, mild, deep bulb and small neck. It grows uniformly, of large size and commands the highest market price. The skin is a rich golden yellow, flesh pure white, very fine grained, with pleasant flavor, excellent keeper and one of the most hardy and productive onions grown. Our seedstock is raised with particular care, and only the best onions selected for seed. Our crop of seed this season is large and all the seed we have is plump and very heavy and of strong vitality and reliable in every respect. If you want to grow a very choice lot of Yellow Globe Danvers Onions this year, order our strain of seed. Pkt. 5c., 3 pkts. 12c., oz. 10c., 1/4 lb. 35c., 1/2 lb. 65c., lb. \$1.20, 2 lbs. \$2.25, postpaid. By express, 5 lbs. \$5.00.

Extra Early Red Onion

This is a well known onion and good for a wide variety of soils and situations. It will succeed in cold, mucky ground where other sorts will fail. It matures some time before Red Wethersfield, and if grown in rich soil produces bulbs almost as

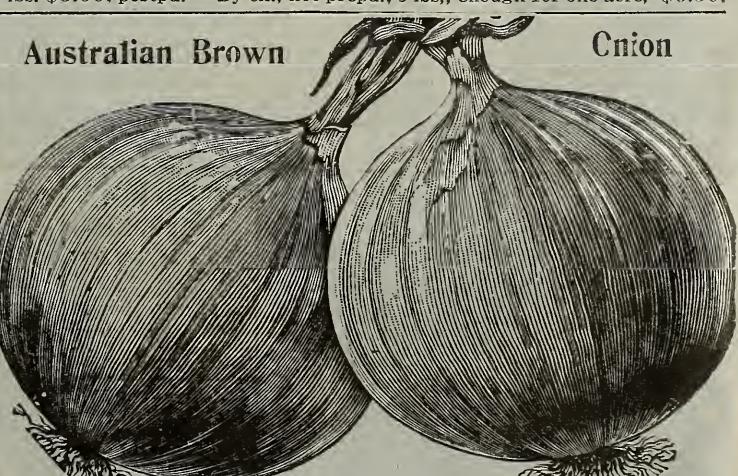

large, but the bulbs are somewhat flattened, as shown by the engraving. The flavor is mild and it keeps well, color a deep rich red, fine grained, solid and heavy. Pkt. 5c., oz. 14c., 1/4 lb. 45c., 1/2 lb. 75c., lb. \$1.40, 2 lbs. \$2.50 postpd.

Prize Taker Onion

Most popular onion in cultivation. Produces large, handsome bulbs of uniform size, nearly a perfect globe, and of excellent quality. Always ripens up hard and firm, and the small neck is never stiff. Skin is bright straw color. Bulbs sometimes measure 10 to 15 ins. in circumference. Keeping qualities excellent. Pkt. 5c., oz. 15c., 2 ozs. 30c., 1/4 lb. 50c., 1/2 lb. 85c., lb. \$1.60, 2 lbs. \$3.00, postpd. By ex., not prep'd., 5 lbs., enough for one acre, \$6.50.

Australian Brown

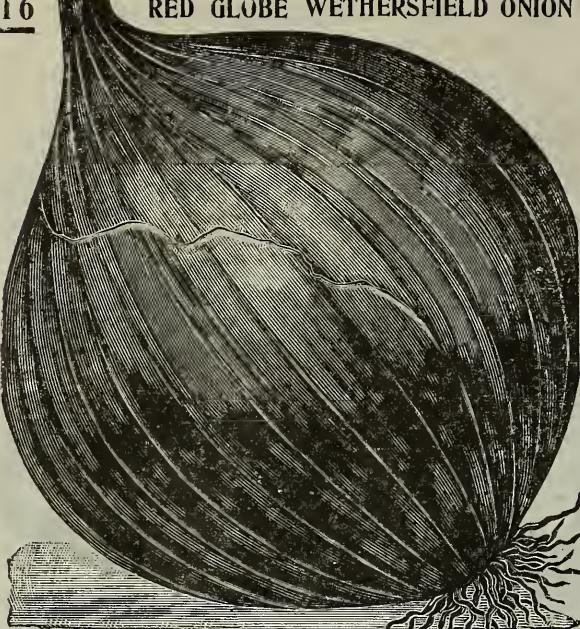

Australian Brown

Matures early, and is largely grown for a market onion. Bulbs are round, medium in size, run very uniform and are very hard and solid. Skin is thin, of a bright amber brown. Flesh white, crisp, extremely solid and of sweet, mild flavor. Keeping qualities excellent, onions having kept a year.

Pkt. 5c., oz. 15c., 2 ozs. 25c., 1/4 lb. 40c., 1/2 lb. 75c., lb. \$1.40, postpaid.

RED GLOBE WETHERSFIELD ONION

Kohl-Rabi=Turnip-Rooted Cabbage
EARLY PURPLE VIENNA
It is largely grown for table use in Germany. Per pkt. 4c., oz. 20c. 1/4 lb. 60c., 1/2 lb. \$1.00.

EARLY WHITE VIENNA
Best for table use. Per pkt. 4c., oz. 15c., 1/4 lb. 45c., 1/2 lb. 80c.

ASPARAGUS
CONOVER'S COLOSSAL
Well known, large, rapid grower. Pkt. 4c., oz. 10c., 1/4 lb. 20c., 1/2 lb. 35c., lb. 60c.

Kohl-Rabi

Chinese Giant Pepper

This is the largest and handsomest red pepper in cultivation. Plants grow very strong and stocky, from 18 inches to 2 feet in height, and produces an abundance of very large fruits. The fruit is very handsome in appearance, flesh thick and very mild, free from any fiery flavor.

Pkt. 6c., 3 pkts. 15c., 1/2 oz. 25c.

Mammoth Golden Queen Pepper

Red Globe Wethersfield

New onion recently introduced. A yester, ripens early, good size. Outer skin possesses that luster and richness of color so desirable and yet so often lacking from the ordinary Red Globe Onion. Over 700 bushels per acre have been produced and not a scullion among them. Pkt. 5c., 3 pkts. 12c., oz. 16c. 2 ozs. 30c., 1/4 lb. 50c., 1/2 lb. 80c., lb. \$1.50, 2 lbs. \$2.75.

Large Red Wethersfield

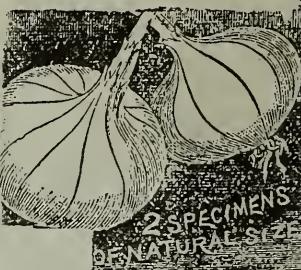

(See Front Cover)

We have a very early strain of this popular variety. It is a magnificent selection, the skin being a deep purplish red, flesh pure white, fine grained and a long keeper. It is excellent for shipping, and there is no strain that can surpass this variety. Yields of six, seven and eight hundred bushels per acre are not uncommon. We consider it in every way a perfect red onion for home or market purposes.

Pkt. 5c., 3 pkts. 12c., oz. 16c. 1/4 lb. 50c., 1/2 lb. 80c., lb. \$1.50, 2 lbs. \$2.85 postpaid. By express not pr'd. 5 lbs. \$6.50.

Early White Pickling

This is the earliest onion in cultivation, producing very handsome bulbs. At maturity the tops die down direct to the

bulb, it being pure white in color, very delicate and mild flavor. For table use or pickling, it is very valuable, our customers will be pleased with the handsome little white onion. Its earliness will surprise you.

Pkt. 5c., 3 pkts. 12c., oz. 20c., 1/4 lb. 75c.

Smiths' Great Onion Mixture

All those who sow a small quantity of onion seed for home use will do well to order this mixture. We have included all the early, medium and late sorts, which will produce an abundance of onions of all colors, shapes and sizes, many being giants. Wonderful results have been obtained. Pkt. 4c., oz. 12c., 1/4 lb. 30c., 1/2 lb. 55c., lb. \$1 postpaid.

ASPARAGUS
BARR'S MAMMOTH
Stalks very large; grow quickly light in color, nearly equal to the Palmetto, but somewhat larger. Pkt. 4c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c.

SPINACH
ROUND THICK LEAVED
Grows large, thick, dark green leaves somewhat crumpled. Pkt. 4c., oz. 8c., 1/4 lb. 12c., 1/2 lb. 20c., lb. 35c., 5 lbs. \$1.65 postpaid.

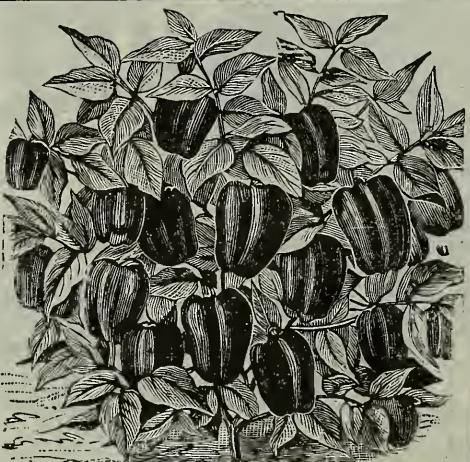

Round Thick Leaved Spinach

Procopp Giant
Grows very large size producing large fruit from 8 to 10 inches in length, just mild enough to be pleasing to the taste. It is a splendid variety to grow. The illustration shows the plant when loaded with fruit. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c.

Ruby Giant
This is the leading red pepper always in demand. Fruit grows to a good size, a brilliant red in color flavor sweet and mild. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c.

Procopp's Giant Pepper

Ruby King Pepper pkts. 12c., 1/2 oz. 14c., oz. 25c

Pepper Mixture

Contains all the different varieties of peppers and will produce a great display of the different shapes, colors and sizes to be found among peppers. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 12c.

Mammoth Golden Queen

This is the largest yellow pepper, very productive, perfect in shape, uniform in size, mild flavor and of a golden waxy yellow color. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 15c., oz. 25c.

LONG RED CAYENNE

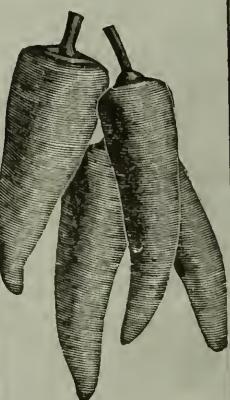

This is the true Cayenne, fruit conical shaped, red in color, very hot in flavor. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c., oz. 25c.

ORDER

Our Everbearing Summer and Fall Fruiting Strawberries, also Raspberries and Himalaya Plants.

See Inside of Back Cover for Watch Offer.

Long Red Cayenne

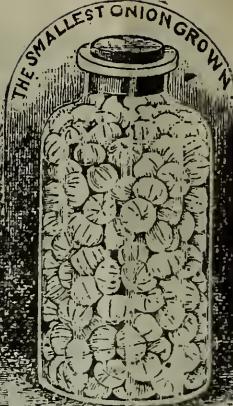

Ground Cherry MAMMOTH FRUITED

This is the most prolific Ground Cherry ever offered. Fruit is about double the size of any other variety. Has dark purple egg plant colored skin, and green flesh. Excellent for preserving. Plants grow 2 1/2 ft. high and are very productive. Start quickly from seed and fruit very early. Pkt. 5c., 3 pkts. 12c.

Mexican Bouquet Pepper

A very interesting new pepper growing 1 1/2 to 2 ft. high, very prolific. Always produces a large number of clusters of peppers in the form of a bouquet, as shown by engraving, with 12 to 36 cone shaped fruits to each bouquet. Makes a beautiful plant and can be grown in a pot like a geranium. Pkt. 6c., 3 pkts. 15c.

An extra early wrinkled variety, coming into market as soon as the early smooth kinds. The vines grow about three feet high, need no bushing. Pods are well filled. Pkt. 6c., 3 pkts. 15c., $\frac{1}{2}$ pt. 18c., pt. 30c., qt. 50c., postpaid. By express or frgt. not prepaid, 4 qts. \$1.10, peck \$2.00.

BLISS EVERBEARING

A good wrinkled pea, grows from 18 inches to 2 feet high, Stalks branch freely, producing pods about 4 inches long of good size producing large sized peas of the best quality. It is an everbearing variety, having a peculiar branching character, forming as high as eight stalks from a single root stalk. Pkt. 5c., $\frac{1}{2}$ pt. 16c., pt. 30c., qt. 50c., postpaid. By ex. or frt. not prepaid, pk. \$2.50.

THE TELEPHONE

For a main crop there is no better variety. Grows strong, attaining a height of about 4 ft. The stalks grow very prolific and produce a large number of pods. Pods very large and well filled with wrinkled peas, six to eight being the average. The quality is excellent, and for family gardens it will be hard to find a better variety than the Telephone. Per pkt. 5c., $\frac{1}{2}$ pt. 18c., pt. 30c., qt. 55c., postpaid. By express or freight, not prepaid, peck \$2.50.

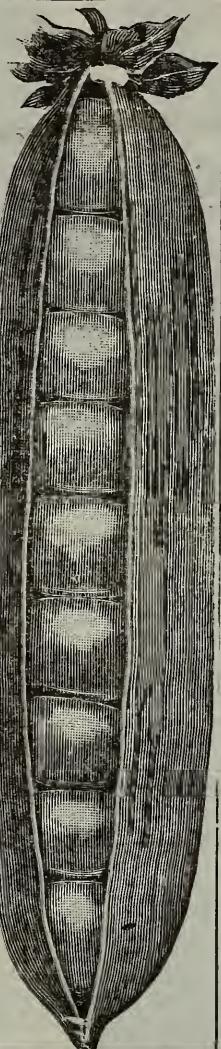

THE ENORMOUS

This variety is rightly named Enormous, for it does grow enormous sized pods containing enormous sized peas. The stalks grow about 4 feet high and are very strong and healthy. They are enormous yielders, peas being larger than any other variety we know of. They are entirely free from mildew, and stand at the head of the list for large size and excellent quality. Pkt. 6c., 3 pkts. 15c., $\frac{1}{2}$ pt. 20c., pt. 35c., qt. 60c., postpaid. By express or freight, not prepaid, peck \$2.75.

CHAMPION OF ENGLAND

A well known sweet variety, acknowledged to be one of the best for late sowing.

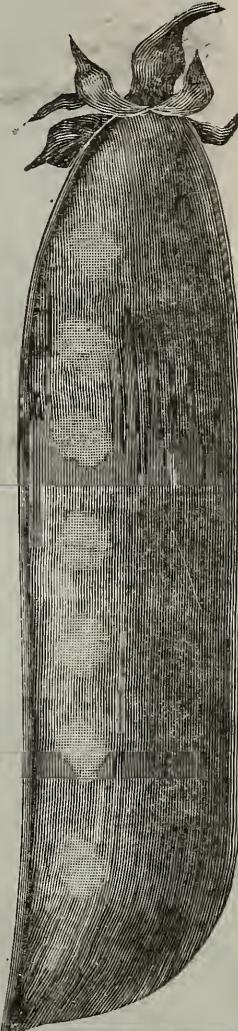

Pkt. 6c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 45c., postpaid. By express or freight, not prepaid, 4 qts. \$1.25

The Enormous

THOMAS LAXTON

This is a fine early wrinkled pea, somewhat resembling Gradius or Prosperity, but the pods are a deeper and richer green. It is about as early as the First of All. Pods contain seven or eight large peas of the richest flavor. Grows about three feet high and as a first early pea we consider it one of the very best; all who grow this variety will be greatly pleased with it. Pkt. 6c., 3 pkts. 15c., $\frac{1}{2}$ pt. 20c., pt. 35c., qt. 60c., postpaid. By express or by freight not prepaid, 4 qts. \$1.50, peck \$2.75.

Thomas Laxton

AMERICAN WONDER

Of dwarf habit, producing an abundance of good size, well filled pods. One of the best early wrinkled peas. Pkt. 5c., 3 pkts. 12c., $\frac{1}{2}$ pt. 16c., pt. 30c., qt. 50c., postpaid.

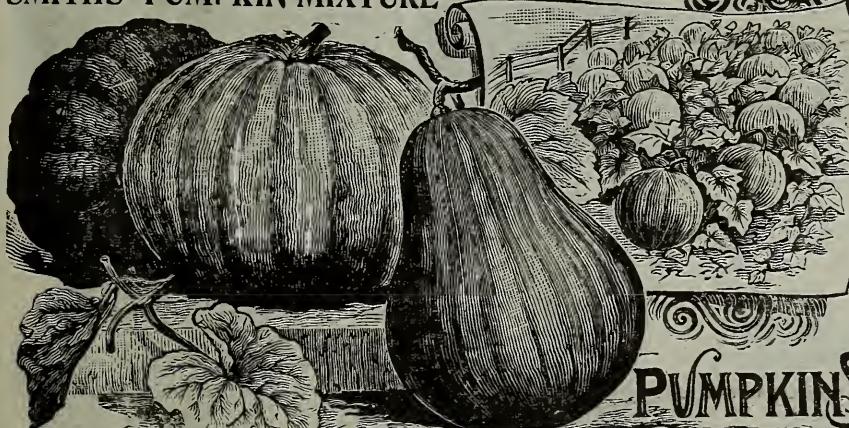

The Giant Pumpkin

SMITHS' PUMPKIN MIXTURE—We have made up a great mixture of Pumpkins, which include nearly all the varieties in cultivation, and will produce an abundance of early, medium and late sorts with the odd shaped and mammoth varieties which will produce many curiosities. If you plant this mixture you will get pumpkins of every imaginable shape and color and we would like to have our customers try it. Pkt. 4c., 3 pkts. 10c., oz. 9c., 2 ozs. 16c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c.

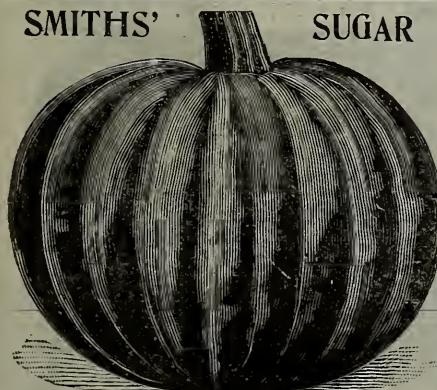

THE GIANT—This is the largest Pumpkin grown. Flesh is bright yellow, fine grained and of good quality. It is not uncommon for specimens to weigh over 100 lbs. each. It is the largest and handsomest pumpkin ever grown. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., $\frac{1}{4}$ lb. 40c.

SMITHS' PUMPKIN MIXTURE

PUMPKINS

SMITHS' SUGAR

JAPANESE PIE PUMPKIN

JAPANESE PIE—A Japanese variety valuable for cooking. The flesh is thick and of a rich salmon color fine grained, dry and sweet; grows to medium size; seed cavity small. A good keeper, Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 60c.

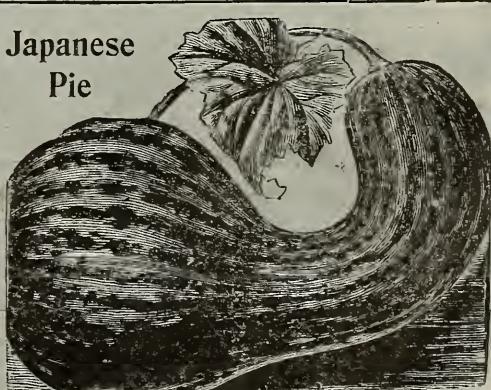

SMITHS' SUGAR PUMPKIN

SMITHS' SUGAR—It has a deep yellow skin and fine grained flesh, excellent keeper. A sure cropper and the best variety for home use. Always grows to uniform size as shown by the engraving. Pkt. 4c., 3 pkts. 10c., oz. 12c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

COMMON FIELD PUMPKIN

COMMON FIELD—This is the ordinary pumpkin used to plant in corn fields for feeding stock. Very productive. Pkt. 4c., 2 pkts. 7c., oz. 9c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 50c., 3 lbs. \$1.10 postpaid.

Japanese Pie

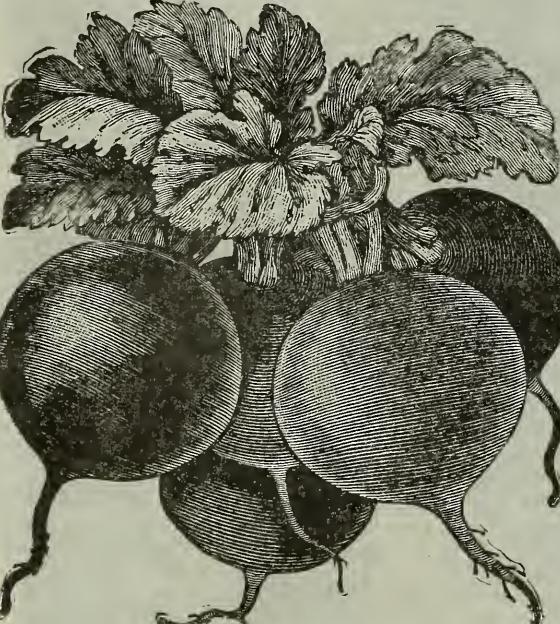

RADISHES

SMITHS' STRIPED RADISH

Early Scarlet Globe

EARLY SCARLET GLOBE—Is a splendid forcing Radish and is considered one of the earliest Scarlet Globe Radishes in cultivation. It is a beautiful oval in shape, rich scarlet color; flesh is very tender, crisp and mild, and while it is a leading variety for forcing it is equally as good for outdoor culture. Pkt. 5c., 2 pkts. 8c., 4 pkts. 15c., oz. 9c., 2 ozs. 16c., 1/2 lb. 25c., 1/2 lb. 35c., lb. 60c.

Early Scarlet Globe

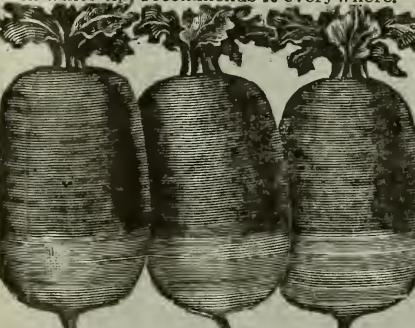

Crimson Giant Radish

This is a new early turnip-shaped radish, but double the size of other varieties of that type, often measuring 6 to 7 ins. in circumference. Notwithstanding its large size, it has an excellent flavor, mild and crisp, and has not the hollow or pithy center, while it is as suitable for forcing or planting in the open ground as varieties developing to only half its size. It is a rapid growing sort with handsome, crimson colored roots, and the flesh is pure white. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., 1/2 lb. 25c., 1/2 lb. 40c., lb. 75c., postpaid.

French Breakfast Radish

This is an early bright scarlet; tender, crisp and an excellent variety for forcing in frames for early market. It is one of the quickest growing, and its beautiful rose scarlet color, with white tip, recommends it everywhere.

In the standard early variety in the French market; grows in all climates and is very attractive. Pkt. 5c., 2 pkts. 8c., oz. 10c., 2 ozs. 15c., 1/2 lb. 20c., 1/2 lb. 35c., lb. 60c., postpaid.

French Breakfast Radish

Early White Snow Radish

Early, and can be grown under glass or in the open garden. Has short top, grows very rapidly; mild, and of sweet flavor. Roots smooth, crisp and brittle.

Pkt. 4c., 3 pkts. 10c., oz. 8c., 2 ozs. 15c., 1/2 lb. 25c.

ALL SEASONS RADISH MIXTURE

This is the best Mixture of Radishes ever offered, containing all shapes, sizes and colors. This seed will be just the thing for small gardens, when space is limited and you want a garden in one sowing. By sowing this seed you will have Radishes very early and continue all the season, having early, medium and late sorts. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 60c.

Long Scarlet Short-Top

This is without doubt the best long red Radish. It is very early and the leading out-door quick-growing variety; brittle and tender and the roots are a bright red.

Pkt. 5c., 2 pkts. 8c., oz. 10c., 2 ozs. 15c., 1/4 lb. 25c., 1/2 lb. 35c., lb. 65c.

SMITHS' STRIPED RADISH

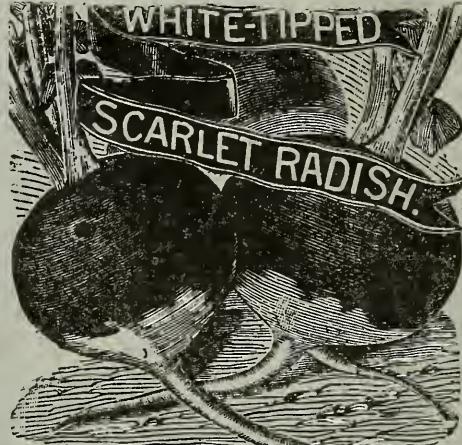

In size and shape the roots are similar to the Scarlet Turnip White Tipped, but in color are a creamy white, beautifully marked with stripes and dashes of carmine. It is an early radish with very small tops and the point in its favor is its color that makes it unusually attractive, both for market purposes and home use.

Pkt. 5c., 3 pkts. 12c., oz. 15c., 1/4 lb. 40c.

NEW LEAFLESS

This is a novelty and certainly is an excellent Early Radish. It was named Leafless from the fact that its shyness in developing the foliage is more noticeable than any other variety. The color is a very bright scarlet. Flesh is white, crisp and tender. On account of producing but few leaves, the strength of growth is all thrown into the roots surpassing other varieties in this respect.

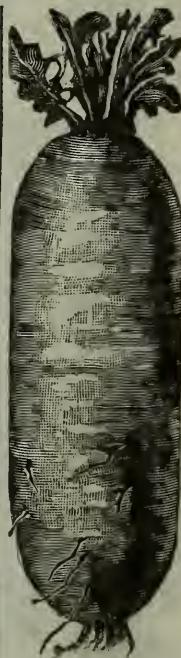

Pkt. 5c., oz. 15c., 2 ozs. 25c., 1/4 lb. 40c., 1/2 lb. 70c.

CALIFORNIA MAMMOTH WHITE WINTER

Largest of all the pure white winter radishes. Specimens measuring 7 inches in diameter and about 18 ins. long, weighing 7 to 10 pounds are not uncommon. It is the only American radish growing to this immense size, still retaining a mild and pleasant flavor all through.

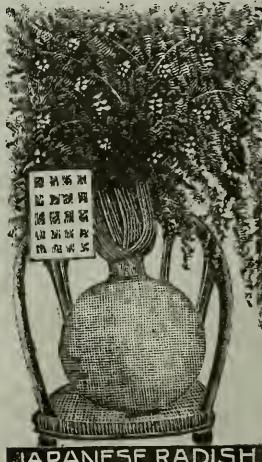

Pkt. 4c., 3 pkts. 9c., oz. 10c., 1/4 lb. 22c., 1/2 lb. 35c.

Long Black Spanish Winter

These are so intensely purple that they appear almost black. Sow in July and use in fall and winter. Very delicious. If stored in the cellar they will keep as well as turnips.

Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 70c.

Round Dark Red Radish

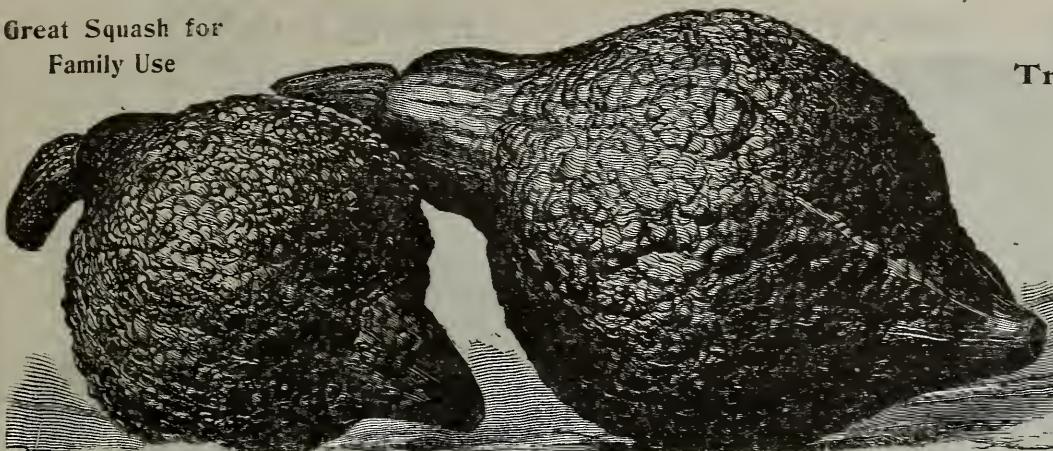

This is a deep, dark red in color, very early, and one of the best strains of the Extra Early Turnip Radishes in cultivation. It is one of the sweetest and tenderest Radishes.

Pkt. 5c., 3 pkts. 12c.

Crimson Giant

Great Squash for
Family Use

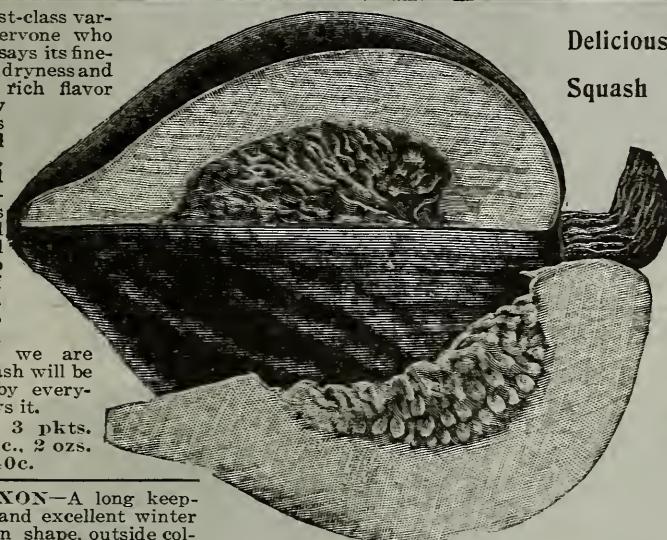

This is a first-class variety and everyone who has grown it says its fine-ness of grain, dryness and exceedingly rich flavor make it very valuable. Has a very small seed cavity, and is a good keeper, hav-ingsometimes kept in good condition all winter, up to the first of April. Grows from five to ten pounds in weight, and we are sure this squash will be appreciated by everyone who grows it.

Pkt. 5c., 3 pkts. 10c., oz. 14c., 2 ozs. 25c., 1/4 lb. 40c.

THE FAXON—A long keep-ing variety, and excellent winter squash, oval in shape, outside color varies from dark green to orange, is a very prolific grower, quality dry and rich. Flesh rich and sweet, very fine grained. Pkt. 4c., 3 pkts. 9c., oz. 10c., 1/4 lb. 30c., 1/2 lb. 50c.

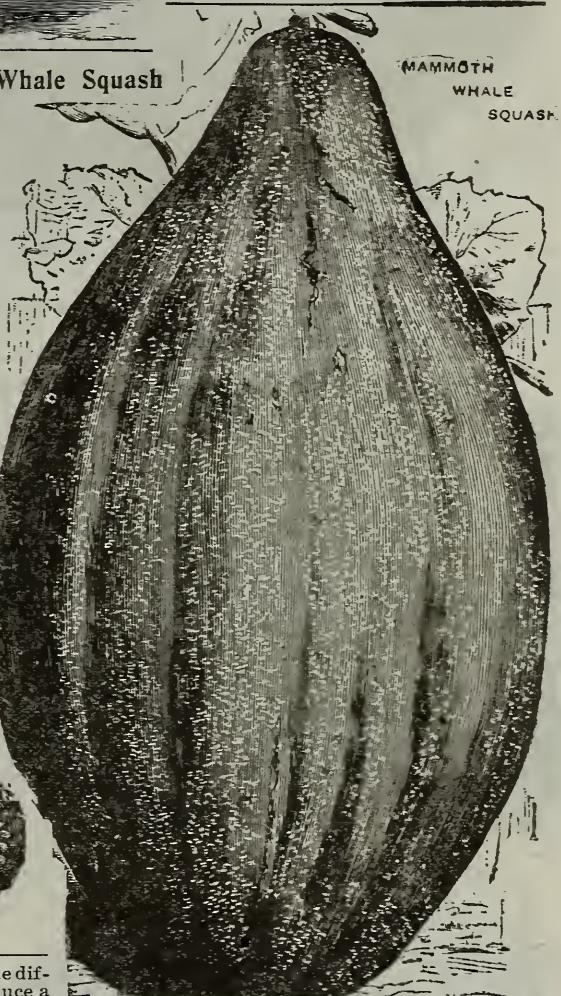

Delicious Squash

Mammoth Whale Squash

A giant squash from France, often grow-ing over three feet in length, specimens, having been grown to weigh over 100 pounds. The flesh is solid, of a rich orange color, of good qual-ity, and a remarkable keeper. Pkt. 5c., oz. 15c., 1/4 lb. 50c.

Summer Crookneck

Best summer squash, twice as large as the ordinary crookneck. The flesh is creamy yellow, dry and of the very best flavor. Skin orange color. Pkt. 4c., 3 pkts. 9c., oz. 8c., 2 ozs. 15c., 1/4 lb. 28c., 1/2 lb. 45c.

SMITH'S SQUASH MIXTURE—Made up of all the dif-ferent varieties, early, medium and late, and will produce a great assortment of squashes of all sizes, shapes and colors. Pkt. 4c., 3 pkts. 9c., oz. 7c., 2 ozs. 12c., 1/4 lb. 22c.

CHINESE CABBAGE

A delicious Cabbage grown extensively by Chinese and re-garded by them as somewhat sacred. Illustration gives a good idea of appearance, but doesn't show delicate blanching. Flavor a blending of cabbage and tur-nip. We believe it will be an interesting vegetable to grow. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

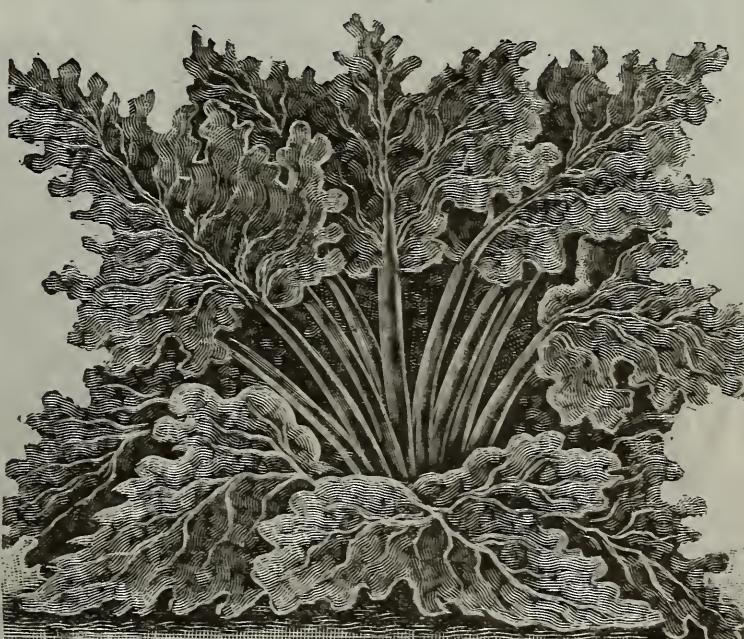

GIANT CRIMSON RHUBARB

Our Giant Crimson Rhubarb is one of the greatest and most valuable Nov-elties we have ever offered. It is the ear-liest, and fit for use in the spring, summer and fall, while common sorts are fit to use only in spring. As fast as stalks are pulled new ones take their place, and in the south or Pacific states it may be used all the year, requiring only water in dry localities to keep it growing. Stalks are of medium size, good length, about one inch in diameter, crimson color, quality simply superb, fully equal to the finest berries for sauce or pies and is really a combination of fruit and vegetable. The skin is so thin and tender it is not necessary to remove it. It is especially adapted for forcing in greenhouses or cold frames. It will stand frosts which will destroy any other sort. Rhubarb is the first vegetable we have from the ground in spring.

Seed per pkt. 5c., 3 pkts. 12c., oz. 40c., 2 ozs. 75c., postpaid.

Strong roots, 10c. each, 6 for 50c., 15 for \$1.00, postpaid.

We have a limited amount of extra selected 6-Rowed Oderbrucker Barley, yielding 55 bu. per acre on 14 acres. If interested, write for sample and our prices.

SMITH'S

19

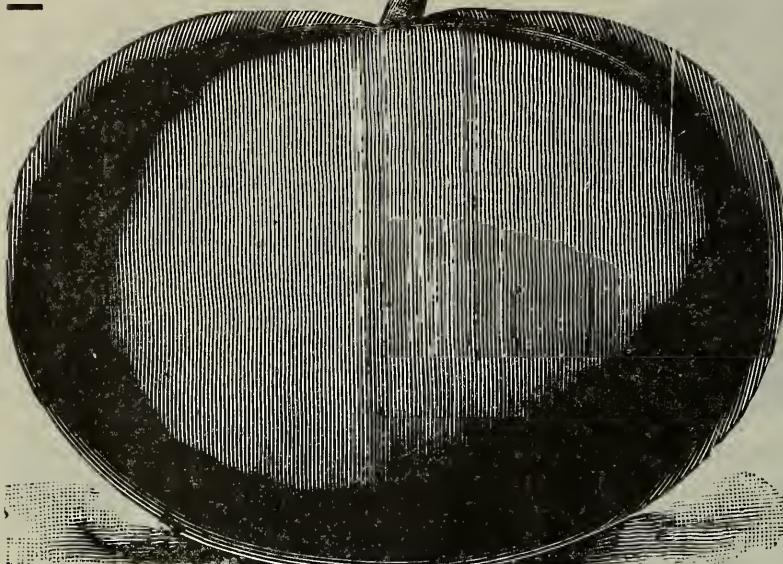

True Hubbard Squash

This is acknowledged the very best squash in cultivation, and is planted by more people than all other varieties put together. The flesh is of a rich orange or yellow color, very fine grained, solid dry and sweet. The rind or shell is very hard and tough, making it an excellent keeper. We offer a very choice strain of seed.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 1/4 lb. 30c., 1/2 lb. 50c., 1b. 90c.

Read instructions on Page 1 about ordering. No seeds or goods sent C. O. D. Re-member, we insure seeds.

Giant Crimson Rhubarb

PONDEROSA—This is a splendid large size Tomato and claimed by many to be the greatest variety ever offered. It often attains a circumference of 18 inches and frequently weighs 2 pounds. Perfect in form quite free from ridges, very solid and meaty and almost seedless, ripens thoroughly, being a handsome crimson and free from rot. It is a very healthy grower, free from blight and a continuous bearer throughout the season. It produces but very little seed.

Pkt. 5c., 3 pkts. 12c., 1/2 oz. 25c., oz. 40c.

IMPROVED EXTRA EARLY TREE

Improved Extra Early Tree

This is an early variety, grows erect, has a dark green foliage, and the plant is quite ornamental. Has been largely advertised as an Early Tree Tomato and preferred by many. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c.

Matchless Tomato

This is a first class large tomato, skin is very tough, a splendid keeper and shipper, and is less liable to crack in wet weather than any other large tomato. The fruit is free from core and the seed spaces are small. It stands at the head as a bright red main crop sort.

Pkt. 5c., 1/2 oz. 12c., oz. 20c., 1/4 lb. 60c., 1/2 lb. \$1.

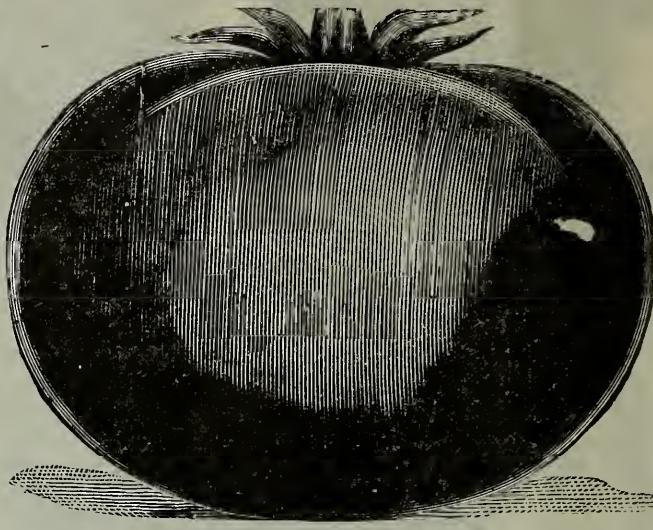

Smiths' Tomato Mixtnre

If you want a great collection of all the early, medium and late varieties, all kinds of tomatoes, this mixture should be planted. It will be a great curiosity in your garden. Pkt. 4c., 3 pkts. 10c., 1/2 oz. 12c., oz. 20c.

Tomato Grape

Grown early from seed, and vine growth is rapid. Resembles a tomato, but habit of growth is like a grape. Will trail on an arbor, veranda, trellis or fence. A very attractive vine. Soon after well started, plants climb and throw out blossom stems which soon form clusters of grapes that grow rapidly. Shortly the vine is covered with large clusters of beautiful red grapes, with a tomato flavor. Fruit is excellent for preserving and using in various ways. One vine yields enormously.

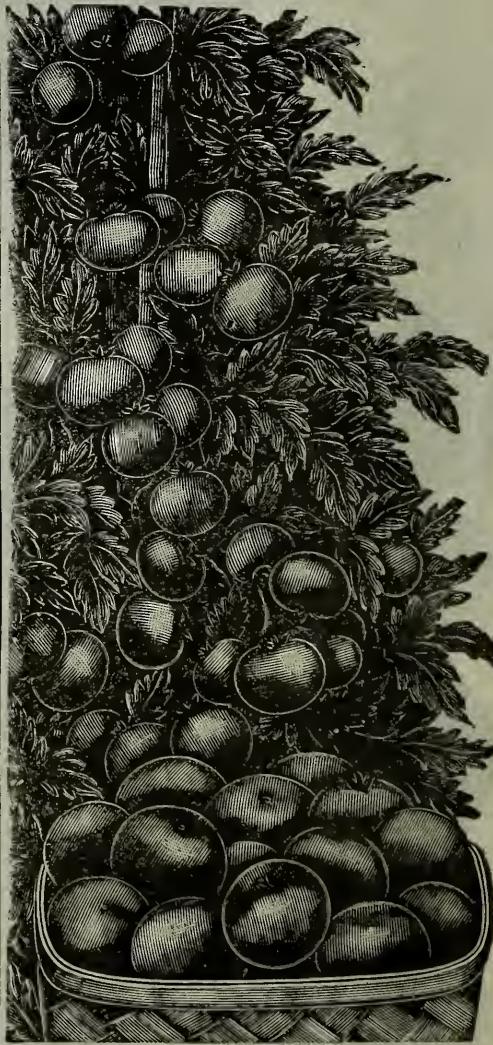

Pkts. 5c., 3 pkts. 12c.

JUNE PINK

NEW TOMATO, JUNE PINK—Is a new introduction, is a deep pink or purplish colored somewhat resembling Earliana. The fruits are borne in clusters of three or four measuring from three to five inches in diameter, and the skin and flesh are a deep pink, or purple tint, while the flesh is sweet and of a mild flavor. The plants are hardy and adapted to market gardeners. June Pink is sure to give satisfaction. We offer the genuine seed as follows: Pkt. 5c., 3 pkts. 12c., 1/2 oz. 15c. oz. 25c., 2 ozs. 40c., 1/4 lb. 75c.

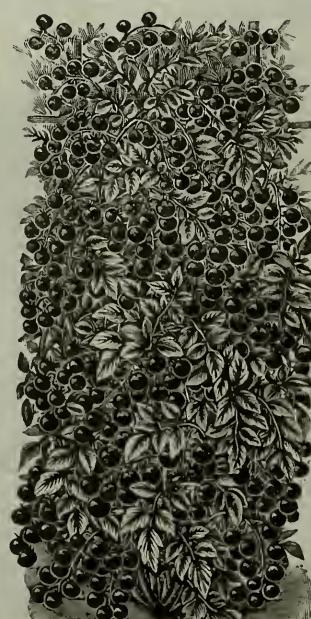

Smiths' Early July Tomato

Smiths' Giant Tomato

Mammoth variety possesses every good quality to be found in a tomato. The vines grow strong and vigorous, and when properly trained will easily carry their enormous weight of fruit, as shown by this engraving. Its massive fruits are almost perfect in form, free from ridges, and as to size, weight and solidity, we challenge anyone to equal it. Three-pound specimens are a common occurrence. The skin is very firm, and one

peculiar thing about this variety is that it is almost seedless, which makes the seed cost much more to grow than any other variety. It is a splendid tomato for training to a trellis or support of any kind, and the enormous weight of fruit will surprise everyone. There are many varieties of tomatoes called Tree Tomatoes, but if you want the handsomest, large, perfect tomatoes in cultivation today, try our Giant. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., 1/2 oz. 30c., oz. 50c.

Tomato Grape

This is acknowledged to be one of the very best extra early tomatoes in cultivation. Its great value lies not only in the time of ripening its first fruits, but a great quantity of fruit can be gathered from a single plant, while many other varieties ripen only a few fruits. They are always perfectly smooth, good size, and very handsome, the color being a bright red. They grow in large clusters, which begin to ripen in July and continue until killed by the frost. On account of its ripening so early in July this variety was called Early July.

Pkt. 5c., 3 pkts. 2c., 1/2 oz. 20c., oz. 30c., 1/4 lb. \$1.

EARLY EARLIANA

This is an extra early, perfectly smooth tomato, and is claimed to be one of the earliest varieties grown, well adapted for market gardeners. It is wonderfully productive and is handsome in appearance, the fruits being large and uniform in size and color. Quality is the best, being solid all the way through, with only a few seeds.

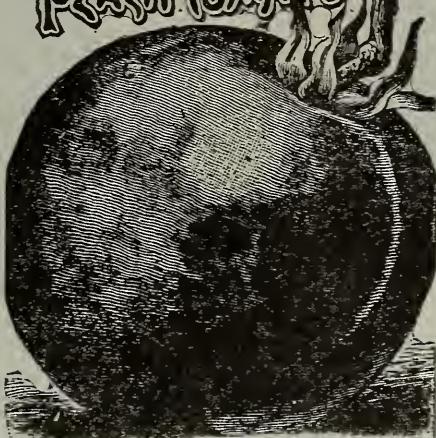

Pkt. 5c., 1/2 oz. 15c., oz. 25c., 2 ozs. 45c., postpaid.

PEACH TOMATO

One of the prettiest tomatoes in cultivation. The fruit is of uniform size and resembles a peach in shape, size and color, which is a deep rose, beautifully blended, and covered with a delicate bloom or furze like a peach. It is excellent for eating from the hand, flesh of rich flavor, skin so thin it can be peeled like a peach.

Pkt. 5c., 3 pkts. 12c., 1/2 oz. 20c., oz. 35c.

PEACH TOMATO

Coffee Berry

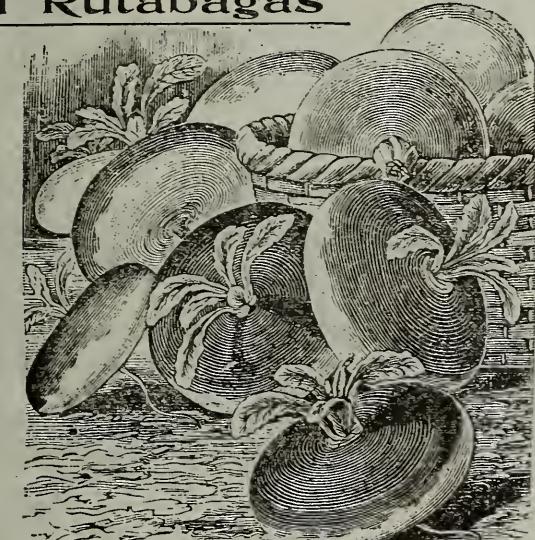

Domestic Coffee Berry—This berry or bean is easily grown in any garden soil and is very prolific. The plant grows very strong, producing a great abundance of pods containing the coffee berries. It makes an excellent drink, very nearly equal to good Java coffee. It can be planted in May and cared for the same as beans and will be found as good a substitute for coffee as any cereal used. Do not fail to plant a few in your garden this year, and see what they will produce. Pkt. 5c., 3 pkts. 12c., 1/4 lb. 15c., 1/2 lb. 25c., lb. 45c., postpaid.

Turnips and Rutabagas

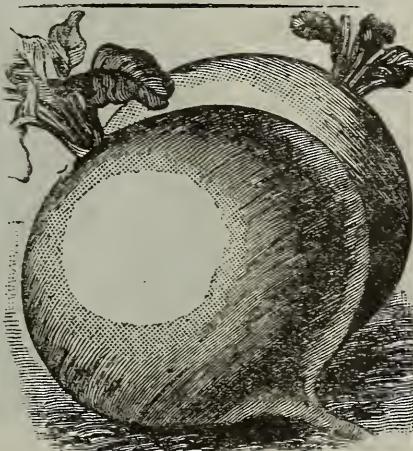

White Egg—A variety that produces egg shaped roots with thin white skin, always solid, sweet and a good keeper. Excellent for early or late sowing. Very desirable for table use. One of our best. Pkt. 5c., oz. 10c., 2 ozs. 15c., 1/4 lb. 25c., 1/2 lb. 35c., lb. 60c. postpaid.

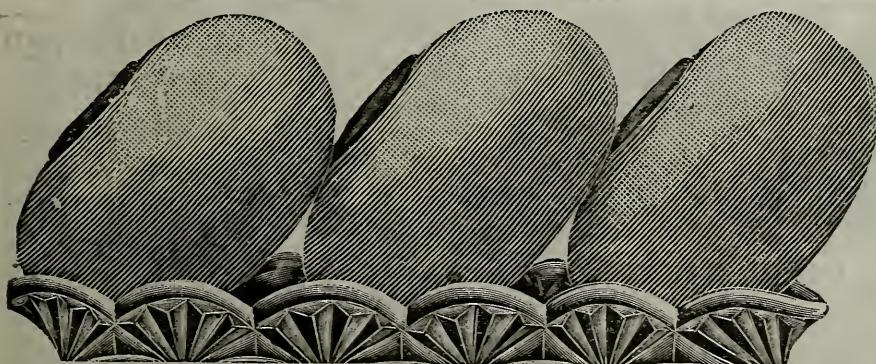

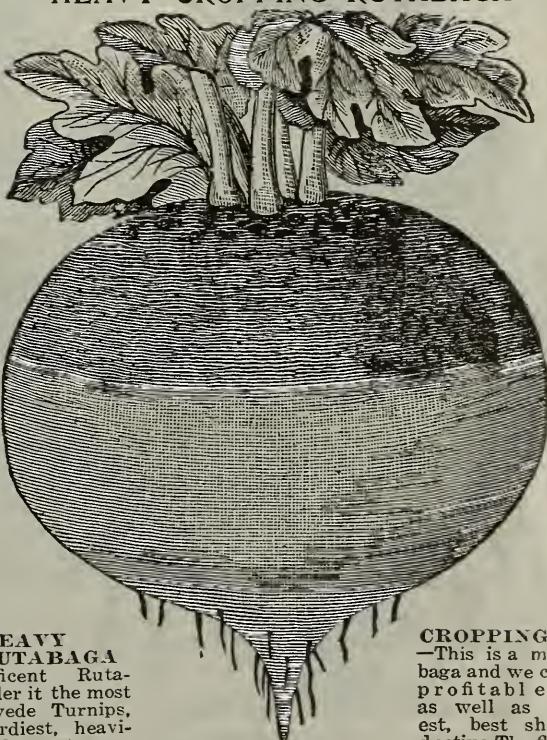

PURPLE TOP STRAP LEAF—The bulb is very flat, of medium size, and quite smooth, with a bright purple top; very fine grained. Per pkt. 5c., 3 pkts. 12c., oz. 9c., 1/4 lb. 22c., 1/2 lb. 35c., lb. 60c.

EARLY SNOWBALL OR SIX WEEKS

This is one of the best Extra Early Turnips in cultivation. The bulb is of medium size, smooth, white and of excellent flavor. We know of no better early garden turnip, for it is so very early and flesh so white. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 65c. postpd.

HEAVY CROPPING RUTABAGA

EARLY WHITE FLAT DUTCH—This is another early variety, which grows, to a medium size very quickly. It has a clear white skin and is always choice for table use and is one of the very best varieties for spring sowing. Our Early White Flat Dutch seed this season is the finest we have ever produced, being of strong vitality. Give it a trial. Pkt. 5c., oz. 10c., 1/4 lb. 20c., 1/2 lb. 35c., lb. 60c. postpaid.

LARGE WHITE SWEET—Flesh white and solid, rich, sweet flavor, a well known Rutabaga. Per pkt. 5c., oz. 10c., 1/4 lb. 20c., 1/2 lb. 35c., lb. 60c. postpaid.

BREADSTONE—Is medium size, very quick growing, and roots are smooth, white, with colored tops. Flesh perfectly white, fine grained, cooks quickly. One of the best in cultivation for winter and spring use. Per pkt. 5c., oz. 10c., 1/4 lb. 20c., 1/2 lb. 35c., lb. 60c.

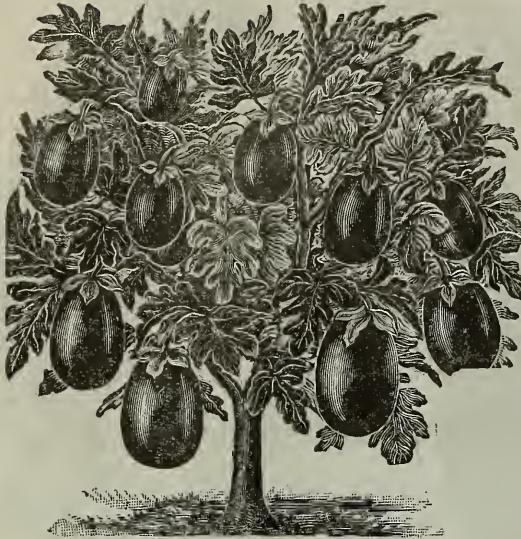

SUPERB MIXTURE OF TURNIPS—This mixture contains all the leading varieties, both early and late, and by sowing this seed a continuous supply may be had throughout the season. You cannot do better than to plant some of this seed. Per pkt. 4c., 3 pkts. 9c., oz. 10c., 1/4 lb. 15c., 1/2 lb. 25c., lb. 45c., 2 lbs. 85c. postpaid.

HEAVY RUTABAGA

Inimitable Rutabaga—It is the most Swede Turnips, hardest, heaviest and most pro-

—This is a magnificent Rutabaga and we consider it the most Swede Turnips, hardest, heaviest and most productive. The flesh is yellow, of the choicest quality, and bulbs always remain sound and good, when flatter varieties will rot. It is a variety that should be sown in preference to all others, and you will make a great mistake if you do not plant it this year. Per pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 35c., lb. 60c. 2 lbs. \$1.10.

EGG PLANTS

NEW TREE EGG PLANT

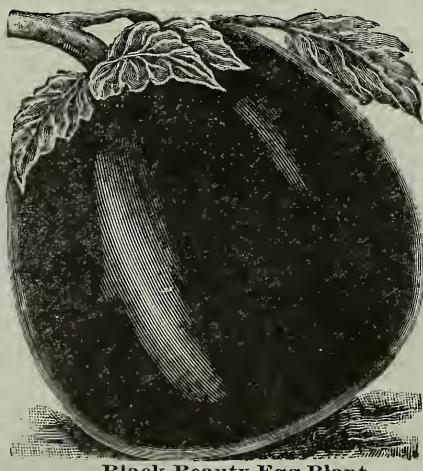

Plants grow tall and stocky, branching freely, holding their fruit up well from the ground. Fruit is handsome, dark purple color, fine size, very early and keeps well. Quality is the very best and we know our customers will say this is a wonderful Egg Plant. We have a choice lot of seed direct from headquarters. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

NEW YORK IM-
PROVED
LARGE PURPLE

Skin deep purple, free from thorns, flesh white, is very productive. Per pkt. 5c., 3 pkts. 12c., 1/2 oz. 25c.

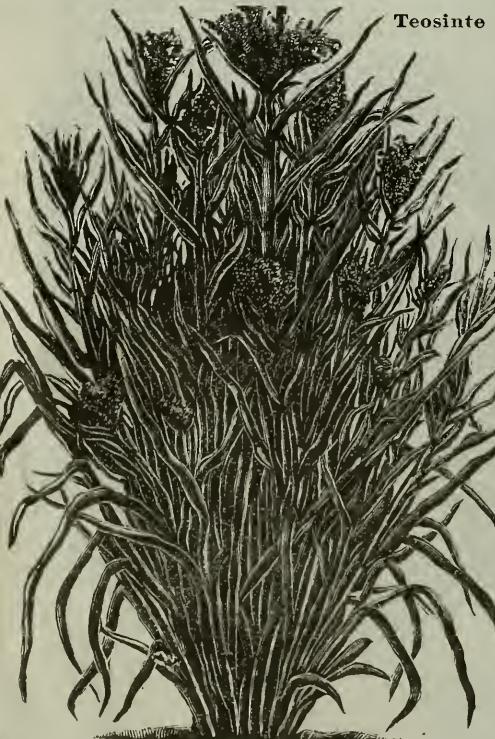

BLACK BEAUTY

One of the earliest and best of the large fruited egg plants. The skin is a large purple black, very productive, and a real beauty. Pkt. 5c., 3 pkts. 12c., 1/2 oz. 25c.,

Black Beauty Egg Plant

Teosinte

other forage plant, often producing 25 to 30 stalks, and as many as 75 stalks have been grown from one kernel of seed. It can be cut when two or three feet high, after which it will rapidly grow up and as many as four crops have been cut during a season. The amount of forage per acre from this plant is something immense; in many cases from 150 to 200 tons. It should be planted in hills two feet apart each way and three pounds is sufficient for one acre.

Pkt. 5c., oz. 10c., 1/4 lb. 35c., 1/2 lb. 60c., lb. \$1.00, 3 lbs., enough for one acre, \$2.90, postpaid.

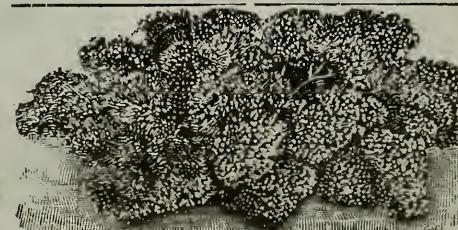

Chameleon Egg Plant

An interesting plant less decorative by its flowers than by its fruits, which are rather large, but flattened, and have strong ribs, similar to a tomato of the old type. The fruits of this new Tri-Color Egg Plant pass from white to an intensive yellow; later into a brilliant scarlet, changing color like a chameleon, producing fruits in abundance. They keep well and there are always fruits of the three different colors on the plant, thus producing a strange effect. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

TEOSINTE

A forage plant that was brought to this country some years ago and has been grown very successfully. It resembles corn somewhat, but has a much broader leaf and sweeter sap. It is a very rapid growing plant after it has attained a height of 5 or 6 inches and grows to a height of 11 feet. It suckers more than any other forage plant, often producing 25 to 30 stalks, and as many as 75 stalks have been grown from one kernel of seed. It can be cut when two or three feet high, after which it will rapidly grow up and as many as four crops have been cut during a season. The amount of forage per acre from this plant is something immense; in many cases from 150 to 200 tons. It should be planted in hills two feet apart each way and three pounds is sufficient for one acre.

Pkt. 5c., oz. 10c., 1/4 lb. 35c., 1/2 lb. 60c., lb. \$1.00, 3 lbs., enough for one acre, \$2.90, postpaid.

PARSLEY
Champion
Moss
Curled

A choice select strain producing curled and crinkled leaves. Pkt. 4c., 3 pkts. 9c., oz. 10c., 1/4 lb. 25c.

GARDEN HUCKLEBERRY

We have grown this fruit, are pleased with it, and recommend it for pies, preserves, jams, etc. when fully matured. Not good raw or unmatured. Easily grown from seed and bears an abundance of fruit that ripens in fall. Not hardy and should be reared like tomatoes. Plant seed in box or pan in the house and put out when danger of frost is past. After the jet black fruit has matured it is claimed that a frost will improve its quality and that it will cook up much finer and with much better flavor. Pkt. 6c., 3 pkts. 15c.

THE WONDERBERRY

Claimed to be a creation of Luther Burbank. Adapted to pot and open ground culture. Largely advertised throughout the country and we have the genuine seed to offer. Produces fruit 3 to 4 months from sowing. Fruits resemble huckleberries, but are not as large. One bush produces a large quantity. Pkt. 6c., 3 pkts. 15c.

SEEDS BY MAIL INSURED FREE

Remember that every Order for Garden and Flower Seeds over \$1.25 that are to be sent by mail, we prepay by Parcel Post and have each package Insured Free so you will get your seeds. Try it this season.

MAMMOTH PEANUTS

Peanuts can be grown in almost any place where corn succeeds. This variety contains earliness and large size, is also very prolific, as is shown by the engraving above. Every part is useful; the vines as valuable feed for horses, cattle and sheep; producing from one to two tons of vines per acre, while the nuts contain a large per cent of rich nourishment. They do best on a light sandy soil, but will produce a good crop on any open soil when it is plowed deep and carefully tilled. Plant them in rows 2 1/2 to 3 feet apart and from 9 to 12 inches in the row, under about 2 inches of dirt. If you grow a crop of peanuts you will also find that your soil has been benefitted nearly as much as if sown to clover. We encourage everyone to try a crop of peanuts. Pkt. 6c., 3 pkts. 15c., 1/2 lb. 30c., lb. 50c., postpaid.

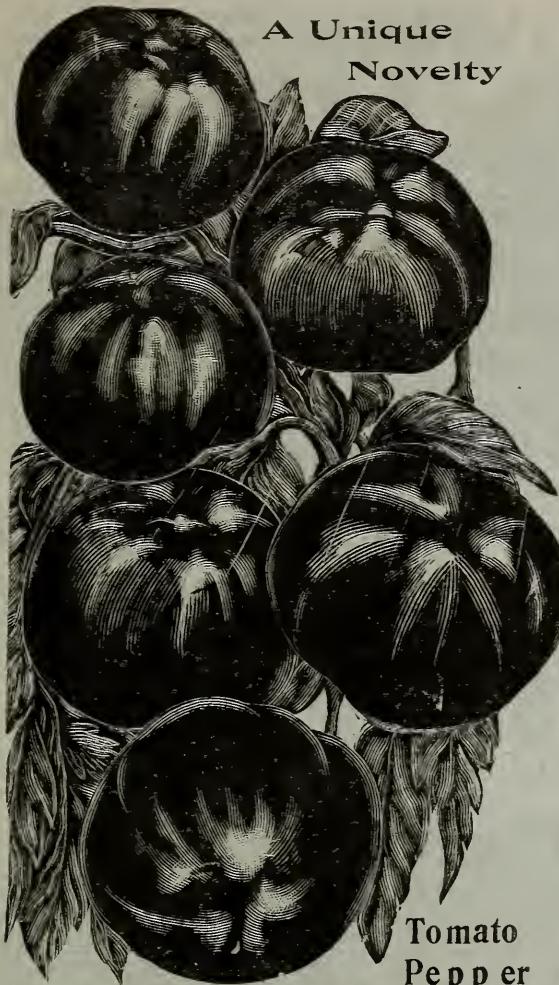

Chameleon
Egg PlantGREAT SEED OFFER
FOR 1914

14 Packets 30c.

This Special Offer of regular size packets is made to get people who are not our regular customers to try our seeds. A Unique
Novelty

Tomato
Pepper

Brazilian or Stooling
Flour Corn

This variety yields four times more corn to the acre than any common kind, and a great deal more in shelled corn. It stools like wheat, each kernel producing from 4 to 8 stalks with from 3 to 4 ears on each stalk, about 5 to 6 inches in circumference, and from 9 to 12 inches long, of pure white kernels. It is the best variety for ensilage. Contains a larger percentage of starch than any other corn, and when ground and bolted by the same process as wheat gives a better bread and biscuit flour than can be made from wheat. It is also used largely as roasting ears. Only 2 kernels should be planted to the hill, and afterward thinned to one and cultivated the same as other corn.

Pkt. 6c, $\frac{1}{4}$ lb. 15c, $\frac{1}{2}$ lb. 25c, lb. 45c, postpaid. By express, not prepaid, pk. \$2.00.

New Tomato Pepper

This pepper very much resembles a red tomato in shape and general appearance. Many people when first seeing it call it a tomato. It makes an upright growth and is distinct from any other; enormously productive, and so mild it can be eaten out of the hand like an apple. It bears from June until fall, and will outyield any other pepper. It will attract attention wherever grown. The illustration shows shape and appearance. Try it.

Pkt. 6c., 3 pkts. 15c.

Brazilian or Stooling Flour Corn

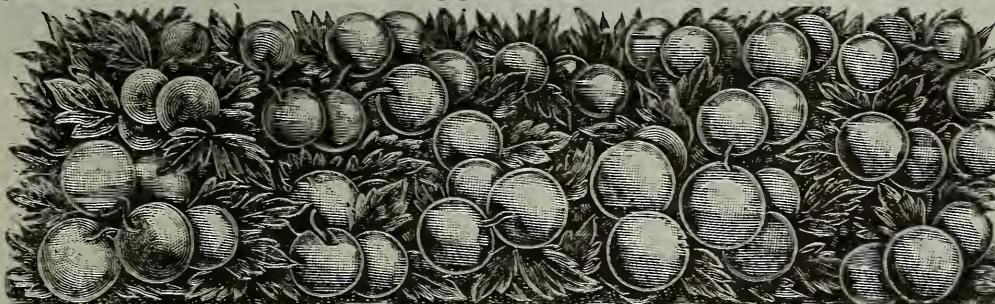

23

The Vegetable Orange

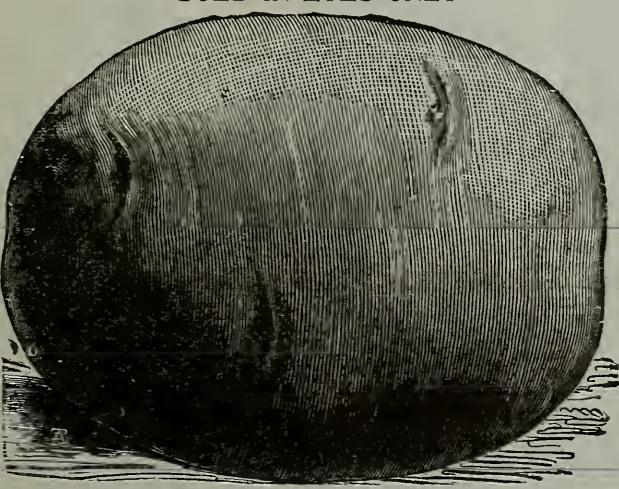

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown, vines of this Vegetable Orange are smaller than those of a Musk Melon, but they require about the same cultivation. It is a wonderful yielder, producing fruit about the size of an orange, of a bright yellow color, somewhat russeted. In the west, where fruit is scarce, this orange is rapidly becoming popular. For sweet pickles, pies or preserves they are splendid, and can be used in many ways.

Pkt. 6c, 3 pkts. 15c.

Irish Cobbler Potato

SOLD IN EYES ONLY

One of the most reliable early potatoes ever offered. Ripens almost with the earliest, and so uniform that every hill seems to ripen at the same time. The yield is very large, and equals some of the late ones in bushels per acre. The flesh is pure white and of the finest quality—not excelled by any other early variety on the market. Its strong growth, earliness, large yield and very handsome appearance have brought the Early Irish Cobbler to the front as a profitable variety for the market and home use. Our stock is very fine, and is free from scab. For an early potato you should try no other. By mail, postpaid, 10 eyes 20c, 25 eyes 35c, 50 eyes 60c, 100 eyes \$1.10, 200 eyes \$2.00.

Whole potatoes
a pound 60c, 2
pounds \$1.00, by
mail postpaid.

This potato has been brought to its present state of perfection and remarkable yield by a graduate of the State Agricultural College of Cornell University, who, by careful study in selecting his stock, has produced over 2000 bushels from six acres, and won fourth prize in the New York State Potato contest with 72 contestants.

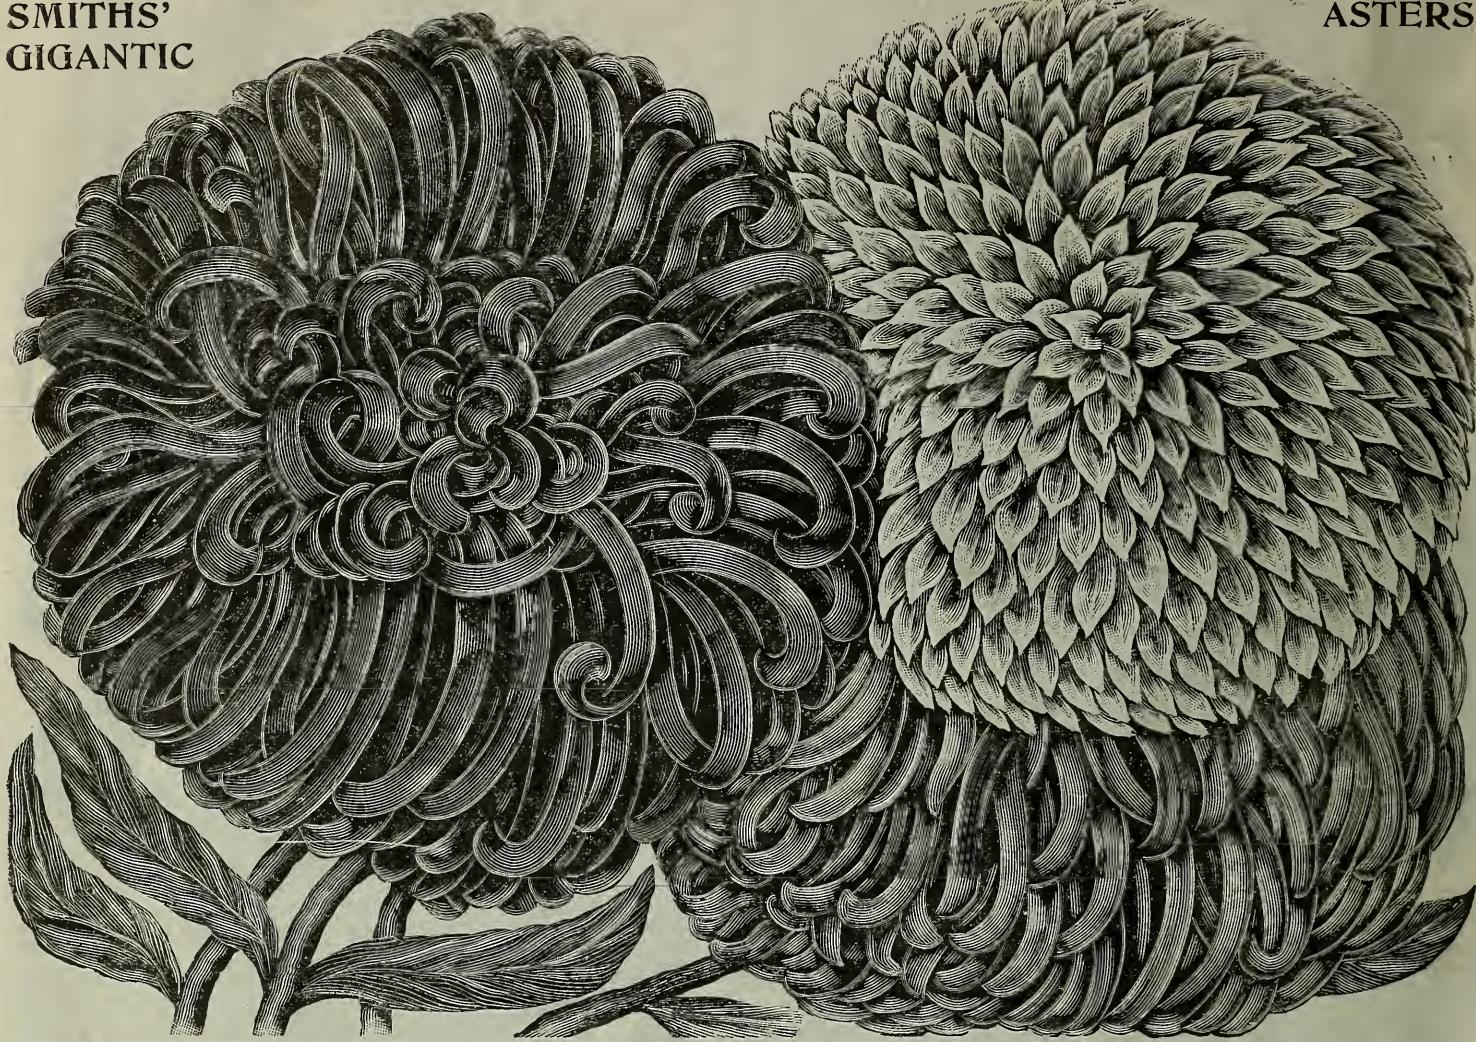

This Potato is oblong, rather thick, straw-white colored skin, pure white flesh, and is a good cooker and keeper. So careful have we been to get this stock perfect that it has taken us three years to complete this work before offering them for sale. We are offering them in eyes and pound lots [whole potatoes only] this season. If you only plant one new variety, let it be this one, as our stock is very choice, free from blight, but limited. Orders filled when requested or when weather will permit. Send your orders today and state when you wish them sent. Prices above.

24 SMITHS' CHOICE FLOWER SEEDS

SMITHS'
GIGANTIC

ASTERS

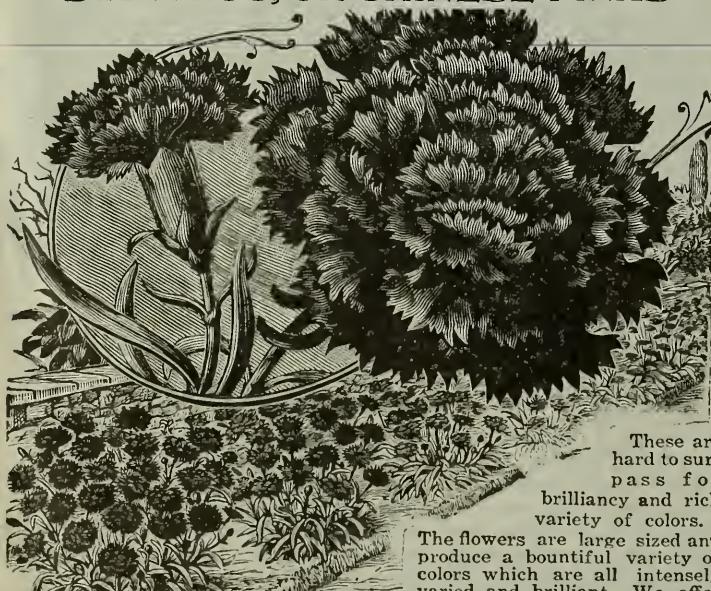

SMITHS' GIANT FLOWERING OR GREAT ASTER MIXTURE

The greatest variety of Asters ever collected. You should grow this mixture. It contains more than a hundred different varieties, each variety is selected from such classes as the Dwarf German, Dwarf Victoria, Comet, Quilled German, Lilliput Flower, Large Globe Flowered, Christmas Tree, Princess, Lady Mignon, Pearl, Victoria, Ball or Jewel, Ostrich Plume, Peony Flowered, and a great many other sorts, which will produce a magnificent display of flowers impossible to describe, of mammoth size. A few plants will produce a great quantity of flower heads, equal to the best Chrysanthemums. Choice seeds from selected plants. All colors. Pkt. 5c., 3 pkts. 12c., $\frac{1}{2}$ oz. 60c., oz. \$1.00.

PURITY WHITE ASTER—By the most careful selection, this beautiful Aster has been brought to a state of perfection hitherto unknown in this type. Of free, sturdy growth, attaining a height of over 2 feet, well branched, with long, strong stems and artistic, fluffy, graceful flowers, rarely less than 3 inches across and frequently over 5 inches, as fine as any Chrysanthemum. When cut keeps longer in good condition than any Aster of this type; in bloom from mid-August on through Sept.; color pure, glistening white. Pkt. 6c., 3 pkts. 15c.

NEW BOUQUET ASTER—This is a splendid new Aster especially suited for pot culture or for the border of a flower bed. Is very dwarf growing only 6 or 7 inches high but completely covered with blossoms forming a handsome bouquet. Colors are white, pink and other shades, blending in the most pleasing manner, making it one of the most beautiful Asters we have ever offered. Pkt. 5c., 3 pkts. 12c.

DIANTHUS, OR CHINESE PINKS

These are hard to surpass for brilliancy and rich variety of colors. The flowers are large sized and produce a bountiful variety of colors which are all intensely varied and brilliant. We offer both single and double varieties, All colors mixed. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

ALYSSUM

SWEET—This is pure white, much used for borders; is fragrant and produces very delicate flowers. Pkt. 4c., 3 pkts., 10c.

LITTLE GEM—Grows from two to four inches high. One plant will completely cover a circle ten by twelve inches in diameter. Very fragrant, flowers are pure white. Pkt. 5c., 3 pkts. 12c.

DOUBLE DAISY

These are easily raised from seed and come in bloom in a very short time. We offer all the best varieties. Mixed colors. Pkt. 4c., 3 pkts. 12c.

Send your orders early, and have seed ready for planting time.

AGERATUM

LITTLE BLUE STAR—Plants grow only about 4 inches high and are completely covered with bright blue flowers. Pkt. 4c., 3 pkts. 10c.

ALL COLORS MIXED

Plants grow only four or five inches high, and are completely covered with flowers. Make excellent edging plants on account of the wonderful profusion of bloom and small size.

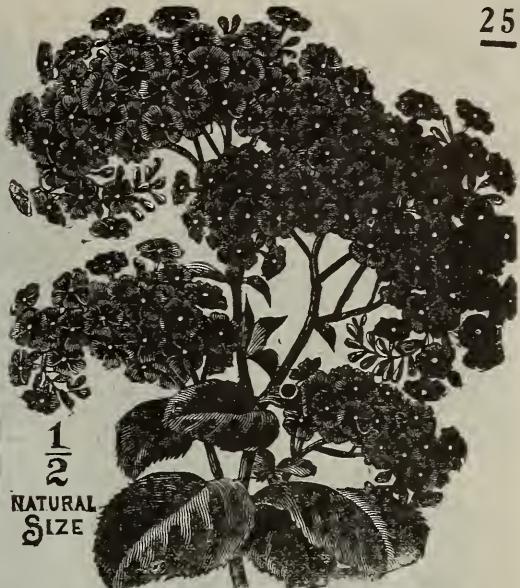

Pkt. 5c. 3 pkts. 12c.

SMITHS' EARLY GIANT CARNATIONS

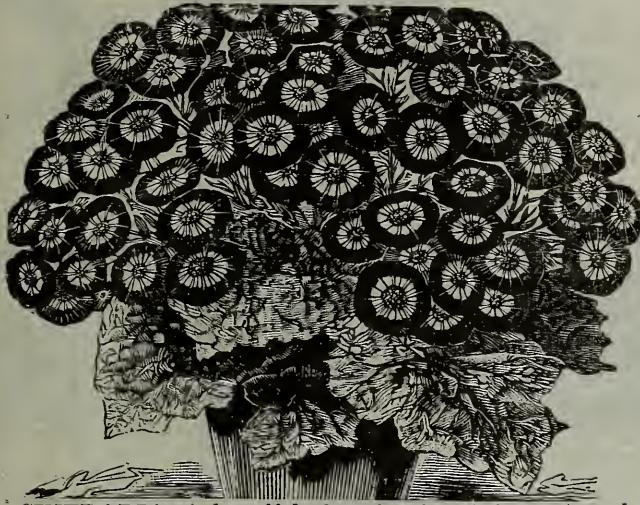

This is a wonderful strain of Carnation which will produce flowers in three or four months from seed. The seed we offer should give nearly 90 per cent. of double blossoms. The plant is of dwarf, compact habit, branching out just above the ground. The variety of colors includes blush, deep pink, white, salmon, maroon, dark crimson, and many beautiful variegated flowers, a great many of which have beautiful fringed petals and are very fragrant. Plants grow easily anywhere. About 12 weeks after the seed is sown they begin to bloom and an abundance of flowers will be produced until frost. Seed sown during the summer will produce plants which can be potted in the fall and will produce flowers throughout the winter.

Pkt. 5c.; 3 pkts. 12c.

Early Flowering Mammoth Heliotrope

HELIOTROPE—This plant is easily grown from seed, and when sown in the open ground will produce flowers in the month of August. The varieties in our collection will make a beautiful display, and their fragrance is delicious. The plants will produce hundreds of flower heads of various colors, among which are dark purple, deep blue, spotless white, violet to deep indigo, and various other shades. Grow some of these beautiful, fragrant flowers. We offer our Early Flowering Mammoth in mixed colors. Pkt. 6c.; 3 pkts. 15c.

CINERARIA—A beautiful plant for the window and can be easily grown. Plants grow about as broad as high and are covered with large flowers of very brilliant colors, ranging through all shades of crimson and blue, while some have white centers or borders. Finest mixed colors. Pkt. 8c.; 3 pkts. 20c.

BIRD OF PARADISE

This is quite a novelty and a very pleasing plant; flowers are of golden yellow; of beautiful shape, measuring about 2½ inches across. They are produced in very large trusses which bloom in great profusion the first year, if sown early in the spring, and the plant will grow from three to five feet tall. It can be grown inside in winter, if desired. Be sure and try it. Pkt., 5c.; 3 pkts. 12c.

JAPANESE CHRYSANTHEMUMS Mixed Varieties and Colors

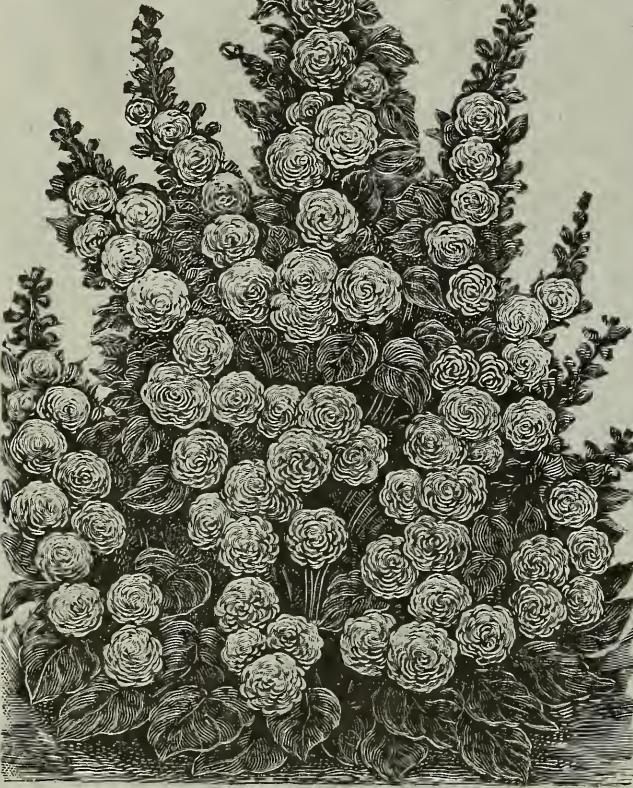

THIS is a great collection of odd and curious Japanese Chrysanthemums that can be easily grown from seed. The illustration gives but a faint idea of the curious shapes and beautiful colors to be found in this collection. Many are twisted, curled and produced in such shapes that it is impossible to describe them. The large flowers are of crimson, gold and various other shades and colors. If you try this you will have a gorgeous display that will be the envy of your neighbors and a horticultural triumph for yourself. Fine mixture of all varieties, shapes and colors. Pkt., 5c.; 3 for 12c.

CANTERBURY BELLS ALL VARIETIES AND COLORS

This is a very popular, large, bell-shaped flower, known everywhere. We have a very fine collection of both single and double, including the Cup and Saucer variety and the plants are covered with hundreds of handsome flowers, striped, lavender, pink, throughout the summer. All varieties and colors mixed. Pkt., 5c.; 3 for 12c.

Are as easily grown from seed as any annual, and commence flowering in about 12 weeks, continuing to bloom until killed by frost. On account of their blooming the first season they are much more desirable to grow than any other Hollyhock, as they can be started in the house or hotbed in March or April, or sown in the open ground in May. If set out in May, plants will bloom in July, producing double, semi-double and single saucer-shaped flowers. To get the best results, set plants in thoroughly rich soil and keep watered in dry weather. Center spike grows 7 to 9 feet in height. Mixture of double and semi-double, all colors and shapes, pkt. 5c, 3 pkts. 12c.

Salvia or Scarlet Sage

LARGE FLOWERING SCARLET—A most gorgeous plant, with its brilliant colors, producing an abundance of bloom during the summer. The great spikes of bloom completely conceal the foliage, making a blaze of flaming scarlet. One plant will produce several hundred spikes of flowers in a season, each spike being about ten inches in length. Pkt. 5c, 3 pkts. 12c.

Poppies

GORGEOUS MIXTURE—These poppies grow 12 to 15 inches high, branch freely and bloom continuously for weeks. Flowers are immense. Their colors run through all shades and make a gorgeous sight all summer. All colors, Pkt., 500 seeds, 5c, 3 pkts. 12c.

GIANT DOUBLE—This mixture is made up of all the double, annual poppies and we are sure the large double flowers and many combinations of colors will surprise you. Imagine a bed of poppies, producing flowers from 4 to 5 inches in diameter, as large as peonies and of all colors imaginable. Their beauty cannot be appreciated until seen. **All colors mixed.** Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

PERENNIAL—These are hardy, produce large single flowers of red, white, orange and yellow colors. Flowers measure 6 to 9 inches across. **All colors mixed.** Pkt. 5c., 3 pkts. 12c.

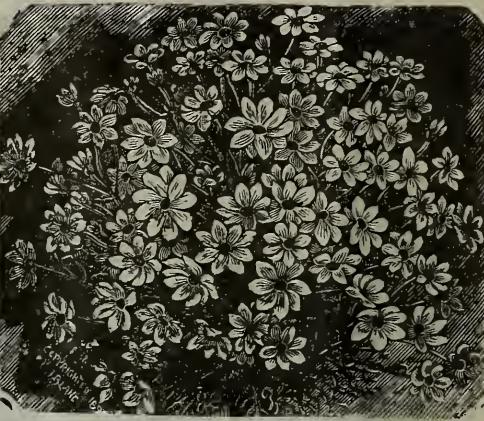

Feverfew

COSMOS All Colors Mixed

This contains all the different varieties and will make a great display of colors. Pkt. 4c., 3 pkts. 10c.

FEVERFEW

These plants produce large flowers; many are very double; different shades of yellow, white, etc. All varieties in a mixture of colors. Pkt. 5c, 3 for 12c.

Ornamental Mixed Gourds

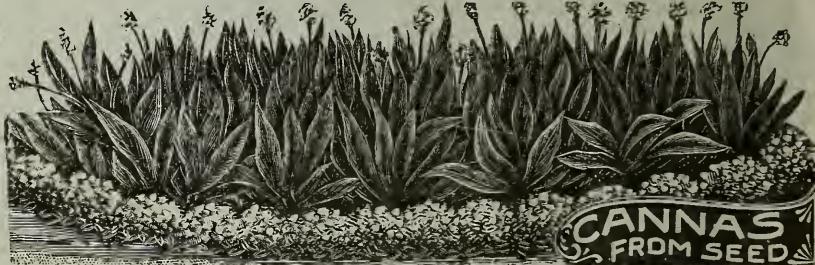

This is a wonderful collection of rare and curious gourds. It contains all the different colors, shapes and sizes, and a packet of seed will produce a great collection of curiosities. We have added everything possible to make this the oddest mixture of Gourds ever offered.

Pkt. 6c, 3 pkts. 15c, 6 pkts. 25c.

Look Front and Back Covers over Carefully. Some Splendid Varieties of Seeds and Plants for Everyone.

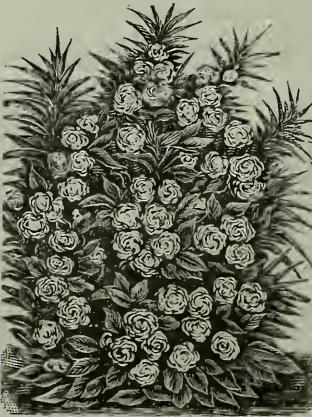

CANNAS, FANCY MIXTURE

CANNAS FROM SEED

We offer a great collection of all different varieties of Cannas, which may be grown from seed. They bloom profusely and a bed of them makes a grand sight. Start seeds early in a hotbed. **Pkt. 5c., 3 pkts. 12c.**

BALSAMS

SMITHS' FANCY MIXTURE

This is the very best Balsam mixture to be found. It contains all the different shades of pink, crimson, spotted, red, etc. It produces plants that are covered with very large double flowers all the shades imaginable. It is a favorite wherever grown.

Pkt. 5c., 3 pkts. 12c.,

BABY ROSE

This is a Wonderful Rose. Produces semi-double and double flowers 2 to 3 months from sowing seed. Long before that however, when the plant is not over 1 1/2 inches high, having 2 or 3 very small leaves, it will throw off 1 to 3 single flowers about size of strawberry blossoms, but much more delicate, and very attractive as it plainly shows the true rose bush type. With increase in size of the plant, blossoms increase until it is a magnificent sight. It is a hardy hybrid perpetual everblooming Rose, sure to be in bloom from spring until winter. Seed is mixed and from 1 packet of seed you will get pink, crimson, white and various shades. Pkt. 8c., 3 pkts. 20c., 6 pkts. 35c.

WHITE VELVET OKRA (or Gumbo)

Never prickly and always round and smooth, while other varieties are either ridged or square edged. Outgrows other varieties.

Pkt. 5c., 3 pkts. 9c., 10c., 1/4 lb. 25c., 1/2 lb. 40c.

SMITHS' GREAT COLLECTION OF NASTURTIUMS

27

Giant Climbing Hybrid Nasturtiums

Giant Climbing

These new hybrids climb 5 to 6 feet and are fairly covered with brilliant colored flowers from spring until fall. This new strain is so very ornamental that it deserves a place in every garden, for the remarkable range of colors embracing rose, pink, purple, salmon, dark maroon, light maroon, light yellow, deep orange striped and blotched, extremely beautiful. Do not fail to give this Nasturtium a trial. All colors mixed, pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c. postpaid.

Giant Tom Thumb

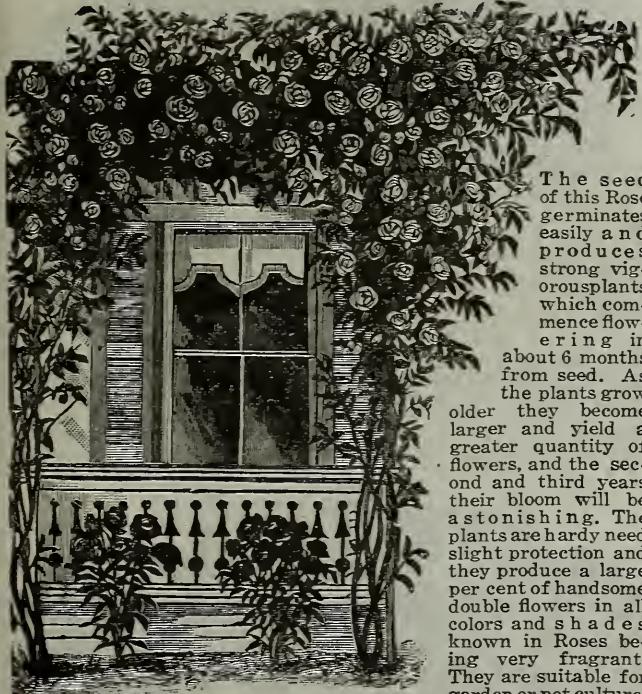

Great collection, giant flowering, best for bedding, flowers often 3 1/2 inches across producing a great profusion as shown by illustration. Blooms early and continues all summer. All colors mixed, pkt. 5c., 3 pkts. 12c., oz. 15c., 1/4 lb. 50c.

Remember, 82 Plants for \$5.00 and a Watch. Send plant order early

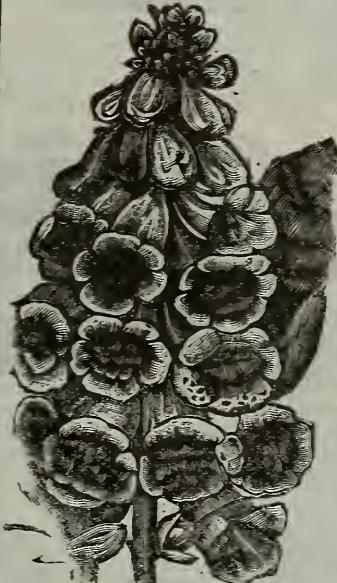

TOM THUMB NASTURTIUMS

NEW CROSS-BRED FRENCH HYBRID ROSES

The seed of this Rose germinates easily and produces strong vigorous plants which commence flowering in about 6 months from seed. As the plants grow older they become larger and yield a greater quantity of flowers, and the second and third years their bloom will be astonishing. The plants are hardy and need slight protection and they produce a large per cent of handsome double flowers in all colors and shades known in Roses being very fragrant. They are suitable for garden or pot culture. Pkt. 5c., 3 pkts. 12c.

FOXGLOVE (Digitalis)

Produces long spikes of richly colored flowers, excellent for cutting. A very showy plant, Blooms the first season, and continues throughout the season. Pkt. 5c., 3 pkts. 12c.

Nicotiana New Hybrid

Flowers freely from early summer until late in autumn, flowers being purple, snow-white, dark, light red, violet, salmon, pink, variegated and various other shades. It is an easy plant to grow. Flowers nearly as large as petunias. Good for summer, fall or winter blooming. All colors mixed, pkt. 5c., 3 pkts. 12c.

DATURA

This is a very showy and delicate pot plant, producing immense trumpet shaped flowers very quickly from seed, is fragrant and a very interesting plant to grow.

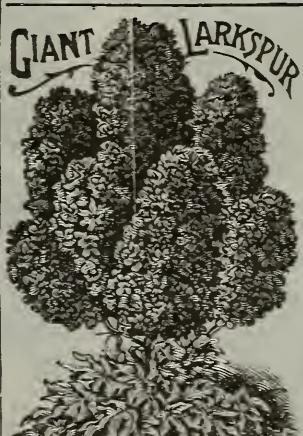

Pkt. 5c., 3 pkts. 12c.

The Giant Plant

This plant produces very handsome foliage and grows to an enormous size. Plants are often ten feet high, 10 to 15 ft. across, and with leaves 5 to 6 feet in width, making it a perfect wonder. It is a fine plant to grow in your garden or on the lawn. Pkt. 8c., 3 pkts. 20c.

Send us the names and addresses of your friends who would like our catalog of good Flower and Vegetable seeds.

Larkspur

Giant Hyacinth Flowered

An improved type producing large flowers, very double and of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground. All colors mixed pkt. 5c., 3 pkts. 12c.

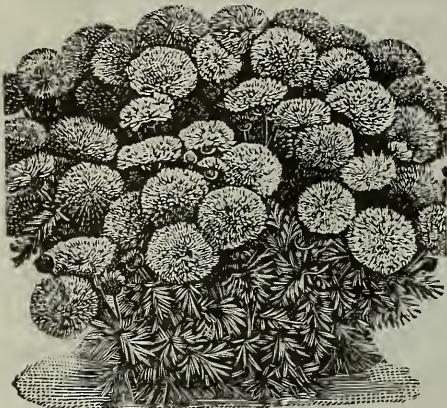

If you wish to make big money in short time, send for Agent's Contract Only Hustlers Wanted.

BUNCH OF ROSES ALL COLORS

This is a new strain, the plants being completely covered with bright flowers which are large and very brilliant. The florets are rose-colored with a darker spot of rose close to the base, while the center is pure white. On account of the flower heads being formed in clusters, its name, Bunch of Roses, was selected. It is a great bloomer and attracts much attention. Our seed comes from the best grower in Germany. Pkt. 5c. 3 pkts. 12c.

BABY GOLDEN GLOW

Baby Golden Glow is a beautiful annual producing yellow flowers. Begins to bloom early in the season and each plant produces hundreds of bright yellow flowers as double and perfect as a rose. Plants grow only about 20 to 24 inches in height, and on account of the great abundance of bloom attract attention for a long distance; are easy to grow from seed. Pkt. 5c. 3 for 12c.

PORTULACA=Royal Beauty

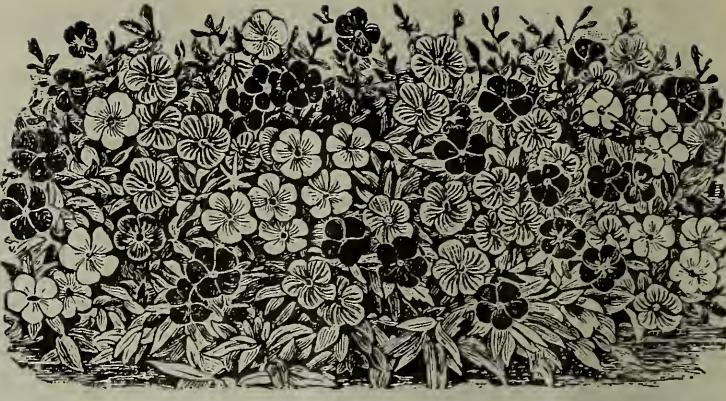

This is a grand new variety being recently introduced and has given great satisfaction wherever grown. The flowers are large and double, while the colors are very brilliant, of red, orange, white, maroon, and various other shades. A bed of these double portulacas makes a magnificent sight.

All Colors Mixed, pkt. 5c. 3 pkts. 12c.

Phlox BRILLIANT MIXTURE

A bed of these Annual Phlox surpasses almost anything else in dazzling brilliancy. Plants grow about 18 inches high, producing large trusses of immense flowers of various colors, such as deep rose, soft pink, maroon, purple, lavender, dazzling scarlet, pure white and many other shades. Brilliant Mixture cannot be equalled.

All colors mixed, pkt. 5c. 3 pkts. 12c.

Ornamental Cotton

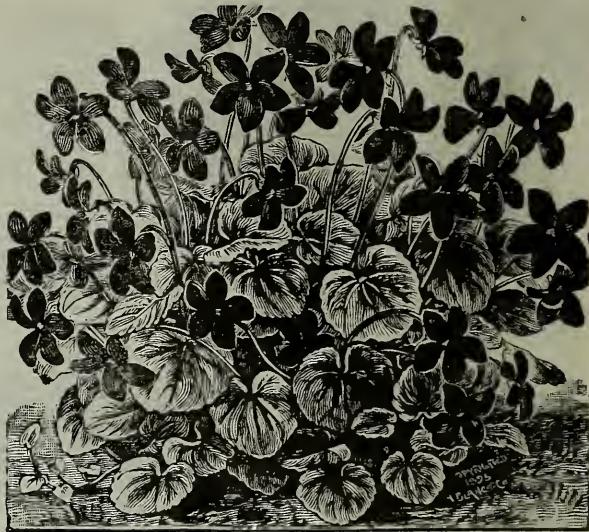

Beautiful decorative plant when growing. When used in the house as everlasting, are ornamental. Leaves different colors, cotton white. Pkt. 4c. 3 pkts. 10c.

CALLIOPSIS

These are easy to grow and produce a great profusion of bright colored flowers. We offer a choice collection, all varieties and colors mixed. Pkt. 4c. 3 pkts. 10c.

TUFTED OR BEDDING PANSY-VIOLETS

These are very popular for bedding. They produce beautiful pansy-like blossoms 2 to 2 1/2 in. across. Of the most brilliant colors; lemon, crimson, orange, maroon, purple, lavender, silver-gray, rose, blue, white, black and many other shades. Flowers are borne on long stems like violets. Seeds sown in May will flower in August and bloom next spring. All colors mixed, pkt. 6c. 3 pkts. 15c.

RICINUS (Castor Oil Bean)

ZANZIBARENSIS—A handsome, quick-growing plant and if started in the open ground in May should be in full foliage by July and attain a height of from 12 to 14 feet during the season. This is a giant variety and a few plants in a large bed make a picturesque sight, to be admired from a long distance. Leaves measure 2 1/2 to 4 ft. across. Giant varieties mixed, pkt. 5c. 3 pkts. 12c.

SMITH'S PETUNIAS—One of the finest collections of petunias to be found. We offer double, single, fringed and stained, and other shades and combinations impossible to describe, many flowers measuring 5 inches in diameter, producing abundance of bloom throughout summer. Our mixture contains many odd colors and sorts. All Colors. Pkt. 6c. 3 pkts. 15c. 6 pkts. 25c.

We believe this to be the best Catalog we have ever sent out. A fine collection of Seeds and Plants with right prices for A-I stock. PANSIES

Smith's Giant—We have taken a great deal of pains in making up this great collection of Giant Flowering Pansies, with all the odd colors and markings to be found among Pansies, many of which have been imported from Germany. The colors embrace nearly everything known, while the size of the flowers is enormous. If you want the finest lot of Pansies to be found anywhere, try this great mixture, and you will be more than pleased. All colors mixed. Pkt. 6c, 3 pkts. 15c.

29

Giant

Ruffled Masterpiece

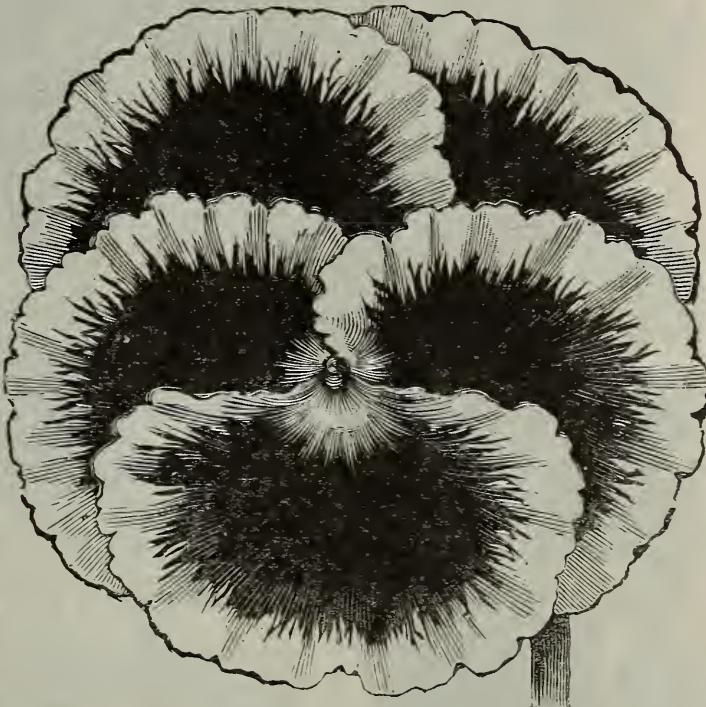

GIANT RUFFLED

GIANT RUFFLED MASTERPIECE—A new type in Pansies producing Giant flowers of the most distinct and striking character. The petals have a rich velvety substance and being ruffled gives them the effect of a double flower. Colors range through all shades known in Pansies. On account of the richness and beauty of colors, and distinct character of petals, we consider them a real curiosity. All colors mixed, pkt. 6c., 3 pkts. 15c.

IMPERIAL GERMAN

The Imperial German for a variety of colors and large sized flowers is a good one. They embrace all the solid colors, as well as the spotted and marked varieties, and the variations and combinations cannot be fully described. This splendid mixture embraces seeds of over fifty colors and markings. Pkt. 6c, 3 pkts. 15c.

Imperial German

SMITHS' GIANT VERBENAS

We offer a mammoth strain of verbenas which are easily grown from seed. It is the easiest and best way for an abundance of flowers to sow the seed, and we have selected nearly every variety in existence and put in this collection in order that it may be the most gorgeous flowering strain ever grown. Seed sown early will begin to bloom early in the summer and continue until killed by the frost. On account of the great number of rich and varied colors, it will be impossible to describe them, and they should be seen growing to be appreciated. All colors mixed. Pkt. 5c. 3 pkts. 12c.

SMILAX

We offer the popular Boston Smilax which is the most charming window vine on account of its beautiful glossy green foliage. Pkt. 5c, 3 pkts. 12c.

Sweet William

CHOICE MIXED—A hardy perennial, growing about 18 inches high. Both double and single flowers. All colors mixed. Pkt. 5c, 3 pkts. 12c.

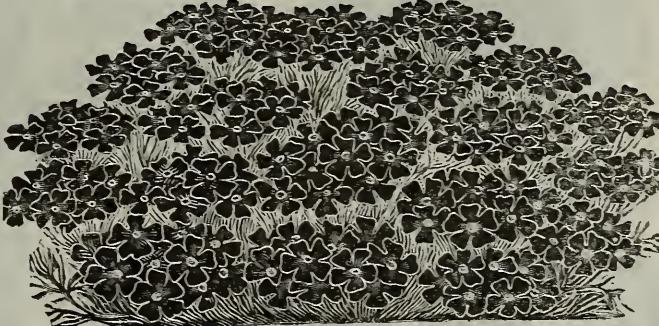

Godetia

The Godetia is a very handsome and showy flower of a rich, velvety satin rose of various shades. The flowers shine like satin. All mixed colors, pkt. 4c, 3 pkts. 10c.

Be sure to sign your name and give address on all orders.

Smiths' Giant Verbenas

MOSS VERBENAS

This new Verbena produces a mass of fine moss-like foliage, and as the branches spread out on the ground in all directions, a carpet of mossy green is formed, above which are borne its clusters of purplish-blue blossoms in great profusion. It is very hardy and robust and blooms in a very short time from sowing the seed. It should have place in every flower garden. Pkt. 5c. 3 pkts. 12c. 6 pkts. 20c.

SHOO-FLY PLANT

The Magic Wonder

Here is quite a curiosity of the Physalis family. It is claimed that flies will not stay in the room where it is grown if they can escape. We are unable to understand why this can be, as the plant or flower does not seem to have any odor. It is a great plant to bloom when grown in pots, summer or winter, and it is a most remarkable free flowering plant blooming in a short time from seed. It can be easily grown from seed.

Pkt. 6c., 3 pkts. 15c.

GODETIA

Selection OF ALL

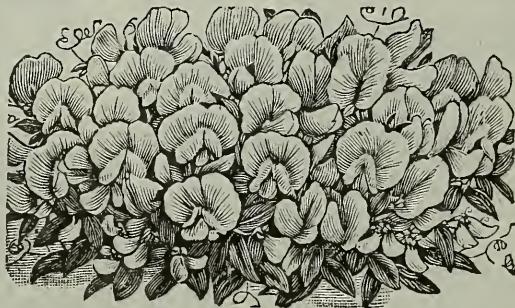

THE BEST NEW SWEET PEAS

Giant Flowering Mixture

We have made up this mixture of all the large and free flowering varieties as well as the different colors, and will guarantee no better collection can be found. Plants grow rapidly and produce an abundance of gigantic flowers borne on long stems. There are many early flowering varieties in this mixture and if sown early will soon begin to bloom and produce an abundance of flowers all summer. More than seventy different named varieties have been put in this great mixture. Be sure and try it.

Pkt. 5c., 3 pkts. 12c., oz. 10c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 60c., 1 lb. \$1.00, postpaid.

CUPID SWEET PEAS

CUPID SWEET PEAS, Mixed Colors—This mixture is made up of all the different colors in the Cupid varieties. Plants of this sort grow only about 5 inches high spreading out and forming a mass of foliage and flowers.

Pkt. 5c., 3 pkts. 12c.

EMILY HENDERSON—Is very early, large, pure white flowers. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 35c.

Four O'clocks, Marvel of Peru

The Four O'clock is a very desirable plant. It grows in any soil. The flowers have a strange habit of remaining closed until about four o'clock when they burst open. The roots are hardy and perennial growing from year to year. **Mixed Colors**, pkt. 5c., 3 pkts. 12c.

STOCKS (Ten Weeks)

LARGE FLOWERING GLOBE PYRAMIDAL—This variety produces immense spikes of perfectly double flowers; individual blooms measuring from 2 to 2½ inches in diameter; colors are crimson, white, rose, blue, lilac, brown, flesh color, apple blossom and yellow. They are greatly prized for cut flowers on account of their fragrance and many colors. Pkt. 5c., 3 pkts. 12c.

Perennial Mixed Sweet Peas

Cannot be praised too highly. Blooms constantly, from early until late. Produces a profusion of large, clustered flowers on long stems, colors white, pink, rose, etc. Pkt. 5c., 3 pkts. 12c.

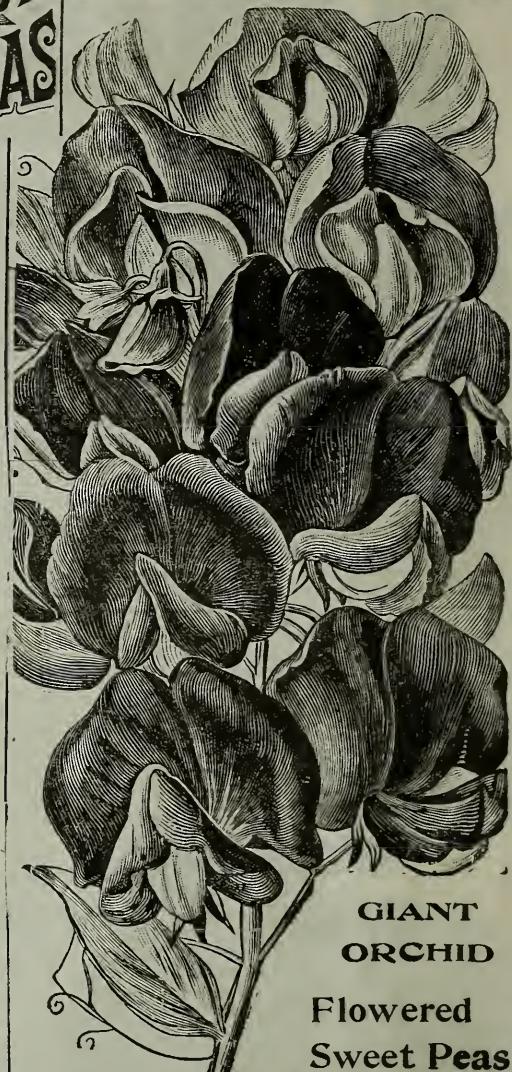

SPENCER HYBRID

—QR—

Giant Orchid-Flowered Sweet Peas

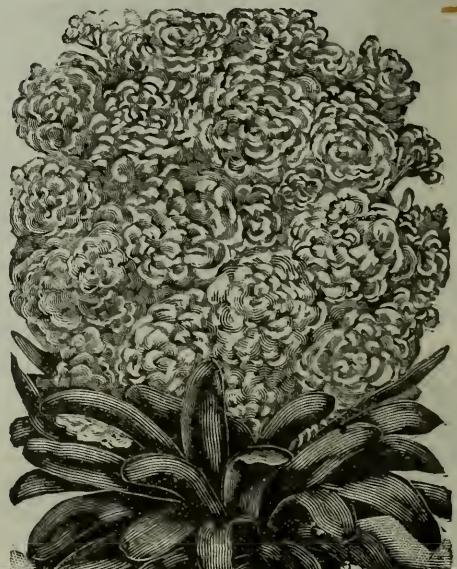

This Sweet Pea is very popular. The illustration gives but a little idea of its mammoth size, and a very faint idea of the shape, the enormous flowers are waved to a remarkable degree, giving them the well deserved title of "Giant Orchid-Flowered" beyond comparison to all other varieties, and the harmony of soft coloring in the varieties we offer in this mixture is simply beyond the power of words to describe. The mixture contains shades in white, crimson, lavender, blush, etc., some deeper in shade to others of the same color. If you only have one packet of Sweet Peas this season, let it be this collection of Spencer or Giant Orchid-Flowered.

Pkt. 6c., 3 pkts. 15c., oz. 20c., $\frac{1}{4}$ lb. 65c.

GIANT ORCHID

Flowered Sweet Peas

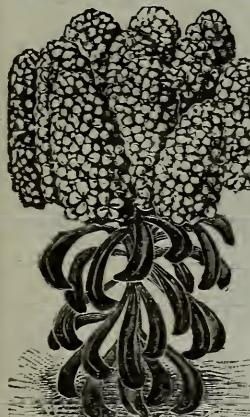

DOUBLE SWEET PEAS.

DOUBLE—Produce from 20 per cent. to 50 per cent. double flowers. We have the very finest strain in existence with all the best colors, making a grand mixture. It is very attractive. Pkt. 5c., 3 pkts. 12c., oz. 15c.

GIANT JAPANESE MORNING GLORIES

CANDYTUFT

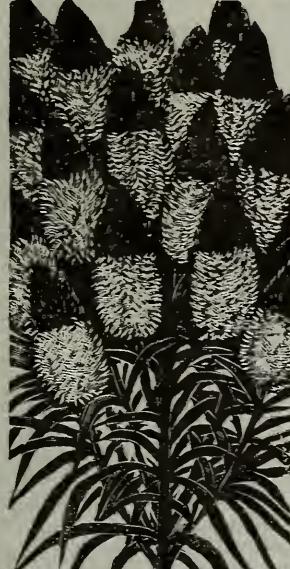

Dwarf Hybrids Mixed

This is of dwarf habit and the colors range from pure white to dark purple.

Pkt. 4c., 3 pkts. 10c.

Celosia, or Coxcomb

SPICATA—Very startling plant as shown by engraving, growing about 2½ feet high, blossoms being silvery, white tipped, with bright rose.

Pkt. 5c., 3 pkts. 12c.
All varieties and colors mixed—Will produce a curious collection of plants.

Pkt. 4c., 3 pkts. 10c.

CACTUS

We have a great collection of these curious plants which are easily grown from seed, and our mixture will produce a great variety of odd and curious plants. The cactus is very interesting to grow
Pkt. 6c., 3 pkts. 15c.

Gaillardia—Single and Double

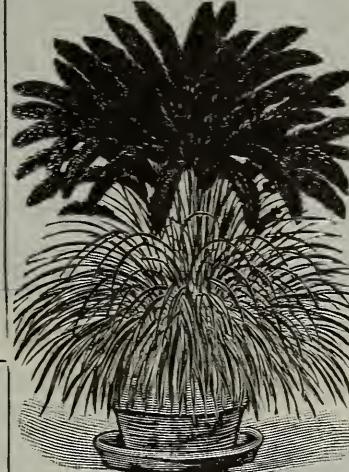

This plant blooms readily from seed the first year, and the flowers are very much admired for their rich and varied colorings. It will thrive everywhere. We offer a fine collection, all colors mixed.

Pkt. 4c., 3 pkts. 10c.

Giant Japanese Morning Glory

The flowers of this Morning Glory are of gigantic size and the colorings and markings range from snow-white to dark purple, with all the intermediate shades, such as pink, fiery red, rose, copper, carmine, crimson, deep blue and pale blue, royal purple, maroon, indigo, bronze, slate, and cherry, while many have throats spotted, marbled and striped. Our collection contains both single and double, and seed comes direct from Japan. All colors mixed, pkt. 5c., 3 pkts. 12c.

Purple Feather Grass

A great curiosity, and very useful for lawn or house decorations. Grows rapidly. The re-curving leaves, which are narrow, grow very gracefully and are overtopped by feathery plumes about a foot long. The heads are borne from July until frost, and the whole plant seems to be veiled in a purple cloud. It is a very ornamental house plant and of easy culture. Readily grown from seed. Pkt. 5c. 3 pkts. 12c. 6 pkts. 20c.

Weather Plant

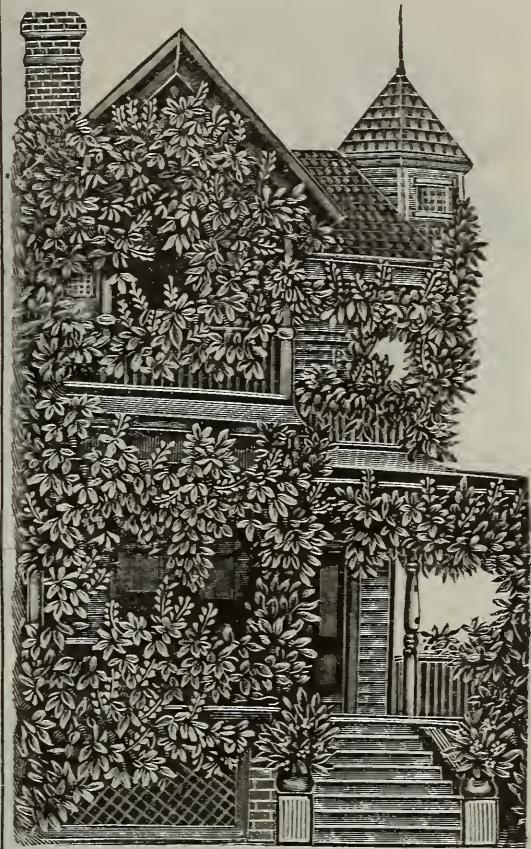

A beautiful flowering vine, fern-like foliage and clusters of flowers. Is claimed the leaves foretell the weather two days in advance. If leaves stand up from the twig at an angle of 45 degr., the sky will be cloudless and weather beautiful. If they stand out straight, changeable weather is indicated, or if the leaves drop down, indications are rain. If leaves are hanging straight down it indicates it will be very wet.

Pkt. 5c., 3 pkts., 12c.

JAPANESE KUDZU VINE 31

(Jack and the Bean Stalk Vine)

Comes from Japan. With ordinary treatment it will grow 70 feet in one season, filling the air with the fragrance of its large clusters of wistaria-like blossoms. Requires very little care, and in 3 months this wonderful vine grows as much as most vines do in 5 years. Perfectly hardy, lasts for years. Pkt. 5c., 3 pkts. 12c.

DAHLIAS—EARLY LARGE FLOWERING MIXED

We offer a selected strain of Early Flowering Dahlias, and if the seed is sown early they will produce an abundance of flowers the first season. This collection is made up of all the odd markings, shapes and sizes, and make a very interesting display, including everything that can be easily grown from seed. They germinate as easily as the Zinnia, and from the start grow fast and develop strong, stocky plants. All colors, shapes and sizes in a mixture. Pkt. 5c., 3 pkts. 12c.

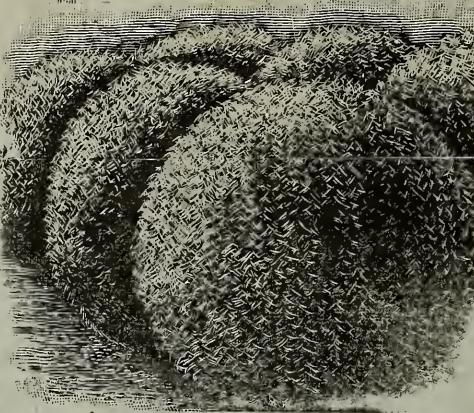

MAMMOTH BLACKBERRY SEED

Try our Mammoth Blackberry this year. Different from any other, being the largest ever grown. The enormous fruits sometimes measure 2½ to 2½ inches in length. Core is small and very soft, while flavor is of unusual richness. Vine is a vigorous grower. We offer seed only. Pkt. 6c., 3 pkts. 15c.

Easily grown from seed. Young plants will produce an abundance of bloom as soon as well started. Make excellent pot plants or can be grown in a flower bed. Colors are very beautiful, and plants will bloom for months. All colors mixed. Pkt. 6c., 3 pkts. 15c.

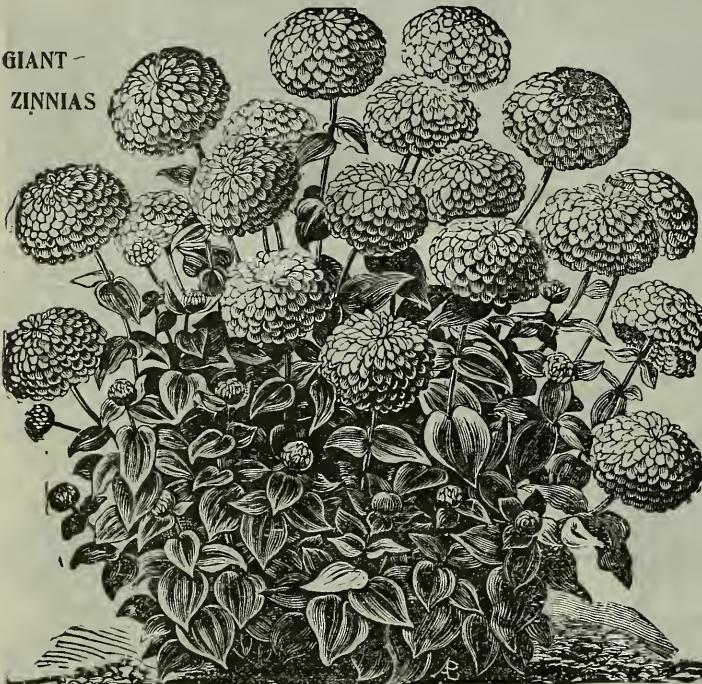

SUMMER CYPRESS

This is a very ornamental plant. It somewhat resembles a rounded globe-like evergreen highly colored. There is nothing more handsome for an annual hedge. Early in the fall the ends of the shoots are thickly set with small bright scarlet flowers. The plants are very showy, and when planted in rows show the round ball-like form, making a very pretty plant. Easily grown from seed planted in the open ground in the spring. Pkt. 5c., 3 pkts. 12c.

GIANT ZINNIAS

GIANT -
ZINNIAS

GIANT MAMMOTH MIXED

This is a new class of Zinnias, giant in size and has perfect double flowers of the richest and most varied colors and shapes, measuring over five inches across; of intensely brilliant colors. The plants grow about three feet high and bloom very freely throughout the season.

All Colors Mixed, pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

Musk Plant—**New Compact**—This is a grand old plant, excellent for beds; for pot culture. Foliage is highly musk scented. Pkt. 4c., 3 pkts. 20c.

CHINESE LANTERN PLANT

Chinese Lan-
tern Plant

When treated like a tomato it grows and fruits freely from seed the first season. Produces numerous large unfolded husks, the shape of Chinese lanterns, at first a beautiful green color changing to yellow, then to bright scarlet. For pies, or dried in sugar for fruit cakes or puddings. It is most delicious. It is a Japanese production and easily grown in any garden. Try it.

Pkt. 5c., 3 pkts. 12c., postpaid.

SUMMER CYPRESS

Mignonette

LARGE FLOWERING

Largest and best for garden culture. Grows strong and stocky, handsome foliage. Flower spikes are large sized, completely filled with giant florets, and packed full of anthers. The fragrance is rich and powerful and it is excellent for cutting. We have made up a collection containing all the different varieties.

Pkt. 4c., 3 pkts. 10c., 7 pkts. 20c.

EVERLASTINGS

This collection is made up of all the leading varieties of everlasting flowers. Very attractive, and flowers will keep for years without a drop of water and look as fresh as when first picked. Our collection contains a large variety of colors.

Pkt. 4c. 3 pkts. 10c.

MARIGOLD

All Colors Mixed
we have made up the very best collection of Marigolds to be found anywhere. They grow quickly and produce an abundance of bright and attractive colors. There are many shades of yellow; crimson; brown; red and various other combinations of colors. The plants are completely covered with very handsome blossoms from early summer until fall.

Pkt. 5c., 3 pkts. 12c.

Well known popular plants for either pot culture in the winter or summer bedding. Few people know how easily and quickly they bloom from seed. You can get all the plants you want with very little trouble and expense by sowing the seed. Some of the finest sorts have been raised from seed. Start early and you will have plenty of bloom the first year. Extra Choice, Good Mixed Double and Single, pkt. 8c., 3 pkts. 20c.

GERANIUM SEED

Nigella—This is an easy growing annual, making a compact plant one to two feet high. It produces large double porcelain blue and white flowers, which completely cover the plant. The foliage is odd and striking. Mixed colors, pkt. 5c., 3 pkts. 12c.

FORGET-ME-NOT

ALPESTRIS BLUE—A grand free-flowering sort and the very best blue variety. Will thrive in almost any soil.

Pkt. 4c., 3 pkts. 10c.

WILD CUCUMBER VINE

One of the quickest growing climbers in our list. Will grow 30 feet in one season. Is thickly dotted over with pretty white fragrant flowers, followed by an abundance of ornamental and prickly seed pods. To cover unsightly buildings or fences, nothing will equal it.

Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

SURPRISE COLLECTION OF FLOWER SEEDS

We always have a surplus of many varieties of flower seeds, for we are obliged to grow large quantities in order to make sure to supply our customers. We have decided to put this surplus seed into packets and give as great a collection of different varieties as possible and offer 10 Packets of our Choice Seeds (our own selection) of surplus stock **For 25c. Postpaid.**

LOBELIA

This makes an excellent pot plant for window culture, blooming in about four weeks, making a handsome little pot of flowers. The colors are exceedingly bright, and we offer a good collection of colors mixed.

Pkt. 5c., 3 pkts. 12c.

SMITHS' NEW AND RARE FRUITS

Every Garden should have a good supply of Fruit. It is an indispensable part of any rural home. Examine our list carefully. It is a good one.

clay and the canes are absolutely hardy. Price of Strong Well Rooted Plants, 20c each 6 for \$1.00, 15 for \$2.00 by mail postpaid.

EVERBEARING TREE RED RASPBERRY

Nothing Like It Ever Offered

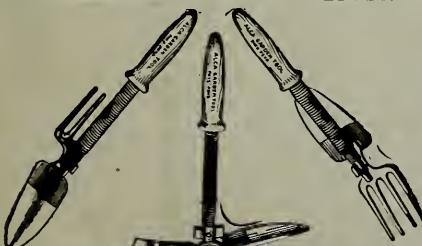

This new tree Raspberry is certainly a wonder—producing fine berries from Summer to Fall. One of the very impressive features about this new berry is the flavor which does not change in either season. This new berry differs considerably from St. Regis, it only produces one crop the first year after planting, thereafter, it continues to bear during almost the entire Summer and Fall. You should give this grand berry a trial. Strong plants, 30c each, 3 for 60c, 6 for \$1.00, 15 for \$2.00, mail postpaid; Ex. not prepaid 25 for \$2.60, 50 for \$5.00.

STRAWBERRY-RASPBERRY

Strawberry-Raspberry

This is a beautiful fruit from Japan. The bush grows from 1½ to 2 feet high, is perfectly hardy, and a very rapid grower. The berries are produced on stems above the foliage, always of a bright, shining scarlet, and larger than the largest strawberries. An immense yielder, producing an abundance of fruit, bears the first season and gets larger and stronger each year. Plants which we offer, may be started early in spring or late in October, all selected from large stock. Plants 15c each, 3 for 35c, 6 for 60c, 12 for \$1.00 postpaid.

Combination 5 in 1 Garden Tool--Price 50c Postpaid

GARDEN OR GREENHOUSE

While weeding, digging, planting and transplanting flowers and plants, it saves the annoyance of missing tools. This five fold paraphernalia consists of trowel, fork, hoe, weeder, dibble, a combination tool of the best material, stout and compact, occupying a small space and weighing less than a pound. A spring releases the particular tool desired.

ST. REGIS EVERBEARING RED RASPBERRY

BEARS THE FIRST SEASON — RASPBERRIES IN FOUR MONTHS—that is what you get when you plant the St. Regis—the New Everbearing Variety.

St. Regis is unlike any other Raspberry for it yields a crop of fruit the first season it is planted and continues to bear fruit perpetually for four months. Plants set early in April gave ripe berries on June 20 of the same year and the canes continued to produce ripe berries freely, without intermission until the middle of Oct. The berries are large and beautiful, brilliant crimson, firm and full flavored to the very last.

St. Regis is of pure American blood and of ironclad hardness, the canes enduring the severest cold uninjured and are wonderfully prolific. Its foliage never suffers by sunburn or scald, nor is its growth of cane impaired by the heat and drouth of summer.

In addition to the bright crimson color and large size, it is so firm and rich in sugar that it will stand shipping 200 miles, arriving in market in first class order, and it can readily be kept in perfect condition for several days after being gathered. It succeeds upon all soils, whether light and sandy or cold heavy

THIS HANDSOME WATCH FREE

SUMMER FRUITING STRAWBERRIES

KELLOGG'S PRIZE

The most wonderful strawberry ever originated. The berries are sometimes as large as a hen's egg, very highly colored, and the flavor is delicious. The plants bear abundantly. Among the summer fruiting varieties this one is unquestionably the leader, in fact its splendid qualities cannot be overestimated. Plants 10c each, 3 for 25c, 8 for 50c. 20 for \$1.00, 50 for \$2.50. Postpaid by mail.

KELLOGG'S PRIZE

FENDALL

FENDALL is called the Giant Berry. It produces large berries and great quantities of fruit, said to have produced 16,000 quarts to the acre. It is hardy and will grow in a wide range of territory. Has a very lengthy fruiting season, berries having been gathered from the middle of May until July. The fruit is very large and has a delicious flavor, and plants are very productive. One of the most popular of the pistillate varieties. Plants 10c each, 3 for 25c, 8 for 50c, 20 for \$1.00, 50 for \$2.50. Postpaid by mail.

TRUE FALL FRUITING STRAWBERRIES

THE FALL FRUITING STRAWBERRIES are new creations in the strawberry line. The main thing that distinguishes them from the common kinds is their habit of blooming from May until winter. Under ordinary conditions they bear a crop of berries from June until November. The main crop is in September and October if the blossoms are kept picked off up to about August. Young plants set out in the spring will produce a crop of berries in the fall and all the runners they make will produce fruit the next season from spring until fall, while the plants set this year will be stronger and produce a larger and heavier crop. We advise all of our customers to start a few of the Fall fruiting strawberries, **Americus** being our favorite.

AMERICUS (Per.) This is a seedling of the Pan American and Lewis Gauthier. The plants are strong growers, very hardy and healthy, and seem to do well all through the season. They also stand the winter well and the roots are bright and healthy in the spring, the same as other kinds of strawberries that do not fruit in the fall. **Americus** continues to produce fruit for a long period and is regarded by fruit growers as one of the best fall fruiting varieties yet offered. The fruit is a handsome red color and the flavor is the best, surpassing all other varieties in quality. Do not fail to grow it. **Prices, 3 strong plants for 50c, 6 for 80c, 12 for \$1.50, 30 for \$3.00.** Postpaid by mail.

SUPERB (Per.) A close rival to **Americus** as a fall cropper, yields fruit only on the parent plant. The berries are rich blood red from surface to center. As a June cropper it yields enormous crops of fine berries, and if the summer season is any way moist, late in September the same plants are filled with fruit. Here is a strawberry plant that should be grown by every berry grower. **Prices, 3 strong plants for 50c, 6 for 80c, 12 for \$1.50, 30 for \$3.00.** Postpaid by mail.

SMITH BROS. SEED Co.,

AUBURN, N.Y.
